**Brick by Brick** - Martyn Nutland 2012-10-08

The myth that Alec Issigonis conceived the Mini is just one whisp of the smoke screen that obscures the untold story of post-War Britains greatest industrialist. This is more than a motoring story. You will find commentary on life in the first half of the 20th century as you explore the drama of one mans determination to overcome adversity. Someone who shot from the hip as no other tycoon. This is a tale of political and military intrigue. Of spectacular business acumen. Of bitter, violent, industrial conflict. An account of savage jealousies and sexual intrigue. To record the life of Leonard Lord the author has visited a vast number of sources. In recent times some have sought to implant the roots of the British motor industrys ills and ultimate collapse in the policies of Leonard Lord. This is both disingenuous and unjust. This, for the first time, is his story.

The House on the Gulf - Margaret Peterson Haddix 2011-01-04

[If only] Bran would stop acting weird....Probably he had a perfectly reasonable explanation for everything. I just couldn't imagine what it would be. When Britt's older brother, Bran, lands a summer job house-sitting for the Marquises, an elderly couple, it seems like a great opportunity. Britt and Bran have moved to Florida so their mother can finish college, and the house-sitting income will allow their mom to quit her job and take classes full-time. Having never lived in a real house before, Britt is thrilled. There's only one problem: Britt starts to suspect her family isn't supposed to be there. She's been noticing that Bran is acting weird and defensive -- he hides the Marquises' mail, won't let anyone touch the thermostat, and discourages Britt from meeting any of the neighbors. Determined to get to the bottom of things, Britt starts investigating and makes a startling discovery -- the Marquises aren't who Bran has led her and their mom to believe. So whose house are they staying in, and why has Bran brought them there? With unexpected twists and turns, award winner Margaret Peterson Haddix has again crafted a thriller that will grip readers until its stunning conclusion.

**The Forgotten Rohingya: Their Struggle for Human Rights in Burma** - Habib Habib Siddiqui 2019

Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as "settlers" from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the

wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets? - Are restricted from traveling outside their villages? - Have no legal right to own land or property? - Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings? - Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan? - Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. "The Forgotten Rohingya" makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution. *How to Build Motorcycle-engined Racing Cars* - Tony Pashley 2008-07-15
