Accounting in a Nutshell - Janet Walker 2011-04-08

Designed primarily for middle and junior management who deal with financial information without really understanding the content; students who are studying accounting as a non-specialist subject, for example on a business studies or engineering course. The book serves as a basic reference to

be used throughout the course.

It will also be particularly helpful in providing the basic grounding that is required before moving on to the more technical and in-depth study of the subject that may be required on some courses.

Students who are embarking on a course of study to become a professional accountant will also find this book of major

benefit. In addition to revisions through out, a new new chapter 'Making long-term investment decisions' covering capital investment decisions, extends and rounds out the final part of the book: using Financial Information to Manage a Business. The chapter deals with the investment appraisal process and covers the main investment appraisal techniques from the point of view of a non-specialist: payback periods, accounting rate of return and discounted cash flow methods are just some of the new topics covered. The focus will be on the level of understanding that a non-specialist requires in the work place as such, in keeping with the rest of the book, the chapter includes practical examples and exercises to enhance the reader's understanding. * Jargon free and easy to understand - no prior knowledge of the subject necessary * Focuses on the principles and use of accounting information * Review questions to assess

progress at each stage and many fully worked exercises and examples

CIMA E1 - BPP Learning Media 2012-08-01

CIMA offers a business qualification with a finance

focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. The CIMA E1 exam covers a variety of topics that are unrelated but are all essential to the running of a successful business. There is a strong theoretical basis to this subject and it is important that students understand how to apply these theories in the 'real world'. The key E1 subject areas are: * The global business environment * Information systems * Marketing * Managing human capital. The E1 Study Text comprehensively covers all the E1 syllabus areas. It breaks down each topic into manageable chunks and clearly describes all relevant theories. The questions in the question bank demonstrate how these theories should be applied in an exam situation.

Text - Astranti 2021-05-21

I was very impressed with the quality of the materials. They were so well written and much easier to understand than my previous provider's official texts. So much so that I passed my E2 exam gaining my highest grade so far using Astranti's study text. - Gayle June 2019 Simple, easy to understand and very effective, notes are logical and very easy to follow. - Monique June 2019 I like how it's condensed and easy to read. - Paul December 2020 After having cancelled my P1 and E1 exams because I was failing to understand the concepts under another tuition provider I decided to use Astranti books. These are well explained with detailed examples. I managed to pass my subjects on first time attempts. - Isheunesu

December 2021 What I really liked were Astranti's Study texts. They were written in this engaging, interactive way which I personally found very interesting (I usually zone out and get really bored) when I have to read extremely theoretical content. - Clare

December 2020 The Astranti study texts have been used by thousands of CIMA students in preparation for their management accountancy exams. They cover the entire CIMA syllabus for the 2019 exams and onwards and have been carefully written to be concise and easy to read but detailed enough to clearly guide you through the topics you must know in order to pass the exams. Prepared by our expert team of professional writers the study texts feature:

- Full syllabus coverage
- Clear and simple explanations for ease of understanding
- Carefully worked step-by-step examples
- Condensed and focused on likely exam content

Performance Attribution: History and Progress - Carl

R. Bacon 2019-12-23

The objective of performance attribution is to explain portfolio performance relative to a benchmark, identify the sources of excess return, and relate those sources to active decisions by the portfolio manager. This review charts the development of attribution from its beginning with Fama decomposition in the 1970s, through its foundations in the 1980s, into its issues of multiperiod and multicurrency attribution in the 1990s, and ending on its more detailed models for fixed-income and

risk-adjusted attribution in recent years. Types of attribution (including returns based, holdings based, and transaction based) are also discussed as is money-weighted attribution and developments associated with notional funds.

F1 FINANCIAL REPORTING - STUDY TEXT. - KAPLAN. 2020

World Development Report 1978 - 1978

This first report deals with some of the major development issues confronting the developing countries and explores the relationship of the major trends in the international economy to them.

It is designed to help clarify some of the linkages between the international economy and domestic strategies in the developing countries against the background of growing interdependence and increasing complexity in the world economy. It assesses the prospects for progress in accelerating growth and alleviating poverty, and identifies some of the major policy issues which will affect these prospects.

CIMA E2 - BPP Learning Media 2012-01-01

Question practice is essential for all papers, but for E2 it is particularly important to be able to put the theories and techniques you have studied into practice. E2 is an integrated paper, but you learn the topics separately, so it is only by doing questions that you can draw the different areas of the syllabus together. Our Practice and Revision Kit follows the order of the text and there are a large number of questions on all syllabus topics. This is essential, as all questions on

the paper will be compulsory. Our Practice and Revision Kit gives ample opportunity to practice both the 10 mark Section A questions and the longer Section B scenario questions. Two mock exams also reflect this format. Most questions have marking schemes, so that you can see what skills and techniques the examiner values. While there are some marks for textbook knowledge - and you should make sure you get these - many of the marks will be for applying this knowledge to the scenario in the question. Even Section A questions often require this

application.
