About the Book Nothing but the change is constant—goes a well-known saying. The quote holds true for all spheres & aspects of human life & business environment. The onset of the 21st Century brought itself the turbulence in the business environment that had far reaching effects. The subprime crises that originated in the USA took its toll on many financial giants & the ripples created are yet to calm down. Hence in this scenario no student of management can afford to remain oblivious of the factors that determine & affect the business environment. The students hence should be well versed with the background of the world economy now & then. Another important highlight of this era has been the process of liberalisation, privatisation & globalisation which have brought about wide challenges & opportunities in most of the countries. The emergence of China & India has been phenomenon & is expected to take over the United States as the largest economy of the world. The organisations have to retune their strategies & ways of doing business in order to take the advantage

of these developments. It is because of these reasons that the Universities & Institutes have incorporated the subject of Business environment to be taught to the management students.
