Global Trends in Land Tenure Reform - Caroline S. Archambault 2015-02-11

This book explores the gendered dimensions of recent land governance transformations across the globe in the wake of unprecedented pressures on land and natural resources. These complex contemporary forces are reconfiguring livelihoods and impacting women's positions, their tenure security and well-being, and that of their families. Bringing together fourteen empirical community case studies from around the world, the book examines governance transformations of land and land-based resources resulting from four major processes of tenure change: commercial land based investments, the formalization of customary tenure, the privatization of communal lands, and post-conflict resettlement and redistribution reforms. Each contribution carefully analyses the gendered dimensions of these transformations, exploring both the gender impact of the land tenure reforms and the social and political economy within which these reforms materialize. The cases provide important insights for decision makers to better promote and design an effective gender lens into land tenure reforms and natural resource management policies. This book will be of great interest to researchers engaging with land and natural resource management issues from a

wide variety of disciplines, including anthropology, sociology, development studies, and political science, as well as policy makers, practitioners, and activists concerned with environment, development, and social equity.

Idaho Notary Public Handbook - Idaho Secretary of State 2019-04-06

Everybody knows what a notary public does, right? Actually, there is much misunderstanding and confusion about what the proper role and duty of a notary is. A notary public does not "legalize" documents, or verify the accuracy or truthfulness of the content or statements made in a document, and yet the role that a notary plays in ascertaining the identity of the person who signs a document, placing that person under oath, if required, and determining the signer's intent and willingness to consent to the transaction is vital in modern society. A notary public is a public official commissioned by the Secretary of State to administer oaths and affirmations, take acknowledgments, witness signatures, and perform other duties as permitted by state law. A notary should be familiar with the Idaho notary laws and to follow the standards of reasonable care for performing a notarial act.

Each chapter ends with an extensive bibliography and is further enriched by tables, black-and-white illustrations, and examples of documents.
