Handbook of Research on Innovation and Development of E-Commerce and E-Business in ASEAN - Almunawar, Mohammad Nabil

2020-08-28

Business-to-consumer (B2C) and consumer-to-consumer (C2C) e-commerce transactions, including social commerce, are rapidly expanding, although e-commerce is still small

when compared to traditional business transactions. As the familiarity of making purchases using smart devices continues to expand, many global and regional investors hope to target the ASEAN region to tap into the rising digital market in this region. The Handbook of Research on Innovation and Development of E-Commerce and E-Business in ASEAN is an essential reference source that discusses economics, marketing strategies, and mobile payment systems, as well as digital marketplaces, communication technologies, and social technologies utilized for business purposes. Featuring research on topics such as business culture, mobile technology, and consumer satisfaction, this book is ideally designed for policymakers, financial managers, business professionals, academicians, students, and researchers.

Global Perspectives on E-Commerce

Taxation Law - Dr Subhajit Basu 2013-01-28

In its most advanced form, e-commerce allows unidentified purchasers to pay obscure vendors in 'electronic cash' for products that are often goods, services and licenses all rolled into one. This book considers the implications for the domestic and international tax systems of the growth of e-commerce. It covers a wide variety of activities, from discussion of the principles governing direct and indirect taxation, to explanation of the implementation and use of e-commerce on the part of businesses as well as the application of existing tax principles in this field. With its focus on the broader issues surrounding the expansion of e-commerce and its attention to the problems arising internationally in this field, *Global Perspectives in E-Commerce Taxation Law* will appeal to scholars worldwide.

Grocery E-commerce - Niels Kornum 2005-01-01

This book attempts to shed light on why it is so difficult to develop and maintain successful businesses in the grocery e-commerce arena. Within the last five years, grocery e-commerce has experienced both consistent successes such as Tesco.com and irrevocable failures such as Webvan.com. Niels Kornum and Mogens Bjerre bring key researchers together to investigate the factors contributing to the success of grocery e-commerce, particularly in countries that had the earliest and most extensive experiences in this field: the USA, the UK and Scandinavia.

E-Business Service Level Agreements - Andrew Hiles, Hon FBCI, EIoSCM 2016-06-01

Your customers don't care whether it is you, your ISP, ASP, or other outsourced provider who screws up - they just know they can't do business with you when they want to. All that matters is that your e-business is failing to deliver - and that you need to hold someone accountable. Meaningful Service Level Agreements (SLAs) are unambiguous,

comprehensive, and enforceable. SLAs commit suppliers to a defined quality of service: failure to meet explicit service levels can result in penalties or even legal action. Spectacular losses often follow e-business outages, particularly when SLAs are not in force. The biggest hit is not necessarily loss of income or profit, but impact on stock values - especially when markets are skittish. Some losses have exceeded \$40 million with stock values falling by 26%. This new book offers the keys to effective SLAs with Internet Service Providers (ISPs) and Application Service Providers (ASPs), which can go a long way toward averting catastrophic losses as well as day-to-day headaches.

Linking Up and Reaching Out in Bangladesh

- Henry K. Bagazonzya 2010-01-21

The microfinance sector in Bangladesh has matured rapidly in the past 30 years and now boasts the largest number of clients in the entire world. Despite these successes, the day-to-day operations of most microcredit institutions in Bangladesh are done manually. The introduction of a centralized information and communications technology (ICT) platform in the microfinance sector will provide further cost savings by streamlining data so that errors, omissions, and duplications (client overlap) are eliminated. Moreover, the introduction of a centralized ICT platform will help to ensure transparency through the standardization of information

exchange and accounting mechanisms, increase outreach to rural areas, and integrate the largely informal microfinance sector with the formal financial system. 'Linking Up and Reaching Out in Bangladesh' shows how the establishment of a centralized microfinance platform would revolutionize the country's microfinance sector. This volume will be a useful guide for practitioners, policy makers, and microfinance institutions around the world.
