the most famous fantasy worlds ever imagined, a richly illustrated compendium that reveals the breathtaking craftsmanship, artistry, and technology behind the magical Middle-earth of The Lord of the Rings and The Hobbit Motion Picture Trilogies, directed by Peter Jackson. The Making of Middle-Earth tells the complete story of how J. R. R. Tolkien's magic world was brought to vivid life on the big screen in the record-breaking film trilogies The Lord of the Rings Motion Picture Trilogy and The Hobbit Motion Picture Trilogy. Drawing on resources, stories, and content from the archives of the companies and individuals behind the films, much of which have never appeared in print before, as well as interviews with director Peter Jackson and key members of the Art Department, Shooting Crews, Park Road Post, and Weta Digital teams who share their personal insights on the creative process, this astonishing resource reveals: How the worlds were built, brick by brick and pixel by pixel; How environments were extended digitally or imagined entirely as computer generated spaces; How the multiple shooting units functioned; How cast members and characters interacted with their environments. Daniel Falconer takes fans from storyboard concepts to deep into the post-production process where the films were edited, graded, and scored, explaining in depth how each enhanced the films. He

also discusses how the processes involved in establishing Middle-earth for the screen have evolved over the fifteen years between the start and finish of the trilogies. Going region by region and culture by culture in this fantasy realm, *The Making of Middle-Earth* describes how each area created for the films was defined, what made it unique, and what role it played in the stories. Illustrated with final film imagery, behind-the-scenes pictures and conceptual artwork, including places not seen in the final films, this monumental compilation offers unique and far-reaching insights into the creation of the world we know and love as Middle-earth.

Fans, Blockbusterisation, and the Transformation of Cinematic Desire - Carolyn Michelle 2017-11-24

This book explores the evolution of audience receptions of Peter Jackson's Hobbit trilogy (2012-14) as an exemplar of the contemporary blockbuster event film franchise. Drawing on findings from a unique cross-cultural and longitudinal study, the authors argue that processes and imperatives associated with Hollywood 'blockbusterisation' shaped the trilogy's conditions of production, format, content, and visual aesthetic in ways that left many viewers progressively disenchanted. The chapters address public and private prefigurations of the Hobbit trilogy, modes of reception, new cinematic technologies and the Hobbit hyperreality paradox, gender representations, adaptation and the transformation of cinematic desire, and the role of social and cultural location in shaping audience engagement and response. This book will appeal to audience researchers, Q methodologists, scholars and students in film and media studies, Tolkien scholars, and Hobbit fans and critics alike.

Contracts in the Real World - Lawrence A. Cunningham 2016-02-24
Contracts, the foundation of economic activity, are both vital and

misunderstood. *Contracts in the Real World*, 2nd edition corrects common misunderstandings through a series of engaging stories involving such notable individuals as Martin Luther King, Maya Angelou, Lady Gaga, and Donald Trump. Capturing the essentials of this subject, the book explores recurring issues in contracting and shows how age-old precedents and wisdom still apply today and how contract law's inherent dynamism cautions against exuberant reforms. The accessible yet rigorous approach will appeal to the general reader and specialists alike, and to both teachers and students of contracts.

The Hobbit and Tolkien's Mythology - Bradford Lee Eden 2014-09-29
At the 2013 "Celebrating The Hobbit" conference at Valparaiso University—marking the 75th anniversary of the book's publication and the first installment of Peter Jackson's Hobbit movies—two plenary papers were presented: "Anchoring the Myth: The Impact of The Hobbit on Tolkien's Legendarium" by John D. Rateliff provided numerous examples of The Hobbit's influence on Tolkien's legendarium; and "Tolkien's French Connections" by Verlyn Flieger discussed French influences on the development of Bilbo Baggins and his adventures. In discussions with the plenary speakers and other presenters, it became apparent that a book focusing on how The Hobbit influenced the subsequent development of Tolkien's legendarium was sorely needed. This collection of 15 previously unpublished essays fills that need. With Rateliff's and Flieger's papers included, the book presents two chapters on the Evolution of the Dwarven Race, two chapters on Durin's Day examining the Dwarven lunar calendar, and 11 chapters on themes exploring various topics on influences and revisions between The Hobbit and Tolkien's legendarium.
