Fairy Tale Interrupted - RoseMarie Terenzio 2012-01-24

Working Girl meets What Remains in this New York Times bestselling, behind-the-scenes story of an unlikely friendship between America's favorite First Son, John F. Kennedy Jr. and his personal assistant, a blue-collar girl from the Bronx. Featured in the documentary I Am JFK Jr.! From the moment RoseMarie Terenzio unleashed her Italian temper on the entitled nuisance commandeering her office in a downtown New York PR firm, an unlikely friendship bloomed between the blue-collar girl from the Bronx and John F. Kennedy Jr. Many books have sought to capture John F. Kennedy Jr.'s life. None has been as intimate or as honest as Fairy Tale Interrupted. Recalling the adventure of working as his executive assistant for five years, RoseMarie portrays the man behind the icon—patient, protective, surprisingly goofy, occasionally thoughtless and self-involved, yet capable of extraordinary generosity and kindness. She reveals how he dealt with dating, politics, and the paparazzi, and describes life behind the scenes at George magazine. Captured here are her memories of Carolyn Bessette, how she orchestrated the ultra-secretive planning of John and Carolyn's wedding on Cumberland Island—and the heartbreak of their deaths on July 16, 1999, after which RoseMarie's whole world came crashing down around her. Only now does she feel she can tell her story in a book that stands as "a fitting

personal tribute to a unique boss . . . deliriously fun and entertaining" (Kirkus Reviews).

Africa's Challenge to International Relations Theory - Kevin C. Dunn 2001-02-20

Africa has been noticeably absent in international relations theory. This new collection of essays by contemporary Africanists convincingly demonstrates the importance of the continent to every theoretical approach in international relations. This collection breaks new ground in how we think about both international relations and Africa, re-examining such foundational concepts as sovereignty, the state, and power; critically investigating the salience of realism, neo-liberalism, liberalism in Africa, and providing new thinking about regionalism, security and identity.

The Men We Became - Robert T. Littell 2013-08-13

For over twenty years Robert Littell was John F. Kennedy Jr.'s closest confidant. Now, in a beautiful and moving memoir, Littell introduces us to the private John. A story of laughter and sorrow, joy and heartbreak, *The Men We Became* is an unforgettable memoir. Rob Littell was a freshman at Brown when he met the young JFK, Jr. during orientation week. Although Littell came from a privileged background, it was worlds apart from the glamorous life of the son of the late President and Jacqueline Kennedy Onassis. Eager to be accepted on his own terms, Kennedy admired Littell's irreverence toward his celebrity and they became close friends. John opened up to Littell on a very personal level, revealing the complex and sometimes tense nature of his relationships with his sister and cousins, as well as his mother's extraordinary influence on John - and how they both worked to keep it from being overbearing. John's marriage had its ups and downs and Carolyn had made enemies of some of his friends, but she was in great shape mentally and physically and they were planning to have children. Littell recounts wonderful dinners at Jacqueline Onassis's apartment where she surprised him with his favorite dinner of specially burned hamburgers and weekends at her retreat in Martha's Vineyard where she critiqued their touch football while lying on a chaise lounge, her face covered in cold cream and cucumber slices. As students, Littell and Kennedy bummed around Europe. They slept in Hyde Park, sampled the pleasures of Amsterdam, ran afoul of customs officers and almost got busted at the Ritz Hotel for smoking pot. They even shared apartments in New York City until Jackie summoned them to dinner one day and gently suggested it was time to grow up. The two went on to pursue their professional lives. John trained as a lawyer - and Littell speaks of his friend's anguish at repeatedly failing the bar - and then he founded his own political magazine, which seemed only fitting because Kennedy yearned to live up to the family name and accepted that politics would be his destiny. Later on, Littell was a part of JFK, Jr.'s secret wedding to Carolyn Bessette on Cumberland Island, Georgia, and three years later a pallbearer at his funeral. From shared adventures, private moments and lasting

memories, Robert Littell offers a unique look at John F. Kennedy Jr.'s life - one that has never been seen before.

African Crisis Areas and U.S. Foreign Policy - Gerald J. Bender 1985

Real Cajun - Donald Link 2012-06-13

An untamed region teeming with snakes, alligators, and snapping turtles, with sausage and cracklins sold at every gas station, Cajun Country is a world unto itself. The heart of this area—the Acadiana region of Louisiana—is a tough land that funnels its spirit into the local cuisine. You can't find more delicious, rustic, and satisfying country cooking than the dirty rice, spicy sausage, and fresh crawfish that this area is known for. It takes a homegrown guide to show us around the back roads of this particularly unique region, and in *Real Cajun*, James Beard Award-winning chef Donald Link shares his own rough-and-tumble stories of living, cooking, and eating in Cajun Country. Link takes us on an expedition to the swamps and smokehouses and the music festivals, funerals, and holiday celebrations, but, more important, reveals the fish fries, étouffées, and pots of Granny's seafood gumbo that always accompany them. The food now famous at Link's New Orleans-based restaurants, Cochon and Herbsaint, has roots in the family dishes and traditions that he shares in this book. You'll find recipes for Seafood Gumbo, Smothered Pork Roast over Rice, Baked Oysters with Herbsaint Hollandaise, Louisiana Crawfish Boudin, quick and easy Flaky Buttermilk Biscuits with Fig-Ginger Preserves, Bourbon-Soaked Bread Pudding with White and Dark Chocolate, and Blueberry Ice Cream made with fresh summer berries. Link throws in a few lagniappes to give you an idea of life in the bayou, such as strategies for a great trip to Jazz Fest, a what-not-to-do instructional on catching turtles, and all you ever (or never) wanted to know about boudin sausage. Colorful personal essays enrich every recipe and introduce his grandfather and friends as they fish, shrimp, hunt, and dance. From the backyards where crawfish boils reign as the greatest of outdoor events to the white tablecloths of Link's famed restaurants, *Real Cajun* takes you on a rollicking and inspiring tour of this wild part of America and shares the soulful recipes that capture its

irrepressible spirit.

The Political Economy of Third World Intervention - David N. Gibbs
1991-11

Interventionism—the manipulation of the internal politics of one country by another—has long been a feature of international relations. The practice shows no signs of abating, despite the recent collapse of Communism and the decline of the Cold War. In *The Political Economy of Third World Intervention*, David Gibbs explores the factors that motivate intervention, especially the influence of business interests. He challenges conventional views of international relations, eschewing both the popular "realist" view that the state is influenced by diverse national interests and the "dependency" approach that stresses conflicts between industrialized countries and the Third World. Instead, Gibbs proposes a new theoretical model of "business conflict" which stresses divisions between different business interests and shows how such divisions can influence foreign policy and interventionism. Moreover, he focuses on the conflicts among the core countries, highlighting friction among private interests within these countries. Drawing on U.S. government documents—including a wealth of newly declassified materials—he applies his new model to a detailed case study of the Congo Crisis of the 1960s. Gibbs demonstrates that the Crisis is more accurately characterized by competition among Western interests for access to the Congo's mineral wealth, than by Cold War competition, as has been previously argued. Offering a fresh perspective for understanding the roots of any international conflict, this remarkably accessible volume will be of special interest to students of international political economy, comparative politics, and business-government relations. "This book is an extremely important contribution to the study of international relations theory; Gibbs' treatment of the Congo case is superb. He effectively takes the "statists" to task and presents a compelling new way of analyzing external interventions in the Third World."—Michael G. Schatzberg, University of Wisconsin "David Gibbs makes an original and important contribution to our understanding of the influence of business interests in the making of U.S. foreign policy. His business conflict model

provides a synthetic theoretical framework for the analysis of business-government relations, one which yields fresh insights, overcomes inconsistencies in other approaches, and opens new ground for important research. . . . [Gibbs] provides a sophisticated analysis of the conflicts within the U.S. business community and identifies the complex ways in which they interacted with agencies within the government to form U.S. foreign policy toward the Congo. . . . This is a well-crafted analysis of a critical case of U.S. postwar intervention which should be of general interest to scholars and others concerned with the domestic bases of foreign policy."—Thomas J. Biersteker, Director, School of International Relations, University of Southern California

The African Stakes of the Congo War - J. Clark 2002-09-13

The African Stakes in the Congo War analyzes the Congo conflict by looking at the roles played by various states and factors in the conflict. Part I introduces the conflict by showing the historical and regional context of the war. Part II examines those states and groups that worked to support the Kaliba regime; Part III examines the rebel groups working to overthrow Kabila and those intervening on their behalf. Part IV looks at the role of supposedly neutral states such as South Africa and looks at the social and economic effects of the war by examining trans-state factors such as rebel groups, arms trading, and economic consequences. The collection includes both African and US/UK scholars, and covers the recent transfer of power from Laurent to Joseph Kabila.

[Africa's International Relations](#) - Beth Elise Whitaker 2018

Comprehensive and engaging, this timely introduction to Africa's international relations explores how power, interests, and ideas influence interactions both among the continent's states and between African states and other actors in the global arena. How has history shaped the international relations of African states and peoples? What role does identity play? How are foreign policies linked to domestic political dynamics, and especially to the pursuit of regime security? How are states grappling with the tensions between sovereignty and external pressures? These are among the questions answered as the authors address a wide range of ongoing and emerging challenges, all in

historical and theoretical context. In addition, a case study at the end of each chapter illustrates key concepts and reflects an ongoing debate. The result is an ideal text for students, as well as an invaluable resource for researchers and policymakers. -- ¢ From publisher's description.

The African Colonial State in Comparative Perspective - Crawford Young 1994-01-01

In this comprehensive and original study, a distinguished specialist and scholar of African affairs argues that the current crisis in African development can be traced directly to European colonial rule, which left the continent with a "singularly difficult legacy" that is unique in modern history. Crawford Young proposes a new conception of the state, weighing the different characteristics of earlier European empires (including those of Holland, Portugal, England, and Venice) and distilling their common qualities. He then presents a concise and wide-ranging history of colonization in Africa, from the era of construction through consolidation and decolonization. Young argues that several qualities combined to make the European colonial experience in Africa distinctive. The high number of nations competing for power around the continent and the necessity to achieve effective occupation swiftly yet make the colonies self-financing drove colonial powers toward policies of "ruthless extractive action." The persistent, virulent racism that established a distance between rulers and subjects was especially central to African colonial history. Young concludes by turning his sights to other regions of the once-colonized world, comparing the fates of former African colonies to their counterparts elsewhere. In tracing both the overarching traits and variations in African colonial states, he makes a strong case that colonialism has played a critical role in shaping the fate of this troubled continent.

African Foreign Policies - Gilbert M. Khadiagala 2001

Contributors include scholars of political science, international relations, African studies, and conflict analysis. c.

The International Politics of the Nigerian Civil War, 1967-1970 - John J. Stremlau 2015-03-08

Biafra's declaration of independence on May 30, 1967, precipitated a civil war with important implications for the territorial integrity of all newly independent African states. Allegations of genocide commanded the world's attention and brought forth unprecedented humanitarian intervention. This full account of the internationalization of that conflict draws on hitherto confidential records and more than two hundred interviews with foreign policymakers, including Yakubu Gowon and C. Odumegwu Ojukwu. Originally published in 1977. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. **The Rise and Decline of the Zairian State** - Crawford Young 1985 Zaire, apparently strong and stable under President Mobutu in the early 1970s, was bankrupt and discredited by the end of that decade, beset by

hyperinflation and mass corruption, the populace forced into abject poverty. Why and how, in a new African state strategically located in Central Africa and rich in mineral resources, did this happen? How did the Zairian state become a "parasitic predator" upon its own people? **Archives of British Honduras ...: From 1841-1884** - John Alder Burdon 1935

No-party Democracy in Uganda - Justus Mugaju 2000

The continuation of no-party democracy has been constitutionalised by the Constituent Assembly of Uganda, causing great controversy. The 1995 constitution provided for a referendum to be held in the year 2000 to enable Ugandans to revisit the question of political systems and choose between multiparty, no-party and any other form of democracy. The eight contributors including Professor Ali Mazrui, examine the case for and against multipartyism, the justification for no-party democracy as well as its myths and realities, and the wider ideological implications of movement politics in the Great Lakes region. They also explore the possibilities of bridging the gap between movementists and multipartyists in order to adopt a political system based on the widest consensus possible among the people in Uganda.
