Neurology for Mrcp - Jonathan D. Rohrer 2011-03-11

This book is the essential revision guide for neurology in the Membership of the Royal College of Physicians (MRCP). Neurology has been rated as the most difficult subject in MRCP examinations and there has been no concise and easy-to-use revision guide to help candidates through the exams until now. Neurology for MRCP is written by two experienced neurologists who have taught both the written (Part 1 and Part 2) and clinical (PACES) sections of the exam. This pioneering new book will also

be useful for medical students sitting for their final examinations and for doctors who are preparing for the PLAB examination.

Gender Ideologies and Military Labor Markets in the U.S. - Saskia Stachowitsch 2013-03

Gender Ideologies and Military Labor Markets in the U.S. offers a comprehensive analysis of the relationship between changes in military gender ideologies and structural changes in U.S. military and society. By investigating how social and military change have influenced gender ideologies, the author develops an approach that (re-)connects military gender ideologies to the social conditions of their production and distribution and explains their transformation as effects of changing social and political relations and conflicts. Examining the role of different groups of social actors, media debates on women's military participation and gender ideologies inherent in depictions of military women, the author seeks to contextualise these ideologies are within structural change in the

U.S. military and society, relating them to the gender-specific division of labour on civilian and military labor markets. This work provides a deeper understanding of the nexus between military re-structuring processes, women's military integration, and changes of gender ideologies in regard to war and the military, and will be of great interest to students and scholars of gender, security studies and American politics.

The Brute and I - Suzanne Smith 2018-08-20

When Marco struts into Gigi's grill, Alex wonders if she has found the one. When he takes the seat next to her and strikes up a conversation, She is immediately aroused by the heat of his animal magnetism. There is something she sees in his vulnerable, piercing green eyes that touches her heart. She realizes that she wants this handsome man to be more than just her bedmate. She wants him to be her soulmate. Marco was instantly smitten the moment he fixed his eyes on Alex. There was something about her warm, sympathetic gaze that filled him with hope. Maybe he had a

chance to overcome the bitterness and despair that had blighted his life. Perhaps finally some measure of happiness is within his grasp. The love between them quickly blossoms, but there is a dark cloud on the horizon. For no reason Marco can see, Alex suddenly becomes sullen and withdrawn. He worries that she is slipping away from him. The idea of losing her affection and being forced to retreat back into the cold, black, pit of despair, is more than he can stand. He only knows one way to deal with the pain he is feeling. Can their love survive the turmoil and grow into something good once more?

Christian Character - National Society 2001
Anglican schools in the independent sector are proud of their traditions and their Christian

foundation. All such schools will now be subject to a common inspection regime. This work aims to provide support and guidance for schools wishing to: prepare for inspection, review how their Christian foundation is reflected in their practice and develop their Christian character. It should also help those involved in the inspection process to deepen their understanding of the essential characteristics of an independent school within the Anglican tradition.

A Guide to the Present Moment - Noah Elkrief 2012

Do you want to stop feeling stress, anxiety, shame, unworthiness, depression, anger, guilt, sadness, worry, or fear? It certainly seems as though these emotions are inevitable, and directly created by our circumstances, our situations, and the people in our lives. However, it is possible to discover that all your unwanted emotions are actually created by thoughts in your mind - and each of these emotions can vanish in an instant if you just stop believing

these thoughts to be true. This Book Will Help You To: - Experience peace in situations that used to be filled with anxiety and stress - Live with a sense of a wholeness, worthiness, or completeness - Enjoy more love and stronger connections in your relationships with others - Experience the freedom to act how you feel without worrying about others' opinions - Live in the moment or live the power of now (i.e. spiritual awakening) - Experience the fulfillment you have been searching for.

Death Waits in the Dark - Mark Edward Langley 2020-08-04

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from

his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an

unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

A Short Guide to Risk Appetite - David Hillson

2017-03-02

How much risk should we take? *A Short Guide to Risk Appetite* sets out to help all those who need to decide how much risk can be taken in a particular risky and important situation. David Hillson and Ruth Murray-Webster introduce the RARA Model to explain the complementary and central roles of Risk Appetite and Risk Attitude, and along the way they show how other risk-related concepts fit in. Risk thresholds are the external expression of inherent risk appetite, and the challenge is how to set the right thresholds. By progressively deconstructing the RARA Model, the authors show that the essential control step is our ability to choose an

appropriate risk attitude. The book contains practical guidance to setting risk thresholds that take proper account of the influences of organisational risk culture and the individual risk preferences of key stakeholders. Alongside this, individuals and organisations need to choose the risk attitude that will optimise their chances of achieving the desired objectives.

Mister Owita's Guide to Gardening - Carol

Wall 2014-03-04

"In this profoundly moving memoir, Owita teaches Wall how to find grace amid heartbreak and to accept that beauty exists because it is fleeting—as in her garden, as in life." —People, 4 stars "A perfect spring awakening." —Good Housekeeping A true story of a unique friendship between two people who had nothing—and ultimately everything—in common. Carol Wall, a white woman living in a lily-white neighborhood in Middle America, was at a crossroads in her life. Her children were grown; she had successfully overcome illness; her

beloved parents were getting older. One day she notices a dark-skinned African man tending her neighbor's yard. His name is Giles Owita. He bags groceries at the supermarket. He comes from Kenya. And he's very good at gardening. Before long Giles is transforming not only Carol's yard, but her life. Though they are seemingly quite different, a caring bond grows between them. But they both hold long-buried secrets that, when revealed, will cement their friendship forever.

Accelerating MATLAB with GPU Computing

- Jung W. Suh 2013-11-18

Beyond simulation and algorithm development, many developers increasingly use MATLAB even for product deployment in computationally heavy fields. This often demands that MATLAB codes run faster by leveraging the distributed parallelism of Graphics Processing Units (GPUs). While MATLAB successfully provides high-level functions as a simulation tool for rapid prototyping, the underlying details and knowledge needed for utilizing GPUs make MATLAB users hesitate to step into it. Accelerating MATLAB with GPUs offers a primer on bridging this gap. Starting with the basics, setting up MATLAB for CUDA (in Windows, Linux and Mac OS X) and profiling, it then guides users through advanced topics such as CUDA libraries. The authors share their experience developing algorithms using MATLAB, C++ and GPUs for huge datasets, modifying MATLAB codes to better utilize the computational power of GPUs, and integrating

them into commercial software products. Throughout the book, they demonstrate many example codes that can be used as templates of C-MEX and CUDA codes for readers' projects. Download example codes from the publisher's website:

Virgilante - Janet Christian 2016-08-18

Virgil Harris has a secret. And a problem. He was happily retired in a small Texas town until his mother's near fatal beating during a home invasion. The wheels of justice moved too slowly for Virgil, whose once-vibrant mother languished in a nursing home. He broke his family's oath to never use their long-guarded ability to alter events against another person-he sent karmic vengeance to the burglars. Encouraged by his

success when the men are captured and convicted, Virgil turns his brand of cosmic retribution onto other unsavory folks in his little town who have escaped legal punishment. All goes well until Virgil's handiwork becomes coffee shop talk and arouses the interest of a secret organization of conspiracy watchdogs. Virgil and others like him become the group's primary target, thanks to the organization's leader, who has a secret of his own.

A Guide to Starting Your Hedge Fund - Erik

Serrano Berntsen 2015-03-03

Successful hedge fund investing begins with well-informed strategy. A Guide to Starting Your Hedge Fund is a practical, definitive "how-to" guide, designed to help managers design and launch their own funds, and to help investors select and diligencenew funds. The first book to examine the practical aspects of setting up and operating funds with a focus on energy

commoditymarkets, this book scrutinises the due diligence process andcomprehensively reviews the opportunities and risks of all energycommodity markets as hedge fund investments. Extensive planning andstrategy advice prove invaluable to prospective fund managers andinvestors alike, and detailed discussion of the markets'constraints help inform procedural decisions. Readers gain insightinto practical matters including legal and commercial structures,due diligence, fund raising, operations, and more, allowing them toconstruct a concrete investment plan before ever touching apenny. Asset managers are looking to energy commodities to provideattractive uncorrelated - if volatile - returns. Thesehigh returns, however, are accompanied by high risk. Few investors have experience evaluating these investment opportunities, and fewprospective fund managers understand the market fundamentals andtheir associated risks. This book provides the

answers sorely lacking in hedge fund literature, giving investors and fund managers the background they need to make smarter decisions. Understand the markets' structures, opportunities, and risks. Develop a comprehensive, well-informed investment strategy. Conduct thorough due diligence with a detailed plan. Examine the practical aspects of fund raising, legal and tax structure, and more. Oil has long been traded by hedge funds, but electricity, the fuels that generate electricity, and the environmental products like emissions allowances and weather derivatives have become the new "hot" investment strategies. These high returns come with higher risk, but a Guide to Starting Your Hedge Fund ensures participants have essential information at their disposal.

Ducati Motorcycles - Alan Cathcart 1983

Ducati Desmoquattro Superbikes - Ian Falloon 2002-06

Ducati stunned the world in 1988 when the struggling, small Italian firm unleashed its Desmoquattro -- 8-valve, desmodromic -- Superbike. The bike found success on the world's racetracks right from the start. Road-going versions soon carried that success to the general public, proving this design wasn't just another noisy prototype. The Superbikes -- 748, 851, 888, 916, and 996 -- are now Ducati's best-selling machines in the United States; and the Desmoquattro engine found its way into the company's more pedestrian series such as the Monster roadster and ST4 sport-tour. This is the comprehensive volume on Ducati's ultimate performance motorcycles and replaces the out-of-print Ducati Super Bikes: 851, 888, 916.
