*The Truth Behind the Christ
Myth* - Mark Amaru Pinkham
2002-04

Return of the Serpents of
Wisdom and Conversations
With the Goddess author
Pinkham tells us the Truth
Behind the Christ Myth and
presents radically new
information regarding Jesus
Christ and his ancient legend,
includes: The legend of Jesus
Christ is based on a much
earlier Son of God myth from
India, the legend of Murrugan,
the Peacock Angel; The symbol
of the Catholic Church is
Murrugan's symbol, the
peacock, a bird native to south-
east Asia; Murrugan evolved
into the Persian Mithras, and
Mithras evolved into Jesus
Christ Saint Paul came from
Tarsus, the centre of Mithras
worship in Asia Minor. He
amalgamated the legend of the
Persian Son of God onto Jesus'

life story; The Three Wise Men were Magi priests from Persia who believed that Jesus was an incarnation of Mithras; While in India, Saint Thomas became a peacock before he died and merged with Murrugan, the Peacock Angel; The Emperor Constantine, the first 'Christian' Emperor of the Roman Empire, was a lifelong devotee of Mithras. He was baptised Christian on his deathbed; The myth of the One and Only Son of God originated with Murrugan and Mithras.

Red Moon Rising - Peter D. Goodgame 2004-12-01

How does the apocalypse actually begin? What will cause the creator of the universe to intervene in the affairs of humanity, affecting mankind globally, decisively, and unmistakably? For the secular world today, the possibility of divine intervention is either ignored or mocked, yet the book of Revelation predicts that a global cataclysm will occur. Red moon rising offers a challenge both to prophecy skeptics outside the church and to prophecy scholars within the church with its systematic and sensible chronological model of prophetic events, from the birth pangs of the apocalypse, to the brief triumph of the antichrist, to the final destruction of the beast's kingdom and the second coming of Jesus Christ.

The Second Coming of the Antichrist - Peter D. Goodgame 2012-08-05
Five thousand years ago the world fell victim to the rise of history's first great superpower: a massive empire based on the expansion of trade backed by overwhelming military might, under the leadership of a legendary figure who was feared and worshiped as a god. Indeed, this ancient king's legacy left a lasting imprint upon history, mythology, and religion, eclipsed only by the appearance of Jesus Christ three thousand years later. The Antichrist is dead, but his story is not over. Through an extensive analysis of archaeological evidence, ancient mythological accounts, and biblical and occult predictions, *The Second Coming of the Antichrist* reveals that story.

The Attakapas Country - Harry Lewis Griffin 1999-12-31
This comprehensive volume traces the history of Lafayette Parish, from its earliest beginnings and the struggle between the Attakapas Indians and the first white settlers, French Canadians, English traders, and French trappers to the conditions in 1959, when this historical work was first published. Over the course of this history, Griffin analyses everything from the territorial and political evolution of the parish to the development of transportation and travel, and from the founding of the schools to the early financial and industrial conditions. Griffin also provides accounts of the flood of 1927, the greatest challenge Lafayette Parish had to overcome in its early history and a sign of the persevering spirit that would help the parish to overcome such destructive forces.

English Garden Cities - Mervyn Miller 2015-04-01

The Garden City Movement provided a radical new model for the design and layout of housing at the turn of the nineteenth century and set standards for the twentieth century which were of international significance. The vision of the movement's founder, Ebenezer Howard, drew on many strands of political and utopian thought, and initially aimed at addressing the problems of an increasingly urban and dysfunctional society along 'the peaceful path to real reform'. It took only five years, from 1898 to 1903 for the idea to take root in the open fields of North Hertfordshire, when Earl Grey proclaimed the Letchworth Garden City Estate open. Letchworth was followed by Hampstead Garden Suburb, Welwyn Garden City and numerous smaller developments, and Garden City ideas informed both inter-war housing policy and New Town planning after the Second World War. Present-day issues such as sustainable development and eco-

settlements have their roots in the Garden City. Written by the leading authority in the field, this book tells the story of a major development in England's urban and planning history and provides a timely popular survey of the achievements of the Garden City Movement and the challenge of change. This will not only appeal to planners and conservation professionals, but also residents of the garden cities.

The Jesus Puzzle - Earl Doherty 2005-01

A new presentation of the argument that no historical Jesus existed. A full and comprehensive survey of the question through an examination of the early Christian record, canonical and non-canonical, from Q to the Gospels, from the earliest Pauline epistles to the second century apologists, along with Jewish, Gnostic, and Greco-Roman documents of the time. The philosophy of the era, its religious expression in the pagan mystery cults, fascinating glimpses into the

historical background of the period, an in-depth consideration of the Jewish historian Flavius Josephus, are only some of the additional topics covered in the book. A richly-detailed, highly lucid and entertaining account of how Christianity began without an historical Jesus of Nazareth, who came to life only on the pages of the Gospels. While based on the author's work for 'The Jesus Puzzle' website, the book is almost entirely an original writing, not a compilation of website articles. Like the website itself, the book has been styled for the general reader, though the scholarly community will find it of value as well.

- Wilfred H. Munro 1997

Beginning with the visits of the Northmen, the historical narrative moves forward through accounts of the Indian wars, the character and lives of the early settlers in Bristol, the events of the American Revolution, the privateers of the War of 1812, the commerce

of the port, and sketches of the region's distinguished men as it progresses towards the present. There is also a "Roll of Honor" of Bristol men who served in the Civil War, and a roll of representatives in the General Court of Plymouth Colony, 1682-1692; the General Court of Massachusetts, 1692-1746; and in the General Assembly of Rhode Island from 1747 to 1880.

Liberty or Equality - Erik von Kuehnelt-Leddihn 2007

Sometime in the 18th century, the word equality gained ground as a political ideal, but the idea was always vague. In

this treatise, Erik von Kuehnelt-Leddihn argues that it reduced to one simple and very dangerous idea: equality of political power as embodied in democracy. He marshals the strongest possible case that democratic equality is the very basis not of liberty, as is commonly believed, but the total state. He uses national socialism as his prime example. He further argues the old notion of government by law is upheld in old monarchies, restrained by a noble elite. Aristocracy, not democracy, gave us liberty. On his side in this argument, he includes the whole of the old liberal tradition, and offers overwhelming evidence for his case. In our times, war and totalitarianism do indeed sail under the democratic flag. This book, capable of overturning most of what you thought you knew about political systems, was first published in 1952.

Surveillance, Architecture and Control - Susan Flynn 2019-01-21

This edited collection examines the culture of surveillance as it

is expressed in the built environment. Expanding on discussions from previous collections; *Spaces of Surveillance: States and Selves* (2017) and *Surveillance, Race, Culture* (2018), this book seeks to explore instances of surveillance within and around specific architectural entities, both historical and fictitious, buildings with specific social purposes and those existing in fiction, film, photography, performance and art. Providing new readings of, and expanding on Foucault's work on the panopticon, these essays examine the role of surveillance via disparate fields of enquiry, such as the humanities, social sciences, technological studies, design and environmental disciplines. *Surveillance, Architecture and Control* seeks to engender new debates about the nature of the surveilled environment through detailed analyses of architectural structures and spaces; examining how cultural, geographical and built space buttress and produce power relations. The various

essays address the ongoing fascination with contemporary notions of surveillance and control.
