This pack, produced by the Driver and Vehicle Standards Agency, contains three DVD designed to help learner drivers prepare for the theory and practical aspects of the driving test.

Fire & Blood - George R. R. Martin 2021-08-24

#1 NEW YORK TIMES BESTSELLER • The thrilling history of the Targaryens comes to life in this masterly work, the inspiration for HBO's Game of Thrones prequel series House of the Dragon "The thrill of Fire & Blood is the thrill of all Martin's fantasy work: familiar myths debunked, the whole trope table flipped."—Entertainment Weekly Centuries before the events of A Game of Thrones, House Targaryen—the only family of dragonlords to survive the Doom of Valyria—took up residence on Dragonstone. Fire & Blood begins their tale with the legendary Aegon the Conqueror, creator of the Iron Throne, and goes on to recount the generations of Targaryens who fought to hold that iconic seat, all the way up to the civil war that nearly tore their dynasty apart. What really happened during the Dance of the Dragons? Why was it so deadly to visit Valyria after the Doom? What were Maegor the Cruel's worst crimes? What was it like in Westeros when dragons ruled the skies? These are but a few of the questions answered in this essential chronicle, as related by a learned maester of the Citadel. Readers have glimpsed small parts of this narrative in such volumes as The World of Ice & Fire, but now, for the first time, the full tapestry of Targaryen history is revealed. With all the scope and grandeur of Gibbon's The History of the Decline and Fall of the Roman Empire, Fire & Blood is the first volume of the definitive two-part history of the Targaryens, giving readers a whole new appreciation for the dynamic, often bloody, and always fascinating history of Westeros. Praise for Fire & Blood "A masterpiece of popular historical fiction."—The Sunday Times "The saga is a rich and dark one, full of both the title's promised elements. . . . It's hard not to thrill to the descriptions of dragons engaging in airborne combat, or the dilemma of whether defeated rulers should 'bend the knee,' 'take the black' and join the Night's Watch, or simply meet an inventive and horrible end."—The Guardian

Upon the Gardens of Epicurus - William Temple 2004

Sir William Temple, diplomat, statesman, and writer, retired to his garden in the 1680s and wrote what has become one of the key texts, not only of gardening, but also of the English aesthetic. It was he who introduced the idea of the charm of irregularity, and who gave it the allegedly Chinese name sharawadgi. The English style of landscape gardening can be traced in a direct line to this essay, which has not been in print for over 95 years.

How the Body Shapes the Mind - Shaun Gallagher 2006-10-12

How the Body Shapes the Mind is an interdisciplinary work that addresses philosophical questions by appealing to evidence found in experimental psychology, neuroscience, studies of pathologies, and developmental psychology. There is a growing consensus across these disciplines that the contribution of embodiment to cognition is inescapable. Because this insight has been developed across a variety of disciplines, however, there is still a need to develop a common vocabulary that is capable of integrating discussions of brain mechanisms in neuroscience, behavioural expressions in psychology,

design concerns in artificial intelligence and robotics, and debates about embodied experience in the phenomenology and philosophy of mind. Shaun Gallagher's book aims to contribute to the formulation of that common vocabulary and to develop a conceptual framework that will avoid both the overly reductionistic approaches that explain everything in terms of bottom-up neuronal mechanisms, and inflationistic approaches that explain everything in terms of Cartesian, top-down cognitive states. Gallagher pursues two basic sets of questions. The first set consists of questions about the phenomenal aspects of the structure of experience, and specifically the relatively regular and constant features that we find in the content of our experience. If throughout conscious experience there is a constant reference to one's own body, even if this is a recessive or marginal awareness, then that reference constitutes a structural feature of the phenomenal field of consciousness, part of a framework that is likely to determine or influence all other aspects of experience. The second set of questions concerns aspects of the structure of experience that are more hidden, those that may be more difficult to get at because they happen before we know it. They do not normally enter into the content of experience in an explicit way, and are often inaccessible to reflective consciousness. To what extent, and in what ways, are consciousness and cognitive processes, which include experiences related to perception, memory, imagination, belief, judgement, and so forth, shaped or structured by the fact that they are embodied in this way?

Ceramic and Metal Matrix Composites - M. Fuentes 1996-11-01

"Ceramic and Metal Matrix Composites" provide an update on this field, and identifies new problem areas. Newcomers will find that it provides a sound basis for learning how inorganic matrix composite materials are made and how they behave. Volume is indexed by Thomson Reuters CPCI-S (WoS). A total of 148 articles cover practically every area of current interest within the ambit of CMCs and MMCs.

A Clash of Kings - George R. R. Martin 2003-01-01

THE BOOK BEHIND THE SECOND SEASON OF GAME OF THRONES, AN ORIGINAL SERIES NOW ON HBO. A SONG OF ICE AND FIRE: BOOK TWO In this thrilling sequel to A Game of Thrones, George R. R. Martin has created a work of unsurpassed vision, power, and imagination. A Clash of Kings transports us to a world of revelry and revenge, wizardry and warfare unlike any we have ever experienced. A comet the color of blood and flame cuts across the sky. And from the ancient citadel of Dragonstone to the forbidding shores of Winterfell, chaos reigns. Six factions struggle for control of a divided land and the Iron Throne of the Seven Kingdoms, preparing to stake their claims through tempest, turmoil, and war. It is a tale in which brother plots against brother and the dead rise to walk in the night. Here a princess masquerades as an orphan boy; a knight of the mind prepares a poison for a treacherous sorceress; and wild men descend from the Mountains of the Moon to ravage the countryside. Against a backdrop of incest and fratricide, alchemy and murder, victory may go to the men and women possessed of the coldest steel . . . and the coldest hearts. For when kings clash, the whole land trembles.

Road of the Beast - White Wolf Publishing 2002-10-01

The Yangtze Valley and Beyond - Isabella Lucy Bird 1900
