FUNDAMENTALS OF FINANCIAL MANAGEMENT - BHABATOSH BANERJEE 2015-05-01

Financial Management is so crucial for any organization--public or private sector--as profit maximization and increasing the shareholder value depend, to a large measure, on efficient and effective financial management of the company or firm. With this end in view, Professor Bhabatosh Banerjee, drawing from his expertise and his rich and long years of experience, gives a masterly analysis of the fundamental principles of financial management along with their applications. While retaining the distinguishing features of the previous edition, the book is now a much more comprehensive one on Financial Management. Significant changes have been incorporated into the chapters relating to cost of capital, analysis of leverages, capital structure theories and planning, capital budgeting decision, working capital management, changes in financial position, accounting ratios and financial statement analysis, mergers and acquisitions and corporate governance for further value addition of the book. The book is logically organized into five parts--Part I: Basic Concepts, Part II: Financial and Dividend Decisions, Part III: Investing in Long-term and Short-term Assets, Part IV: Performance Analysis and Measurement, Part V: Contemporary Topics--to enable the students to understand the concepts, with suitable

cases, chronologically and more effortlessly. This book is primarily intended as a text for the students of commerce and management courses. It will also be highly useful for those appearing in CA and ICWAI examinations. In addition, the text will benefit practising finance and accounting professionals, corporate managers, and participants in management development programs. **KEY FEATURES** • Includes numerous illustrations, worked-out problems and exercises covering recent questions in university and professional examinations. • Gives corporate practices in professional management, wherever found necessary. This will enable the students to acquaint themselves with real-life situations. • Provides Case Studies in a few complex chapters to enhance the analytical and presentation skills of the students in a classroom setting.

Capital Structure and Firm Value - Dr. Maloth Raghu Ram 2018-12-03
Capital Structure decision is one of the crucial decisions to be taken by a

company. There are divergent views regarding Capital Structure and Firm Value. There is dearth of studies in the area of Pharma Industry regarding Capital Structure and Firm Value. Therefore, the present study seeks to answer the following questions: what are the factors determining the Capital Structure decision in Pharma sector in India? What is the relationship between select variable and company value? What is the impact of leverage on stock price volatility of Pharma Companies? Period of the study is eleven years from 2005 to 2015. The panel data regression model has been employed. It can be concluded that Debt-Equity Ratio has negative impact on capital structure of a company. It was revealed from the findings that majority of the select variables have significant impact on the capital structure. The study also brings to light the fact that leverage effect is dominant in the stock market. Findings of the present study are useful in gaining valuable insights into the intricacies of capital structure, firm value and leverage effect. The study is useful to finance managers, investors, researchers and also to academicians doing research in the area of corporate finance.
