           The Non-Verbal Ninja Training Course Non-verbal reasoning questions in the 11+ exam provoke anxiety amongst students and parents alike, since the test seems, at first, to be unlike the activities of normal everyday life. In reality, however, it is straightforward to train to improve one's performance in these puzzles. The Non-Verbal Ninja Training Course from Eureka! Eleven Plus Exams is a three-part series of training books with several features to maximise the skill boost they provide to students. Full explanations are given immediately after each block of questions Visual explanations

are provided where these are easier to understand The early questions of each type are easy, testing only one or two rules Challenging, broad-ranging questions are soon introduced Each question teaches an additional skill or reinforces a core skill You are not told in advance exactly what the rule will be, so you build confidence in identifying the rule for yourself - a crucial skill for exam success The series of books, studied in sequence, covers the spectrum of types of format of questions and of the types of rule being tested. Some rules can be tested in many different settings. Dedicated practice and, more importantly, careful review of the explanations of questions that turned out to be difficult, is the key to success in Non-Verbal Reasoning.

Non-Verbal Reasoning Assessment Papers 10-11 -  
Pamela Macey 2010-07

This book contains 8 assessment papers. Each paper contains a range of question types using shapes, pictures and patterns. The simple layout is similar to that used in many exam papers. The papers therefore, help children to become familiar with the question types and to become more confident tackling these types of tests. Non-verbal reasoning assesses a child's ability to see patterns and relationships, independent of language or prior learning. The

tests are particularly helpful for children who may have specific difficulties with literacy, or for whom English is an additional language. They provide a clear indication of a child's ability to identify and work successfully with abstract concepts. The papers can be used as timed assessment tests or worked through a little at a time for regular non-verbal reasoning practice. Initially, it is better to focus on accuracy, then, as your child gains confidence, working at speed can be developed. Use the pull-out answer booklet to mark completed papers. Children can use the score boxes in the margin to make a note of their marks for each section. They then record their overall scores on the progress grid at the back of the book. It is a good idea to work through completed papers with your child then you can identify any areas of weakness or confusion and discuss those questions together.

*Success Assessment Papers -*  
Mark Patmore 2011-08-01

Three sets of ocean liners, each destined to be of three vessels, dominated the Atlantic in the Edwardian era. The race to build the biggest and the best began with Mauretania and Lusitania in 1906, followed by the White Star Line's Olympic and Titanic in 1911-12. Each of these pairs was to see a larger sister, developed as a result of changes needed or desired as a result of operating the two earlier vessels, with Cunard's being Aquitania and White Star's, the ill-fated Britannic. Germany's answer to these British behemoths was the Albert-Ballin designed trio of Emperor, Vaterland and Bismarck. Through misfortune or war, two of these vessels would sink but the others led useful lives, with Aquitania

surviving two world wars before being scrapped. Designed to be the absolute engineering achievements of their time, these nine vessels dominated the Atlantic. J. Kent Layton tells the story of the Edwardian Superliners in this

fabulously illustrated volume, showcasing many images previously unpublished and never before seen. Rarely can one describe a book as definitive, but this volume truly deserves the accolade.
