How to Read a Paper - Trisha Greenhalgh 2014-02-26

The best-selling introduction to evidence-based medicine In a clear and engaging style, *How to Read a Paper* demystifies evidence-based medicine and explains how to critically appraise published research and also put the findings into practice. An ideal introduction to evidence-based medicine, *How to Read a Paper* explains what to look for in different types of papers and how best to evaluate the literature and then implement the findings in an evidence-based, patient-centred way.

Helpful checklist summaries of the key points in each chapter provide a useful framework for applying the principles of evidence-based medicine in everyday practice. This fifth edition has been fully updated with new examples and references to reflect recent developments and current practice. It also includes two new chapters on applying evidence-based medicine with patients and on the common criticisms of evidence-based medicine and responses. *How to Read a Paper* is a standard text for medical and nursing schools as well as a friendly guide for everyone wanting to teach or learn the basics of evidence-based medicine.

Alkaline Herbal Medicine - Aqiyl Aniy 2016-09-19

Alkaline Herbal Medicine gives insight into many of the herbs used to reverse disease in Dr. Sebi's African Bio Mineral Balance. It covers

scientifically supported properties, preparation, doses and dosages, and how to combine herbs. It addresses alkaline foods on the Dr. Sebi nutritional guide, and their chemical affinity with and support of the electric body. The natural order in life designed the body to be healthy and heal under the right conditions. These conditions are programmed into the DNA of Homo sapiens, whose base DNA makeup is the African genome. Diets centered on the consumption of natural alkaline plant foods and ample exposure to the sun supported the healthy expression of the African genome. The environment of Africa, and environments similar to Africa, produced life that developed with a complete and balanced electrical structure. The plant life that grew in these environments grew under optimal conditions in nutrient rich soil under year long exposure to the sun. The resulting chemical makeup of these natural alkaline plants protected them from environmental stresses. Africans originally ate diets centered on the consumption of these plants, like the great apes of Africa, and the programming of the African genome used the protective nature of these plants' nutrients to support its vibrancy. A scientific model supports the idea that Africans migrated out of Africa hundreds of thousands of years ago into the less hospitable environments of Europe and Asia. These environments didn't support the healthy expression of the African genome and resulted in the mutation of the gene and the development of the Neanderthal of Europe and Denisovan of East Asia. Science has linked diseases like lupus, Crohn's disease, and type 2 diabetes to the Neanderthal gene. The Neanderthals, who inhabited the Neandertal caves in Germany, ate a diet centered on the consumption of meat. The combination of their meat-centered diet and adverse relationship with the sun led to the development of dis-ease in the body. Now, the meat-centered diet is being globalized and is spreading disease throughout the world. An alkaline plant-centered diet and the use of alkaline herbal medicine naturally support the healthy expression of the African genome in all people, and reverses chronic disease. Pharmaceutical medicine is built on the power of medicinal herbs because around fifty percent of its drugs are derived from herbs. The issue is industry has strategically conditioned people to forget about the

healing power of natural alkaline herbs. I dedicate this book in the memory of Alfredo Bowman lovingly known as Dr. Sebi. He helped us to remember that natural alkaline herbs and plant foods support the healthy expression of the African genome that is in all people. He did this by sharing his African Bio Mineral Balance methodology. Categories: herbal remedies, naturopathy, healing, herbs, herbal medicine

The Afghanistan Papers - Craig Whitlock 2021-08-31

A Washington Post Best Book of 2021 The #1 New York Times bestselling investigative story of how three successive presidents and their military commanders deceived the public year after year about America's longest war, foreshadowing the Taliban's recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military become mired in an unwinnable guerrilla conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama,

and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, The Afghanistan Papers contains "fast-paced and vivid" (The New York Times Book Review) revelation after revelation from people who played a direct role in the war from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government's strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn't know the name of his Afghanistan war commander—and didn't want to meet with him. Secretary of Defense Donald Rumsfeld admitted that he had "no visibility into who the bad guys are." His successor, Robert Gates, said: "We didn't know jack shit about al-Qaeda." The Afghanistan Papers is a "searing indictment of the deceit, blunders, and hubris of senior military and civilian officials" (Tom Bowman, NRP Pentagon Correspondent) that will supercharge a long-overdue reckoning over what went wrong and forever change the way the conflict is remembered.

Isis Papers - Frances Cress Welsing 2008

The ISIS Reader - Haroro J. Ingram 2020-01-01

In the wake of its "Caliphate" declaration in 2014, the self-described Islamic State has been the focus of countless academic papers, government studies, media commentaries and documentaries. Despite all this attention, persistent myths continue to shape--and misdirect--public understanding and strategic policy decisions. A significant factor in this trend has been a strong disinclination to engage critically with Islamic State's speeches and writings--as if doing so reflects empathy with the movement's goals or, even more absurdly, may itself lead to radicalisation. Going beyond the descriptive and the sensationalist, this volume presents and analyses a series of milestone Islamic State primary source materials. Scholar-practitioners with field experience in confronting the movement explore and contextualise its approach to warfare, propaganda and governance, examining the factors behind its dramatic evolution from failed proto-state in 2010 to standard-bearer of global jihadism in 2014, to besieged insurgency in 2018. The ISIS Reader will help anyone--students and journalists, military personnel, civil servants and inquisitive observers--to better understand not only the evolution of Islamic State and the dynamics of asymmetric warfare, but the importance of primary sources in doing so.

From Territorial Defeat to Global ISIS: Lessons Learned - J.A. Goldstone 2021-02-25

When Islamic State (ISIS) forces were driven out of the territories they had acquired in Syria and Iraq, there remained a concern that the threat posed by ISIS was far from over. It was clear that significant long-term strategies would be needed to establish and maintain security and stability if the potential for further radical Islamist threats in the Middle

East and among NATO countries was to be eradicated. This book presents papers from the NATO Advanced Research Workshop (ARW) entitled *The Post ISIS-Era: Regional and Global Implications*, held in Washington DC, USA, from 6-8 September 2019. The ARW brought together participants from NATO member nations and Partner countries, and from diverse backgrounds, including academia, security, law enforcement, intelligence, military, foreign affairs, media, think tanks, international organizations and embassies. Topics covered included: the future of ISIS after the loss of its territories; maintaining security and stability; analysis of ISIS recruitment and propaganda activities; the returnee problem and the plight of refugees; the processes of radicalization; response to the changing nature of violent extremism; policy recommendations to mitigate the consequences of new threats; and dealing with the exploitation of public fear of terrorism. The book also discusses how the lessons learned can be implemented, and offers specific policy recommendations for the future. It will be of interest to all those involved in combating the international terror threat.

Race Code War - Khari Enaharo 2003

"There are more than 200 negative words associated with the word black and more than 100 positive meanings or synonyms attributed to the word white. This analysis of semantics and semiotics illustrates how words are not racially neutral and can convey negative values within the African American community or any community of color. Also examined are the impact of images, from paintings of Jesus to images of Santa Claus, and how they have shaped the way blacks are viewed and how they view themselves. This is not a book on political correctness, but rather a guide to becoming more aware of and sensitive to the impact that words and images can have on the psyche."

Empire of Fear - Andrew Hosken 2015-12-17

In June 2014 Islamic State launched an astonishing blitzkrieg which saw them seize control of an area in the Middle East the size of Britain. The news was soon filled with their relentless acts of savagery, yet nobody seemed to know who they were or where they'd come from. Now BBC

reporter Andrew Hosken delivers the inside story on Islamic State. Through extensive first-hand reporting, Hosken builds a comprehensive picture of IS, their brutal ideology and exterminationist methods. Equally compelling and horrifying, *Empire of Fear* reveals how Islamic State came to be, explores how they might be defeated and asks a frightening question - if they were brought down, could we stop another group emerging to replace them?

The Rise of Islamic State - Patrick Cockburn 2015-02-03

The essential "on the ground" report on the fastest-growing new threat in the Middle East, from the winner of the 2014 Foreign Affairs Journalist of the Year Award Born of the Iraqi and Syrian civil wars, the Islamic State astonished the world in 2014 by creating a powerful new force in the Middle East. By combining religious fanaticism and military prowess, the new self-declared caliphate poses a threat to the political status quo of the whole region. In *The Rise of Islamic State*, Patrick Cockburn describes the conflicts behind a dramatic unraveling of US foreign policy. He shows how the West created the conditions for ISIS's explosive success by stoking the war in Syria. The West—the US and NATO in particular—underestimated the militants' potential until it was too late and failed to act against jihadi sponsors in Saudi Arabia, Turkey and Pakistan.

100 Amazing Facts About the Negro with Complete Proof - J. A. Rogers 2014-09-15

First published in 1934 and revised in 1962, this book gathers journalist and historian Joel Augustus Rogers' columns from the syndicated newspaper feature titled *Your History*.
