The Spanish Lake - Oskar Hermann Khristian Spate
2004-11-01

This work is a history of the Pacific, the ocean that became a theatre of power and conflict shaped by the politics of Europe and the economic background of Spanish America. There could only be a concept of the Pacific once the limits and lineaments of the ocean were set and this was undeniably the work of Europeans. Fifty years after the Conquista, Nueva España and Peru were the bases from which the ocean was turned into virtually a Spanish lake.

Portrait of Lozana - Francisco Delicado 1987

The Impostor - Rodolfo Usigli 2005

A failed history professor hoping to advance his career tries to capitalize on his extensive knowledge of the Mexican Revolution and its leaders in this play, which enjoyed enormously popular success after its 1948 publication and continues to attract contemporary audiences. El gesticulador (The Impostor) is regarded by literary historians as the play

that signaled the start of modern Mexican drama. Set in 1930s post-revolutionary Mexico, its basic ingredients are history and myth, honesty and duplicity, truth and falsehood as well as political intrigue, corruption, party politics and the social dynamics of the Mexican family.

Considered by some as an ill-disguised attack against Mexican values and traditions and especially against the Revolution and the party in power, the play was rejected and criticized by government officials and labor leaders while still enjoying popularity. Because of its treatment of Mexico's cultural traits and the universality of its themes, *El gesticulador* has retained currency and relevance through the years and has been translated into several languages.

Transformative Constitutionalism in Latin America - Armin von Bogdandy 2017-06-16
This ground-breaking collection of essays outlines and explains the unique development of Latin American jurisprudence. It introduces the idea of the *Ius Constitutionale Commune en América Latina* (ICCAL), an original Latin American path of transformative constitutionalism, to an Anglophone audience for the first time. It charts the key developments that have transformed the region and assesses the success of the constitutional projects that followed a period of authoritarian regimes in Latin America. Coined by scholars who have been documenting, conceptualizing, and

comparing the development of Latin American public law for more than a decade, the term ICCAL encompasses themes that cross national borders and legal fields, taking in constitutional law, administrative law, general public international law, regional integration law, human rights, and investment law. Not only does this volume map the legal landscape, it also suggests measures to improve society via due legal process and a rights-based, supranational and regionally rooted constitutionalism. The editors contend that with the strengthening of democracy, the rule of law, and human rights, common problems such as the exclusion of wide sectors of the population from having a say in government, as well as corruption, hyper-presidentialism, and the weak normativity of the law can be combatted more effectively in future.

Teaching Tech Together - Greg Wilson 2019-10-08

Hundreds of grassroots groups have sprung up around the world to teach programming, web design, robotics, and other skills outside traditional classrooms. These groups exist so that people don't have to learn these things on their own, but ironically, their founders and instructors are

often teaching themselves how to teach. There's a better way. This book presents evidence-based practices that will help you create and deliver lessons that work and build a teaching community around them.

Topics include the differences between different kinds of learners, diagnosing and correcting misunderstandings, teaching as a performance art, what motivates and demotivates adult learners, how to be a good ally, fostering a healthy community, getting the word out, and building alliances with like-minded groups. The book includes over a hundred exercises that can be done individually or in groups, over 350 references, and a glossary to help you navigate educational jargon.

The Anatomy of a Library - Richard H. Dillon 1970

Christ Versus Arizona - Camilo José Cela 2007

Christ versus Arizona turns on the events in 1881 that surrounded the shootout at the OK Corral, where Wyatt Earp, Doc Holliday, and Virgil and Morgan Earp fought the Clantons and the McLaurys. Set against a backdrop of an Arizona influenced by the Mexican Revolution and the westward expansion of the United States, the story is a bravura performance by the 1989 Nobel Prize-winning author. A monologue by the nave, unreliable, and uneducated Wendell L. Espana, the book weaves together

hundreds of characters and a torrent of interconnected anecdotes, some true, some fabricated. Wendell's story is a document of the vast array of ills that welcomed the dawning of the twentieth century, ills that continue to shape our world in the new millennium. "Cela prefers the weird, the apparently meaningless and the amorphous. The world of his novels has been likened to that of Hieronymus Bosch and Brueghel; he sees man as a prisoner in a forbidding universe where chaos and imperfection always defeat the idealist." Paul West "Cela is a restless spirit. In him is united a marked fondness for experiment with a provocative attitude. At the same time he can be included in an old Spanish tradition of hilarious grotesqueness which is often the other side of despair. Compassion for man's hopeless suffering is there, but tightly controlled." 1989 Nobel prize for Literature Press Release "One of the most gifted and powerful writers in contemporary Europe."
