The Interface of International Trade Law and Taxation - Jennifer E. Farrell 2013

This book explores the ill-defined and oft-underestimated relationship between the World Trade Organization (WTO) and taxation. By adopting a two-pronged approach, the relationship is examined in terms of the extent to which the WTO legal framework exerts influence upon domestic tax law and international tax policy, and whether it is appropriate for the WTO to play a regulatory role in the field of taxation. The book begins with an examination of the historical development of international trade law and international tax law, and demonstrates that these two separate areas of law are closely linked in terms of their underlying principles and historical evolution. The work then goes on to offer a doctrinal analysis of the tax content found in the WTO legal texts and highlights ambiguities therein.

Foreign Direct Investment and Human Development - Olivier de Schutter 2013

The effect on developing countries of the arrival of foreign direct investment (FDI) has been a subject of controversy for decades in the development community. The debate over the relationship between FDI in developing countries and the progress of these countries towards human development is an ongoing and often heated one. Adopting an interdisciplinary perspective combining insights from international investment law, human rights law and economics, this book offers an original contribution to the debate. It explores how improvements ...

Understanding Mega Free Trade Agreements - Jean-Baptiste Velut 2017-08-23

The rise of cross-regional trade agreements is a defining trend of the current international trade system as shown by the signing of the Trans-Pacific Partnership (TPP) in 2015, the negotiations for the Transatlantic Trade and Investment Partnership (TTIP) between the USA and the EU as well as the Regional Comprehensive Economic Partnership (RCEP) between countries in Asia and Oceania. These differ from previous agreements in their economic significance and large geographic scale, and the wide scope of trade-related issues. The current rise of nationalist and isolationist ideologies across Europe and the USA has raised questions on the future of cross-regional trade deals and made the need to understand their implications for economic and political governance ever more urgent. Two main forms of governance that are central to this volume are the democratic tensions over new generation trade deals on the one hand, and their geopolitical ramifications on the other, which have come into collision to herald the advent of a highly uncertain period of world politics. Many of the questions tackled in this volume, surrounding the democratic governance of trade agreements - whether long-held debates on the inclusion of workers' voices, controversies on intrusive "behind the border" provisions undermining national sovereignty and local autonomy or new questions on digital rights - are crucial to understand the ebbing popular support for far-reaching trade agreements. This book will be a useful learning tool for students and scholars in a wide range of fields, including Globalisation, Global Governance, International Political Economy, International Trade and Investment and International Law, and should also be of interest to EU trade negotiators, international policymakers and business associations.

Information Resources in Toxicology - Steve Gilbert 2020-05-16

This new fifth edition of Information Resources in Toxicology offers a consolidated entry portal for the study, research, and practice of toxicology. Both volumes represents a unique, wide-ranging, curated, international, annotated bibliography, and directory of major resources in toxicology and allied fields such as environmental and occupational health, chemical safety, and risk assessment. The editors and authors are among the leaders of the profession sharing their cumulative wisdom in toxicology's subdisciplines. This edition keeps pace with the digital world in directing and linking readers to relevant websites and other online tools. Due to the increasing size of the hardcopy publication, the current edition has been divided into two volumes to make it easier to handle and consult. Volume 1: Background, Resources, and

Tools, arranged in 5 parts, begins with chapters on the science of toxicology, its history, and informatics framework in Part 1. Part 2 continues with chapters organized by more specific subject such as cancer, clinical toxicology, genetic toxicology, etc. The categorization of chapters by resource format, for example, journals and newsletters, technical reports, organizations constitutes Part 3. Part 4 further considers toxicology's presence via the Internet, databases, and software tools. Among the miscellaneous topics in the concluding Part 5 are laws and regulations, professional education, grants and funding, and patents. Volume 2: The Global Arena offers contributed chapters focusing on the toxicology contributions of over 40 countries, followed by a glossary of toxicological terms and an appendix of popular quotations related to the field. The book, offered in both print and electronic formats, is carefully structured, indexed, and cross-referenced to enable users to easily find answers to their questions or serendipitously locate useful knowledge they were not originally aware they needed. Among the many timely topics receiving increased emphasis are disaster preparedness, nanotechnology, -omics, risk assessment, societal implications such as ethics and the precautionary principle, climate change, and children's environmental health. Introductory chapters provide a backdrop to the science of toxicology, its history, the origin and status of toxicoinformatics, and starting points for identifying resources. Offers an extensive array of chapters organized by subject, each highlighting resources such as journals, databases, organizations, and review articles. Includes chapters with an emphasis on format such as government reports, general interest publications, blogs, and audiovisuals. Explores recent internet trends, web-based databases, and software tools in a section on the online environment. Concludes with a miscellany of special topics such as laws and regulations, chemical hazard communication resources, careers and professional education, K-12 resources, funding, poison control centers, and patents. Paired with Volume Two, which focuses on global resources, this set offers the most comprehensive compendium of print, digital, and organizational resources in the toxicological sciences with over 120 chapters contributions by experts and leaders in the field.

Handbook on Product Standards and International Trade - James J. Nedumpara 2021-11-05

Global Trade Law Series, Volume 55 India, one of the world's foremost trading nations, exhibits a particularly complex regulatory landscape with a variety of standard-setting bodies, regulators, accreditation and certification bodies, inspection agencies, as well as several state-level regulators. This is the first book to extensively describe the nature of standard-setting processes in India and the key agencies involved with this task, greatly clarifying the scope of market opportunities in the country. Lucid contributions from experienced practitioners and regulators with first-hand experience in formulating and advising on standards-related issues in international trade help disentangle the web of laws, regulations, operations, and functions of India's standard setters in governmental, non-governmental, and industry contexts. The chapters describe how standards apply to such crucial trade aspects as the following: conformity assessment practice and procedure; environmental, ethical, social, and safety issues; import bans and import licensing; certification and labelling measures; mutual recognition agreements; food safety; and standardisation of the digital economy. The book is drafted throughout in an easy-to-read style, with numerous tables, flowcharts, and figures illustrating step-by-step compliance procedures. Informative annexes guide the reader to relevant agencies and identify their roles and responsibilities. This book provides a clear and concise guide to the operations, functions, and compliance and documentation requirements of India's standard-setting and regulatory bodies across all sectors and products, and thus will serve as an unmatched guide for manufacturers, traders, and exporters operating in the Indian market or seeking to export to India. It will also serve as a useful Handbook to policymakers, academics, and researchers interested in understanding the role of standard-setting bodies in the field of international trade.

Making Sense of Cities - Blair Badcock 2014-04-23

In 2000, for the first time, a majority of the world's population was living in cities. The trend towards increasing urbanization shows no sign of slowing and the third millennium looks set to be an unprecedentedly urban one. 'Making Sense of Cities' provides an up-to-date, vibrant and accessible introduction to urban geography. It offers students a sense of the patterns and processes of urbanization and the spatial organisation of cities, recognizing the significance of globalization, economics, politics and culture from a range of perspectives. Above all, it seeks to provide a relevant approach, inviting students to engage with competing theories of the urban and to assess them against the background of their own opinions and personal experience. Examples and case studies are drawn from a range of international settings, from San Francisco to Shanghai, Sydney to Singapore, giving a genuinely global coverage. The book is written in a fresh and engaging style, and is fully illustrated throughout. It is designed to appeal to any student of the urban and will be essential to students of geography, urban studies, town planning and land economy.

Global Trends 2040 - National Intelligence Council 2021-03

"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Competition and Trade Policies - Einar Hope 2002-03-11

The relationship between competition and trade policies, and the development of an effective competition policy for an integrated world economy, is one of the most important and challenging issues policy makers currently face. This book examines the current debates around competition and trade policy interactions, and discusses the need for new policy initiatives in an international context.

The World Trade Organization: A Very Short Introduction - Amrita Narlikar 2005-09-08

"This book provides a timely exploration of what the WTO is, what it does, and the complicated politics involved in its negotiations and rulings. Confronting the controversy surrounding the WTO head-on, the author highlights issues of power, marginalization, and development, and raises the important question of whether it actually deserves the reputation it has come to acquire."--BOOK JACKET.

Regional Businesses in a Changing Global Economy - Quamrul Alam 2022-03-24

In a highly globalised trade and investment environment, businesses in regional areas must learn to take advantage of the benefits that stem from their geographical location. This book explains the immense value regional businesses bring to local communities and to Australia as a whole through case studies. The case studies are diverse in nature and highlight how regional businesses utilise their competitive advantage to introduce innovative practices and use local expertise, knowledge, skills, and networks to benefit from local social capital in a synergetic manner. The case studies in the book will help readers better understand the processes of industrial localisation. The examples of how innovative regional businesses have used innovative practices, local resource leverage, social and entrepreneurial skills and knowledge of international markets to develop and expand their businesses will provide insights into how regional businesses can achieve growth and secure jobs in an innovative and sustained manner.

The Law and Policy of the World Trade Organization - Peter Van den Bossche 2005-06-10

This is primarily a textbook for graduate and upper-level undergraduate students of law. However, practising lawyers and policy-makers who are looking for an introduction to WTO law will also find it invaluable. The book covers both the institutional and substantive law of the WTO. While the treatment of the law is often quite detailed, the main aim of this textbook is to make clear the basic principles and underlying logic of WTO law and the world trading system. Each section contains questions and assignments, to allow students to assess their understanding and develop useful practical skills. At the end of each chapter there is a helpful summary, as well as an exercise on specific, true-to-life international trade problems.

Competition Policy and Intellectual Property in Today's Global Economy - Robert D. Anderson 2021-08-05

The fast-evolving relationship between the promotion of welfare-enhancing competition and the balanced protection of intellectual property (IP) rights has attracted the attention of policymakers, analysts and scholars. This interest is inevitable in an environment that lays ever greater emphasis on the management of knowledge and innovation and on mechanisms to ensure that the public derives the expected social and economic benefits from this innovation and the spread of knowledge. This book looks at the positive linkage between IP and competition in jurisdictions around the world, surveying developments and policy issues from an international and comparative perspective. It includes analysis of key doctrinal and policy issues by leading academics and practitioners from around the globe and a cutting-edge survey of related developments across both developed and developing economies. It also situates current policy developments at the national level in the context of multilateral developments, at WIPO, WTO and elsewhere.

The China-led Belt and Road Initiative and its Reflections - Mehdi Parvizi Amineh 2022-07-12

This book analyzes the origins and the impacts of China's Belt and Road Initiative (BRI) on diplomacy, economy (trade, investment, finance), and security among selected host countries and regions in Asia, Africa, and the European Union. By examining the geopolitical economy of BRI activities, it concisely describes the impact of the rise of China and its BRI policy strategy on the reshaping of world order and global governance. This volume explores the BRI by addressing several key questions including: • Why did the Chinese leadership set up the BRI? • What are the activities of BRI projects in the participating countries and related regions? • What are the challenges to the successful implementation of the BRI in the various countries and regions? Moreover, through its analysis of the abovementioned questions, it provides novel contributions to the ongoing scholarly debates between Chinese and non-Chinese scholars - among others, the debate surrounding the "rise of China" and its impact on global governance. Featuring an extensive variety of expert contributors, this study will be an essential reading for students and scholars of International Relations and Global Political Economy as well as Chinese politics and those with an interest in the Belt and Road Initiative more broadly.
