Now What? - Larry Tramatola 2013-03-19

Effective elected leaders can make a huge difference in their communities; conversely those elected who are ineffective can create significant and long term problems. The point of this book is to identify common problems that elected officials face during their service, and offer practical solutions. Since we rarely elect "perfect leaders," our democratic system is structured so ordinary citizens can become successful as long as they work at it. Interestingly, the people who find the greatest success as public officials are those who quickly pivot their attention from "Me" to "We," develop effective relationships with their colleagues, and listen more and talk less.

Madame Sousatzka - Bernice Rubens 2011-09-28

Madame Sousatzka is a gifted piano teacher who specializes in child prodigies and hosts her lessons in the dilapidated London home she shares with three other eccentrics: a 'countess' in retirement, a gay osteopath, and a 'woman-of-the-evening'. Madame Sousatzka's newest student is an astonishing talent, and in her hands, the new boy will blossom into musical genius. But the public cannot hear him yet: until his debut he belongs to Sousatzka and her bizarre hot- house tenants. One day he will be a great pianist - until that day he must play only for Sousatzka ... This moving and entertaining novel by Booker Prize-winning author Bernice Rubens was adapted into the 1988 film starring Shirley MacLaine. 'A story of delectable charm and wit. Passionate, comical, touchingly unaware of oddity, Madame Sousatzka is Ms Rubens' most engaging creation, inimitable and unforgettable.'-The Times

Nine Lives - Bernice Rubens 2012-08-31

The killer's modus operandi is the same in each instance: strangulation, always with a guitar string, pulled tight from behind until life is taken. And though the murders are happening up and down the country, there is one other similarity that Inspector Wilkins can't help noticing. Each and every victim is a psychotherapist... Donald Dorricks is on a mission. Nine shrinks to go and his crusade is complete. Yet, even after giving himself up and confessing to the killings, he still protests his innocence. And just as Inspector Wilkins struggles to catch the killer, Dorricks' wife Verine attempts to understand the reasoning behind the murders. Then as her husband's tale emerges, it reveals a past peppered with secrets from which Donald had never been able to escape. Until now ... A black comedy that mixes whodunit and whydunit, *Nine Lives* is the unsettling story of a very English murderer - a novel of suspense, strangulation and psychotherapy. 'A glorious black comedy...to sum up in three words: wonderful, wonderful, wonderful.'

Meanwhile two new incomers disturb the life of the home further; Mrs Feinberg, a sprightly Jewish woman of whom the other residents are immediately suspicious, and the elegant Mr Rufus. An Elected Second Chamber - Great Britain. Ministry of Justice 2008-07-14

This white paper sets out the Government's proposals for a reformed second chamber. It stems from the constructive discussions in a Cross-Party Group on House of Lords Reform, which followed the March 2007 Parliamentary votes on the proposals contained in the February 2007 white paper ("The House of Lords: reform", Cm. 7027, ISBN 9780101702720). The Group reached consensus on a number of key issues, and this paper states where agreement was not reached. The white paper sets the context for decisions on House of Lords reforms and goes on to consider issues around, and options for, electoral systems. The effect of different electoral systems is examined against two scenarios: that the House is either 100 per cent or 80 per cent elected. The paper then looks at the powers of the second chamber. It suggests possible arrangements for any appointed elements, but there are no concrete proposals yet. Finally the white paper addresses other issues around the operation of a reformed second chamber and explores transitional arrangements.

Conventional wisdom has it that the successful functioning of the UN Security Council almost completely depends on the role played by its five permanent members and the extent to which they can agree—or avoid to fundamentally disagree—on the many issues on the Council's agenda. But the Council also consists of ten non-permanent or elected members who represent five different regions of the world, and who, though not vested with the right of veto, play an indispensable role in Council decision-making. This book aims to take a closer look at that role.
