*First Century* - Jack Zevin  
2015-01-09

Now in its 4th edition, this popular text offers practical, interesting, exciting ways to teach social studies and a multitude of instructional and professional resources for teachers. Theory, curriculum, methods, and assessment are woven into a comprehensive model for setting objectives; planning lessons, units, and courses; choosing classroom strategies; and constructing tests for some of the field's most popular and enduring programs. The reflective and integrative framework emphasizes building imagination, insight, and critical thinking into everyday classrooms; encourages problem-solving attitudes and behavior; and provokes analysis, reflection, and debate. The text includes separate chapters on teaching each of the major areas of the social studies curriculum. Throughout the text, all aspects of curriculum and instruction are viewed from a tripartite perspective that

divides social studies instruction into didactic (factual), reflective (analytical), and affective (judgmental) components. These three components are seen as supporting one another, building the groundwork for taking stands on issues, past and present. At the center is the author's belief that the heart and soul of social studies instruction, perhaps all teaching, lies in stimulating the production of ideas; looking at knowledge from others' viewpoints; and formulating for oneself a set of goals, values, and beliefs that can be explained and justified in open discussion. New in the Fourth Edition: Clear links to the The National Council for the Social Studies College, Career and Civic Life C3 Framework for Social Studies State Standards Attention to impact of high-stakes testing, Common Core State Standards, and related ongoing developments Expanded and critical review of the use of internet, web, and PowerPoint technologies Coverage of how to incorporate

the many social science, humanities, and STEM fields to enrich the social studies

*U.S. History* - P. Scott Corbett 2017-12-19

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).  
*Yesterday, Today, and Tomorrow* - Roslyn Arlin Mickelson 2017-11-14  
*Yesterday, Today, and Tomorrow* provides a compelling analysis of the forces and choices that have

shaped the trend toward the resegregation of public schools. By assembling a wide range of contributors—historians, sociologists, economists, and education scholars—the editors provide a comprehensive view of a community’s experience with desegregation and economic development. Here we see resegregation through the lens of Charlotte, North Carolina, once a national model of successful desegregation, and home of the landmark Swann desegregation case, which gave rise to school busing. This book recounts the last forty years of Charlotte’s desegregation and resegregation, putting education reform in political and economic context. Within a decade of the Swann case, the district had developed one of the nation’s most successful desegregation plans, measured by racial balance and improved academic outcomes for both black and white students. However, beginning in the 1990s, this plan was gradually dismantled. Today, the level of

resegregation in Charlotte has almost returned to what it was prior to 1971. At the core of Charlotte’s story is the relationship between social structure and human agency, with an emphasis on how yesterday’s decisions and actions define today’s choices.
