Pennsylvania in Public Memory - Carolyn Kitch 2015-06-26

What stories do we tell about America's once-great industries at a time when they are fading from the landscape? *Pennsylvania in Public Memory* attempts to answer that question, exploring the emergence of a heritage culture of industry and its loss through the lens of its most representative industrial state. Based on news coverage, interviews, and more than two hundred heritage sites, this book traces the narrative themes that shape modern public memory of coal, steel, railroading, lumber, oil, and agriculture, and that collectively tell a story about national as well as local identity in a changing social and economic world.

Acting and Singing with Archetypes - Janet B. Rodgers 2009

The Mother, the Lover, the Trickster, the Spiritual and Temporal Leader, the Devil-these are just some of the universal essences, known as archetypes, that lie deep within the human spirit; these are forces that we all recognize and embody in some capacity. *Acting and Singing with Archetypes* is a groundbreaking, experiential book that uses archetypes as the basis of an unprecedented method of study for

actors and singers. By using fifteen archetype explorations that employ vocal exercises, mask making, monologue and scene work, breathing exercises, role playing, storytelling, singing, meditation, self-reflection, and more, this book empowers actors to interpret character and voice in exciting, untraditional ways. The explorations ultimately leave performing artists with the tools they need to develop their theatrical roles to the fullest, utilize their singing and speech abilities with the widest range of emotion, and unlock their overall creative potential. The book also reinforces the importance of breathing, relaxing, stretching, and other physical techniques that enable healthy practice of the craft. Geared toward theatre teachers, directors, and theatre workshop leaders, this is an incredible teaching tool, accompanied by a CD of demonstrative recordings of vocal exercises and other guiding content sung and spoken by authors Janet B. Rodgers and Frankie Armstrong. Book jacket.

Hawk Quest - Robert Lyndon 2013-04-09

The year is 1072. The Normans have captured England. The Turks have captured a Norman knight. And in order to free him, a soldier named Vallon must capture four rare hawks. What's Eating the Universe? - Paul Davies

2022-10-06

Combining the latest scientific advances with storytelling skills unmatched in the cosmos, an award-winning astrophysicist and popular writer

leads us on a tour of some of the greatest mysteries of our universe. In the constellation of Eridanus, there lurks a cosmic mystery: It's as if something has taken a huge bite out of the universe. But what is the culprit? The hole in the universe is just one of many puzzles keeping cosmologists busy. Supermassive black holes, bubbles of nothingness gobbling up space, monster universes swallowing others—these and many other bizarre ideas are being pursued by scientists. Due to breathtaking progress in astronomy, the history of our universe is now better understood than the history of our own planet. But these advances have uncovered some startling riddles. In this electrifying new book, renowned cosmologist and author Paul Davies lucidly explains what we know about the cosmos and its enigmas, exploring the tantalizing—and sometimes terrifying—possibilities that lie before us. As Davies guides us through the audacious research offering mind-bending solutions to these and other mysteries, he leads

us up to the greatest outstanding conundrum of all: Why does the universe even exist in the first place? And how did a system of mindless, purposeless particles manage to bring forth conscious, thinking beings? Filled with wit and wonder, *What's Eating the Universe?* is a dazzling tour of cosmic questions, sure to entertain, enchant, and inspire us all.

The Journeyer - J. P. Bowie 2005-06

In the year 1746, after the armies of the Scottish Highlands rebelling against the King of England were at last defeated at the Battle of Culloden, the English government began a vicious campaign of punishment and humiliation against the people of Scotland. Hundreds of innocent men, women and children were summarily rounded up and put to the sword. Faced with such brutality, many Scots were forced to abandon their homeland and seek a new life on foreign shores. Such was the decision of Jamie MacDonald, a young Scot mourning the deaths of his father and brothers in the massacre at

Culloden Field. He and his mother embark on a dangerous journey to find a better life in the New World. But tragedy and unforeseen circumstance dog Jamie's path and he finds himself pressed into service aboard a pirate ship commanded by a ruthless Spaniard—a man with a past as dark as any on the wrong side of the law, but with an allure Jamie cannot resist. When he finally reaches the New World, Jamie is a changed man—one whose innocence has been replaced with a keen sense of self-preservation and a determination to survive—no matter what. Fighting to endure in the wilderness, he believes he has found his destiny as his life becomes irrevocably entwined with a Choctaw warrior-shaman—a man who had a vision of Jamie's coming. Together they fight the elements and those who seek to destroy them. The final battle will determine who will die and who will prevail.

Consciousness Medicine - Françoise Bourzat 2019-06-25

A comprehensive guide to the safe and ethical application of expanded states of consciousness for therapists, healing practitioners, and sincere explorers Psychedelic medicines also known as entheogens are entering the mainstream. And it's no wonder: despite having access to the latest wellness trends and advances in technology, we're no healthier, happier, or more meaningfully connected. Psilocybin mushrooms,

ayahuasca, and LSD—as well as other time-tested techniques with the power to shift consciousness such as drumming, meditation, and vision quests—are now being recognized as potent catalysts for change and healing. But how do we ensure that we're approaching them effectively? Françoise Bourzat—a counselor and experienced guide with sanctioned training in the Mazatec and other indigenous traditions—and healer Kristina Hunter introduce a holistic model focusing on the threefold process of preparation, journey, and integration. Drawing from more than thirty years of experience, Bourzat's skillful and heartfelt approach presents the therapeutic application of expanded states, without divorcing them from their traditional contexts. Consciousness Medicine delivers a coherent map for navigating nonordinary states of consciousness, offering an invaluable contribution to the field of healing and transformation.

Aztec - Gary Jennings 2016-04-12

Gary Jennings's *Aztec* is the extraordinary story of the last and greatest native civilization of North America. Told in the words of one of the most robust and memorable characters in modern fiction, Mixtli-Dark Cloud, *Aztec* reveals the very depths of Aztec civilization from the peak and feather-banner splendor of the Aztec Capital of Tenochtitlan to the arrival of Hernán Cortás and his conquistadores, and their destruction of the Aztec empire. The story of Mixtli is the story of the Aztecs themselves---a compelling, epic tale of heroic dignity and a colossal civilization's rise and fall. Relive - K. J. Nelson 2020-10-26

Gerald Holstrom is an inmate at Folsom Prison. He wakes up every day with the same regrets. His feet are tired, his back aches and his hands shake from the last 47 years as the prison's most popular barber. He tells himself to live one day at a time, to focus on what he can change and let go of what's behind him. He believes that if he never talks about the crime that landed him a life sentence at the age of 19 he can leave it behind, and it won't define him. So he waits, he serves time. Until on a fateful summer afternoon one of Gerald's young friends angers the wrong people. Gerald is met with a life and death choice, and this time he makes the right decision. His dying wish was to see the sky without barbed wire blocking his vision. He fades out...then back in. Only now, there is no barbed wire. Now, his legs and back don't hurt. His hands don't shake. He's 19 again, and he hasn't made the decisions that will lead him to 47 years and a death at the end of a sharp piece of metal. He's in the world he grew up in; 1950's

California. How did he get there? Is he actually going to get the chance to make better decisions? Will he be able to change his future? Not everything is as it seems, Gerald isn't alone, there are others out there like him. When he meets a teenager who confidently wields a machete, he begins to understand the high stakes of his new life. He'll have a second chance, but at what cost? Gerald's soul hangs in the balance, as does the existence of everything he's ever loved. How do you change the future when those more powerful are fighting you at every step?

Women, travel and identity - Emma Robinson-Tomsett 2016-05-16

The years between 1870 and 1940 are often considered a 'golden age' of travel: as larger and evermore sumptuous ships and trains were built, including the Orient Express, Blue Train, Lusitania and Normandie, journeying abroad became, and remains today, synonymous with chic, splendour and luxury. Utilising women's

diaries and letters, art, advertising, fiction and etiquette guides, this book considers the journey's impact upon understandings of female identity, definitions of femininity, modernity, glamour, class, travel, tourism, leisure and sexual opportunity and threat during this period. It explores women's relationship with train and ship technology; cultural understandings of the journey; public expectations of women journeyers; how women journeyed in practice: their use of journey space, sociability with both Western and 'Other' non-Western journeyers, experience of love, sex and danger during the journey; and how women fashioned a journeyer identity which fused their existing domestic identities with new journey identities such as the journey chronicler. The journey is revealed to be an experience of sociability as much as mobility, dominated by ideas of respectability and reputation, class, power, vision and observation and home as well as the foreign and new.

Psychedelic Cannabis - Daniel McQueen

2021-09-28

• Explains how cannabis can be used to treat trauma and emotional pain, as a profound problem-solving tool, and as a potent catalyst for self-transformation and ongoing healing work • Shares methods to minimize the unwanted effects, such as intensified anxiety and paranoia, and direct the experience to produce deep physical relaxation and, when needed, elevated healing states • Details how to blend cannabis strains for specific kinds of psychedelic experiences and how to prepare for your sessions to ensure success Despite the recent resurgence of interest in the therapeutic potential of psychedelics, Cannabis sativa as a psychedelic therapy has been completely overlooked. Yet, as psychedelic specialist Daniel McQueen reveals, when used skillfully and with intention, cannabis can be used to treat trauma and other mental health concerns just as psilocybin mushrooms and MDMA can. It can also be used as a problem-solving tool and as a

potent catalyst for self-actualization and ongoing healing work. Presenting a step-by-step guide, McQueen explores how to transform cannabis into a reliable and safe psychedelic medicine. Drawing on his years of experience working with clients to release traumas and emotional pain and step into their full potential, he explains the importance of proper dose, set, setting, and intention and details how to prepare for your psychedelic cannabis sessions to ensure success. He shares methods to use cannabis in a specialized and mindful way to minimize unwanted effects, such as intensified anxiety and paranoia, and direct the experience to produce vivid psychedelic states, deep physical relaxation, and healing. Looking at the unique qualities of different cannabis strains, the author explores the art of making a psychedelic cannabis blend, the possibilities and hidden potentials of each strain, and how to blend strains for specific medicine experiences, ranging in similarity to MDMA, psilocybin, and

even ayahuasca. Unveiling new depth to this ancient spiritual and medicinal ally, McQueen shows how consciously using cannabis as a psychedelic can help transform your trauma into resilience and shift your mindset from surviving to thriving.

The Journeyer - Gary Jennings 2010-03-02

Legendary trader and explorer Marco Polo was nicknamed "Marco of the millions" because his Venetian countrymen took the grandiose stories of his travels to be exaggerated, if not outright lies. As he lay dying, his priest, family, and friends offered him a last chance to confess his mendacity, and Marco, it is said, replied, "I have not told the half of what I saw and did." Now

Gary Jennings has imagined the half left unsaid as even more elaborate and adventurous than Polo's tall tales. From the palazzi and back streets of medieval Venice to the sumptuous court of Kublai Khan, Marco meets all manner of people, survives all manner of danger, and becomes an almost compulsive collector of customs, languages, and women.

Creation - Gore Vidal 2018-08-22

Once again the incomparable Gore Vidal interprets and animates history -- this time in a panoramic tour of the 5th century B.C. -- and embellishes it with his own ironic humor, brilliant insights, and piercing observations. We meet a vast array of historical figures in a staggering novel of love, war, philosophy, and adventure . . . "There isn't a page of CREATION that doesn't inform and very few pages that do not delight." -- John Leonard, The New York Times

The Journeyer - Gary Jennings 2010-03-02
Marco Polo was nicknamed "Marco of the

millions" because his Venetian countrymen took the grandiose stories of his travels to be exaggerated, if not outright lies. As he lay dying, his priest, family, and friends offered him a last chance to confess his mendacity, and Marco, it is said, replied "I have not told the half of what I saw and did." Now, in his new novel *The Journeyer*, Gary Jennings has imagined the half that Marco left unsaid as even more elaborate and adventurous than the tall tales thought to be lies. From the palazzi and back streets of medieval Venice to the sumptuous court of Kublai Khan, from the perfumed sexuality of the Levant to the dangers and rigors of travel along the Silk Road, Marco meets all manner of people, survives all manner of danger, and, insatiably curious, becomes an almost compulsive collector of customs, languages and women. In more than two decades of travel, Marco was variously a merchant, a warrior, a lover, a spy, even a tax collector - but always a journeyer, unflagging in his appetite for new

experiences, regretting only what he missed. Here - recreated and reimagined with all the splendor, the love of adventure, the zest for the rare and curious that are Jennings's hallmarks - is the epic account, at once magnificent and delightful, of the greatest real-life adventurer in human history. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Love at the Speed of Email - Lisa McKay
2012-06-01

Lisa looks as if she has it made. She has turned her nomadic childhood and forensic psychology training into a successful career as a stress management trainer for humanitarian aid workers. She lives in Los Angeles, travels the world, and her first novel has just been published to some acclaim. But as she turns 31, Lisa realizes that she is still single, constantly on airplanes, and increasingly wondering where home is and what it really means to commit to a person, place, or career. When an intriguing

stranger living on the other side of the world emails her out of the blue, she must decide whether she will risk trying to answer those questions. Her decision will change her life.

Dictionary of Torture - Nigette M. Spikes
2015-01-07

From ancient times to today, there is no question that torture has been an integral part of human history. From the world's first documented society of Mesopotamia to the present day; from the famous to the most obscure; and from the Far East to the West and every society in between, the Dictionary of Torture shares fascinating facts on how torture and execution methods have been used throughout history. Nigette Spikes, a researcher and torture historian, relies on years of research to share a compilation of torture methods from around the world. Whether it was to punish criminals in Abu Gharib, extract confessions from accused witches of Salem, or for the sadistic pleasures of Vlad the Impaler, every

alphabetical entry graphically describes a torture and its origins. From the fearsome breast ripper, the terrifying spiked collar, the pear of anguish, and the Judas cradle, Spikes reveals what went on in the dungeon of a medieval castle, how Inquisitioners extracted confessions from "sinners," and what kind of tortures are still used today. Dictionary of Torture is a one-of-a-kind collection of torture facts that reveal detailed descriptions of methods and explore world history from the first documented society several millennia ago to present day.

Shadowed Stars - Steven Koutz 2020-08-18

In the year 2089, Earth had experienced a rapid shift in political and technological developments. Reported sightings of UFOs and alleged human abductions had reached such an alarming rate that governments decided to remove national boundaries and unite as one planet under one leader. The new government, the United Nations of Earth, made space exploration and defense of the planet its top priority. Journeyer was one of

the first ships sent into space to find new discoveries and above all the search for sentient/intelligent life and to open peaceful negotiations. Prior to its recall and decommission, Journeyer was captured by the Ubides, an alien race of the highest intellect and an ally of the Derths, a carnivorous alien race with ever expanding territory. The Journeyer's captain, Drew Cage, was forcibly taken for a reason. Meanwhile other crew members, like Eva Cusping and Enrico Dalchez, sent to a planet to restore lost communication satellites will be caught between warring kingdoms. Captain Drew Cage and Eva Cusping will learn something about themselves that will make them question their existence and their beliefs, leading one to anger and rage while giving the other enlightenment. Both will undergo a transformation that will set them on course to good and evil in an intergalactic war where the survival of the human race and other life-forms is no guarantee. They will encounter allies and

enemies as they realize some questions you may not always want answered: (1) Are we alone in the universe? (2) Is there a god? (3) What does the future hold? Do you really want to know?

Authentic Alignment - Asha Prasad 2016-05-10
In *Authentic Alignment: How Ancient Wisdom and Modern Science Can Revitalize Your Health, Happiness and Potential*, Dr. Asha Prasad redirects our concept of health from the symptomatic to the foundational. True health is more than simply the absence of pain--it is nothing less than maximizing the hidden, almost limitless potential in each of us.

Being Scioto Hopewell - Christopher Carr 2021

This book, in two volumes, breathes fresh air empirically, methodologically, and theoretically into understanding the rich ceremonial lives, the philosophical-religious knowledge, and the impressive material feats and labor organization that distinguish Hopewell Indians of central Ohio and neighboring regions during the first

centuries CE. The first volume defines cross-culturally, for the first time, the "ritual drama" as a genre of social performance. It reconstructs and compares parts of 14 such dramas that Hopewellian and other Woodland-period peoples performed in their ceremonial centers to help the soul-like essences of their deceased make the journey to an afterlife. The second volume builds and critiques ten formal cross-cultural models of "personhood" and the "self" and infers the nature of Scioto Hopewell peoples ontology. Two facets of their ontology are found to have been instrumental in their creating the intercommunity alliances and cooperation and gathering the labor required to construct their huge, multicomunity ceremonial centers: a relational, collective concept of the self defined by the ethical quality of the relationships one has with other beings, and a concept of multiple soul-like essences that compose a human being and can be harnessed strategically to create familial-like ethical bonds of cooperation among

individuals and communities. The archaeological reconstructions of Hopewellian ritual dramas and concepts of personhood and the self, and of Hopewell peoples strategic uses of these, are informed by three large surveys of historic Woodland and Plains Indians narratives, ideas, and rites about journeys to afterlives, the creatures who inhabit the cosmos, and the nature and functions of soul-like essences, coupled with rich contextual archaeological and bioarchaeological-taphonomic analyses. The bioarchaeological-taphonomic method of *lanthropologie de terrain*, new to North American archaeology, is introduced and applied. In all, the research in this book vitalizes a vision of an anthropology committed to native logic and motivation and skeptical of the imposition of Western world views and categories onto native peoples.
