Globalization and Diversity - Lester Rowntree 2013-04-08

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This contemporary approach to World Regional Geography introduces the latest ideas, concepts, and theories in geography while also developing a strong foundation in the fundamentals of world regions. It helps professors convey a strong sense of place and an understanding of the connections within and between world regions. Globalization and Diversity is a briefer version of the popular Diversity Amid Globalization by the same authors; this distillation focuses on the core materials that students need in a World Regional Geography course. The Fourth Edition features a new and unique focus on sustainability.

Contemporary World Regional Geography - Michael Bradshaw

Diversity Amid Globalization: Pearson New International Edition -

Lester Rowntree 2013-08-28

With an arresting visual layout designed for today's learners, Diversity Amid Globalization emphasizes the connections and diversity between people and places — challenging students to compare and contrast the regions of the world within thematically organized regional chapters. The Fifth Edition is thoroughly updated with the latest maps and data and a greater focus on the impacts of globalization. Relevant environmental, climate change, and political developments are incorporated throughout, supporting the authors' goal of helping to create more informed, geographically aware students. Diversity Amid Globalization is now available with MasteringGeography™; the Mastering platform is the most effective and widely used online tutorial, homework, and assessment system for the sciences.

Diversity Amid Globalization - Nancy Obermeyer 2008-07-01

Designed to function as a test preparation guide, the study guide includes additional learning objectives, a complete chapter outline, a regional summary for students to fill out, practice quizzes, and critical thinking exercises and problems.

Chinese Ecocinema - Sheldon H. Lu 2009-12-01

This anthology is a book-length study of China's ecosystem through the lens of cinema. Proposing 'ecocinema' as a new critical framework, the volume collectively investigates a wide range of urgent topics in today's world.

Investing in Cultural Diversity and Intercultural Dialogue - Unesco 2009-01-01

This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

Diversity Amid Globalization - Lester Rowntree 2014-05-01

Diversity Amid Globalization - Lester Rowntree 2007-08-30

Managing Diversity - Michalle E. Mor Barak 2016-10-11

Winner of the George R. Terry Book Award from Academy of Management and the Outstanding Academic Title Award from CHOICE Magazine Successful management of our increasingly diverse workforce is one of the most important challenges facing organizations today. In the Fourth Edition of her award-winning text, Managing Diversity, author Michalle E. Mor Barak argues that inclusion is the key to unleashing the potential embedded in a multicultural workforce. This thoroughly updated new edition includes the latest research, statistics, policy, and case examples. A new chapter on inclusive leadership explores the diversity paradox and unpacks how leaders can leverage diversity to increase innovation and creativity for competitive advantage. A new chapter devoted to "Practical Steps for Creating an Inclusive Workplace" presents a four-stage intervention and implementation model with accompanying scales that can be used to assess inclusion in the workplace, making this the most practical edition ever.

Preparing Globally Competent Professionals and Leaders for Innovation and Sustainability - Guo-Brennan, Linyuan 2022-04-22

The personal and organizational struggles and accomplishments revealed by the COVID-19 pandemic highlight that innovation is the defining trait of individuals and organizations that thrive in the 21st century. The global health crisis not only accelerated the global geopolitical tensions and disrupted organizations in all sectors, but confirmed the importance of preparing globally competent citizens, professionals, and learners who can effectively respond to the economic, environmental, and digital transformations in the 21st century through lifelong learning and professional development. Leaders today need to not only understand the financial, operational, sociocultural, and historical contexts of regional, national, and global systems, but also to build effective partnerships and trusting relationships with all stakeholders in effective policymaking, fostering an organizational culture that supports innovation and managing risks. Preparing Globally Competent Professionals and Leaders for Innovation and Sustainability is centered on international higher education's role for the global common good. It critically examines the need for globally competent citizens, professionals, and leaders in the 21st century and higher education's role in the global common good for a sustainable world. The book presents an evidence-based interdisciplinary framework and promising strategies to allow all learners to develop global citizenship and global leadership while addressing the need to prepare human capital for the global knowledge economy and digital transformation of the 21st century. Covering topics such as accessible education, international higher education, and organizational innovation, this premier reference source is an excellent resource for organizational leaders, executives, faculty and administration of higher education, government officials, human resource managers, industry professionals, researchers, academicians, and students.

Communication and Media Ethics - Patrick Lee Plaisance 2018-09-10
Ethics in communication and media has arguably reached a pivotal stage

of maturity in the last decade, moving from disparate lines of inquiry to a theory-driven, interdisciplinary field presenting normative frameworks and philosophical explications for communicative practices. The intent of this volume is to present this maturation, to reflect the vibrant state of ethics theorizing and to illuminate promising pathways for future research.

Handbook of the Changing World Language Map - Stanley D. Brunn 2019-11-11

This reference work delivers an interdisciplinary, applied spatial and geographical approach to the study of languages and linguistics. This work includes chapters and sections related to language origins, diffusion, conflicts, policies, education/instruction, representation, technology, regions, and mapping. Also addressed is the mapping of languages and linguistic diversity, on language in the context of politics, on the relevance of language to cultural identity, on language minorities

and endangered languages, and also on language and the arts and non-human language and communication. This reference work looks at the subject matter and contributors to the disciplines and programs in the social sciences and humanities, and the dearth of materials on languages and linguistics. The topics covered are not only discipline-centered, but in the cutting-edge fields that intersect several disciplines and also cut across the social sciences and humanities. These include gender studies, sustainability and development, technology and social media impacts, law and human rights, climate change, public health and epidemiology, architecture, religion, visual representation and mapping. These new and emerging research directions and other intersecting fields are not traditionally discipline-bounded, but cut across numerous fields. The volumes will appeal to those within existing fields and disciplines and those working the intersections at local, regional and global scales.

How to Read the American West - William Wyckoff 2014-06-05

From deserts to ghost towns, from national forests to California bungalows, many of the features of the western American landscape are well known to residents and travelers alike. But in *How to Read the American West*, William Wyckoff introduces readers anew to these familiar landscapes. A geographer and an accomplished photographer, Wyckoff offers a fresh perspective on the natural and human history of the American West and encourages readers to discover that history has shaped the places where people live, work, and visit. This innovative field guide includes stories, photographs, maps, and diagrams on a hundred landscape features across the American West. Features are grouped according to type, such as natural landscapes, farms and ranches, places of special cultural identity, and cities and suburbs. Unlike the geographic organization of a traditional guidebook, Wyckoff's field guide draws attention to the connections and the differences between and among places. Emphasizing features that recur from one part of the region to another, the guide takes readers on an exploration of the eleven western states with trips into their natural and cultural character. *How to Read the American West* is an ideal traveling companion on the main roads and byways in the West, providing unexpected insights into the landscapes you see out your car window. It is also a wonderful source for armchair travelers and people who live in the West who want to learn more about the modern West, how it came to be, and how it may change in the years to come. Showcasing the everyday alongside the exceptional, Wyckoff demonstrates how asking new questions about the landscapes of the West can let us see our surroundings more clearly, helping us make informed and thoughtful decisions about their stewardship in the twenty-first century. The Diversity Style Guide - Rachele Kanigel 2019-01-14

New diversity style guide helps journalists write with authority and accuracy about a complex, multicultural world A companion to the online resource of the same name, *The Diversity Style Guide* raises the consciousness of journalists who strive to be accurate. Based on studies, news reports and style guides, as well as interviews with more than 50 journalists and experts, it offers the best, most up-to-date advice on writing about underrepresented and often misrepresented groups. Addressing such thorny questions as whether the words Black and White should be capitalized when referring to race and which pronouns to use for people who don't identify as male or female, the book helps readers navigate the minefield of names, terms, labels and colloquialisms that come with living in a diverse society. *The Diversity Style Guide* comes in two parts. Part One offers enlightening chapters on Why is Diversity So Important; Implicit Bias; Black Americans; Native People; Hispanics and Latinos; Asian Americans and Pacific Islanders; Arab Americans and Muslim Americans; Immigrants and Immigration; Gender Identity and Sexual Orientation; People with Disabilities; Gender Equality in the News Media; Mental Illness, Substance Abuse and Suicide; and Diversity and Inclusion in a Changing Industry. Part Two includes Diversity and Inclusion Activities and an A-Z Guide with more than 500 terms. This guide: Helps journalists, journalism students, and other media writers better understand the context behind hot-button words so they can report with confidence and sensitivity Explores the subtle and not-so-subtle ways that certain words can alienate a source or infuriate a reader Provides writers with an understanding that diversity in journalism is about accuracy and truth, not "political correctness." Brings together guidance from more than 20 organizations and style guides into a single handy reference book *The Diversity Style Guide* is first and foremost a guide for journalists, but it is also an important resource for journalism and writing instructors, as well as other media professionals. In addition, it will appeal to those in other fields looking to make informed choices in their word usage and their personal interactions.

Modernity At Large - Arjun Appadurai 1996

Making Globalization Work - Joseph E. Stiglitz 2007-09-17

"A damning denunciation of things as they are, and a platform for how we can do better."—Andrew Leonard, *Salon* Building on the international bestseller *Globalization and Its Discontents*, Joseph E. Stiglitz offers here an agenda of inventive solutions to our most pressing economic, social, and environmental challenges, with each proposal guided by the fundamental insight that economic globalization continues to outpace both the political structures and the moral sensitivity required to ensure a just and sustainable world. As economic interdependence continues to gather the peoples of the world into a single community, it brings with it the need to think and act globally. This trenchant, intellectually powerful, and inspiring book is an invaluable step in that process.

Bedouins into Bourgeois - Calvert W. Jones 2017-06-01

How are state leaders adapting their citizen-building strategies for globalization? What outcomes are they achieving, and why? *Bedouins into Bourgeois* investigates an ambitious state-led social engineering campaign in the United Arab Emirates, where leaders aimed to encourage more entrepreneurial, market-friendly, patriotic, and civic-minded citizens. Extensive ethnography - including interviews with a ruling monarch - reveals the rulers' reasoning and goals for social engineering. Through surveys and experiments, social engineering outcomes are examined, as well as the reasons for these outcomes, with surprising results. This fascinating study illustrates how social

engineering strategies that use nationalism to motivate citizens can have paradoxical effects, increasing patriotism but unexpectedly discouraging or “crowding out” development-friendly mind-sets.

Introduction to Latin America - Peadar Kirby 2003-05-27

Introduction to Latin America provides a completely new introduction to the political, social and economic forces shaping this essential region of undergraduate study today. It is the first textbook to place Latin America within a genuinely global context and introduce the debates and impact of globalization, neoliberalism, democratization, and the environment.

Diversity Amid Globalization - Lester Rowntree 2008-04-29

Calexico - Peter Laufer 2011-09-01

These days everyone has something to say (or declaim!) about the U.S.-Mexico border. Whether it's immigration, resource management, educational policy, or drugs, the borderlands are either the epicenter or the emblem of a current crisis facing the nation. At a time when the region has been co-opted for every possible rhetorical use, what endures is a resilient and vibrant local culture that resists easy characterization. For an honest picture of life on the border, what remains is to listen to voices that are too often drowned out: the people who actually live and work there, who make their homes and livings amid a confluence of cultures and loyalties. For many of these people, the border is less a hyphenated place than a meeting place, a merging. This aspect of the border is epitomized in the names of two cities that straddle the line: Calexico and Mexicali. A “sleepy crossroads that exists at a global flashpoint,” Calexico serves as the reference point for veteran journalist Peter Laufer's chronicle of day-to-day life on the border. This wide-ranging, interview-driven book finds Laufer and travel companion/photographer on a weeklong road trip through the Imperial Valley and other border locales, engaging in earnest and revealing conversations with the people they meet along the way. Laufer talks to

secretaries and politicians, restaurateurs and salsa dancers, poets and real estate agents about the issues that matter to them the most. What draws them to border towns? How do they feel about border security and the fences that may someday run through their backyards? Is “English-only” a realistic policy? Why have some towns flourished and others declined? What does it mean to be Mexican or American in such a place? Waitress Bonnie Peterson banter with customers in Spanish and English. Mayor Lewis Pacheco laments the role that globalization has played in his city's labor market. Some of their anecdotes are humorous, others grim. Moreover, not everyone agrees. But this very diversity is part of the fabric of the borderlands, and these stories demand to be heard.

The Globalization Paradox - Dani Rodrik 2011-03-24

For a century, economists have driven forward the cause of globalization in financial institutions, labour markets, and trade. Yet there have been consistent warning signs that a global economy and free trade might not always be advantageous. Where are the pressure points? What could be done about them? Dani Rodrik examines the back-story from its seventeenth-century origins through the milestones of the gold standard, the Bretton Woods Agreement, and the Washington Consensus, to the present day. Although economic globalization has enabled unprecedented levels of prosperity in advanced countries and has been a boon to hundreds of millions of poor workers in China and elsewhere in Asia, it is a concept that rests on shaky pillars, he contends. Its long-term sustainability is not a given. The heart of Rodrik's argument is a fundamental 'trilemma': that we cannot simultaneously pursue democracy, national self-determination, and economic globalization. Give too much power to governments, and you have protectionism. Give markets too much freedom, and you have an unstable world economy with little social and political support from those it is supposed to help. Rodrik argues for smart globalization, not maximum globalization.
