**History without Chronology** - Stefan Tanaka  
2019-01-01

Although numerous disciplines recognize multiple ways of conceptualizing time, Stefan Tanaka argues that scholars still overwhelmingly operate on chronological and linear Newtonian or classical time that emerged during the Enlightenment. This short, approachable book implores the humanities and humanistic social sciences to actively embrace the richness of different times that are evident in non-modern societies and have become common in several

scientific fields throughout the twentieth century. Tanaka first offers a history of chronology by showing how the social structures built on clocks and calendars gained material expression. Tanaka then proposes that we can move away from this chronology by considering how contemporary scientific understandings of time might be adapted to reconceive the present and pasts. This opens up a conversation that allows for the possibility of other ways to know about and re-present pasts. A multiplicity of times will help us broaden the historical horizon by embracing the heterogeneity of our lives and world via rethinking the complex interaction between stability, repetition, and change. This history without chronology also allows for incorporating the affordances of digital media.

2011-01-04

10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your

plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator.

Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

**At Home in Exile** - Helga M Griffin 2021-02-16

This is a story of a girl's construction of her identity, and of her family's search for a place in the world, for the Heimat that is so resonant for those of German background. We follow Helga through an adventurous childhood in Iran, whose vast open spaces her mother called 'my spiritual home'. Her engineer father worked on a grand scale, designing and laying roads and railways, and tunnelling through mountain ranges. Then came the invasions of World War II, and the family, half-German, half-Austrian, found themselves on a long voyage to Australia, designated enemy aliens. They were interned for nearly five years in the dusty Victorian countryside. On their release at the end of the War, stranded in Melbourne, they sought another home. The children were dispatched to convents, and at the Academy of Mary Immaculate, Helga found a temporary homeland, in faith. Everyday life in the Australia of the late 1940s and early 1950s is freshly seen by this feisty, loving migrant family. Through their eyes, we encounter a strange place, Australia, as if for the first time. Helga's development from a thoughtful, sensitive child to a self-possessed young woman, wrestling with her faith and with how to live a decent life, is vividly recounted.
