Richmond, Virginia's recently appointed chief medical examiner claims that he needs Scarpetta's help to solve a perplexing crime. When she arrives, however, Scarpetta finds that nothing is as she expected: her former lab is in the final stages of demolition; the inept chief isn't the one who requested her after all; her old assistant chief has developed personal problems that he won't reveal; and a glamorous FBI agent, whom Scarpetta dislikes instantly, meddles with the case. Deprived of assistance from colleagues Benton and Lucy, who are embroiled in what first appears to be an unrelated attempted rape by a stalker, Scarpetta is faced with investigating the death of a fourteen-year-old girl, working with the smallest pieces of evidence—traces that only the most thorough hunters can identify. She must follow the twisting leads and track the strange details in order to make the dead speak—and to reveal the sad truth that may be more than even she can bear...

Scarpetta - Patricia Cornwell 2009-08-25

Leaving behind her private forensic pathology practice in Charleston, South Carolina, Kay Scarpetta accepts an assignment in New York City, where the NYPD has asked her to examine an injured man on Bellevue Hospital's psychiatric prison ward. The handcuffed and chained patient, Oscar Bane, has specifically asked for her, and when she literally has her gloved hands on him, he begins to talk—and the story he has to tell turns out to be one of the most bizarre she has ever heard. The injuries, he says, were sustained in the course of a murder . . . that he did not commit. Is Bane a criminally insane stalker who has fixed on Scarpetta? Or is his paranoid tale true, and it is he who is being spied on, followed and stalked by the actual killer? The one thing Scarpetta knows for certain is that a woman has been tortured and murdered—and more violent deaths will follow. Gradually, an inexplicable and horrifying truth emerges: Whoever is committing the crimes knows where his prey is at all times. Is it a person, a government? And what is the connection between the victims? In the days that follow, Scarpetta; her forensic psychologist husband, Benton Wesley; and her niece, Lucy, who has recently formed her own forensic computer investigation firm in New York, will undertake a harrowing chase through cyberspace and the all-too-real streets of the city—an odyssey that will take them at once to places they never knew, and much, much too close to home. Throughout, Cornwell delivers shocking twists and turns, and the kind of cutting-edge technology that only she can provide. Once again, she proves her exceptional ability to entertain and enthrall.
