Narrators and Narrations - Ja'far Subhani

2019-12-09

The sciences of narrators and narrations (rijal and dirayah) are among the most fundamental fields of study that a mujtahid must master as part of his expertise of ijtehad. They are very detailed and technical subjects, each with its own rich history of development. In this book, the author expertly presents an introduction to these subjects and discusses their main topics in the form of thirty-four lessons. Each lesson concludes with a series of questions in the form of exercises to test the comprehension of the reader. The first half of this beginners guide acquaints the reader with the key questions of the study of the narrators of hadith, including the reliability of a narrator, the narrations by the companions of the Imams, and an explanation of rijali terms and phrases. This section addresses

internal debates over the efficacy of biographical studies and explores whether certain narrators can be considered absolutely reliable from within the Shii tradition. The second half delves into the classification and evaluation of hadith, including authenticity, the traditional methodologies of transmitting hadith, and the approaches scholars take in the face of seemingly contradictory evidence regarding the reliability of a narrator or hadith. All in all, this book is an excellent introduction to the traditional study of traditions, particularly in the Twelver Shii heritage. It will leave the serious student well equipped to proceed in scholarly traditional studies of narrators and narrations.

Muslim Women Online - Anna Piela

2013-06-17

While issues surrounding Muslim women are common in the international media, the voices of Muslim women themselves are largely absent from media coverage and despite the rapidly increasing presence of Muslim women in online groups and discussions, it is still a relatively unexplored topic. This book examines Muslim women in transnational online groups, and their views on education, culture, marriage, sexuality, work, dress-code, race, class and sisterhood. Looking at both egalitarian and traditionalist Muslim women's views, the author considers their interpretations of Islam and identifies a new category of holists who focus on developing the Islamic sisterhood. Drawing on detailed analysis of online transcripts, she highlights women's rhetorical techniques and the thorough knowledge of Islamic sources which they use to justify their points in online discussions. She details how in the online context, as opposed to offline interactions, Muslim women are much more willing to cross boundaries between traditionalist and egalitarian interpretations of Islam and women's Islamic rights and responsibilities and to develop collaborative interpretations with supporters of different views. Shedding light on a candid and forthright global community, this book is an important contribution to the debate on women in Islam, and as such will be of interest to scholars and students of Islamic studies, gender studies, media studies and the Middle East.

The Virtues in Medical Practice - Edmund D. Pellegrino 1993-11-11

In recent years, virtue theories have enjoyed a renaissance of interest among general and medical ethicists. This book offers a virtue-based ethic for medicine, the health professions, and health care. Beginning with a historical account of the concept of virtue, the authors construct a theory of the place of the virtues in medical practice. Their theory is grounded in the nature and ends of medicine as a special kind of human activity. The concepts of virtue, the virtues, and the virtuous physician are examined along with the place of the virtues of trust, compassion, prudence, justice, courage, temperance, and effacement of self-interest in medicine. The authors discuss the relationship between and among principles, rules, virtues, and the philosophy of medicine. They also address the difference virtue-based ethics makes in confronting such practical problems as care of the poor, research with human subjects, and the conduct of the healing relationship. This book with the author's previous volumes, *A Philosophical Basis of Medical Practice and For the Patient's Good*, are part of their continuing project of developing a coherent moral philosophy of medicine.

The Impact of Islamic Work Ethics on Job Performance. A Study of Universiti Utara Malaysia Administrative Staffs - Abshir Khalif Farah 2018-03-01

Master's Thesis from the year 2016 in the subject Business economics - Banking, Stock Exchanges, Insurance, Accounting, , course: Islamic banking, language: English, abstract: This study was primarily designed to review the impact of Islamic Work Ethics on employees' job performance; this is because of the persistent immoral concerns in the society and corporations like dishonesty, fraud, sexual harassment, etc. The elements of Islamic work ethics for this study cover honesty, rewards,

commitment and satisfaction only. The study specifically focuses on UUM administrative staff. In order to achieve the research objectives, the study employ a quantitative research method, mainly survey where questionnaires were distributed to the respondents. The research population is UUM administrative staff in Sintok main campus. The study is significant to the body of knowledge, policy makers, practitioners and academicians. Since most of literatures on perceived benefits of Islamic work ethics are theoretical, this study will add on the stock of knowledge on Islamic ethics through empirical contributions. Therefore, it will contribute to knowledge on this field. Policy makers and Islamic corporations can design their code of ethics to incorporate Islamic values and this will have great positive impact on their performance as well as economic growth. Future researchers can explore more on other variables as well as expand the size of the study in order to contribute more to knowledge. Ethics and morality are core values of all divine religions. All divine religions that are revealed by Allah to His messengers with divine books promote ethics and morality. According to Mayne ethics runs deeper than the internal compass and describes a social system or societal structure of moral codes that govern virtuous action. From a secular perspective, ethics change from group to group and society to society. But from the Christian perspective, ethics should be concrete and governed by God. Christian ethics does not change from society to society, as secular moral codes may do, Christians are a single group adhering to the ethical code of the Bible, rather than multiple sects adhering to differing laws and customs.

Islamic Feminism - Lana Sirri 2020-11-29

This book sets out a rationale for the compatibility of Islam and Feminism and shows that Islamic Feminism is a diverse and valuable lens through which to analyse religion and gender. In addition, including scholarship written in Arabic, it promotes the decolonisation of knowledge production around Islam, gender and sexuality. Islamic feminism is a field of study that has been marginalised both in contemporary Islamic discourse and in feminist discourse. This study counters this marginalisation in two ways. Firstly, it

enumerates the diversity of approaches used in Islamic feminist scholarship. Secondly, it foregrounds voices that are often neglected in discussions of Islam, gender and sexuality by highlighting and contrasting the work of two key scholars: Kecia Ali based in the USA and Olfa Youssef based in Tunisia. The book suggests that in addition to geo-political positioning, language, as a 'prior-text', also influences an individual's personal interpretation of Islamic feminism. This comparison, therefore, enables broader issues to be dissected, such as the interrelationships between life experiences, strategies of resistance to patriarchal and other forms of oppression, and the production of knowledge. This is a unique study of Islamic Feminism that will be of great use to any scholar of Religion and Gender, Islamic Studies, Gender Studies and the Sociology of Religion.

The Middle East is the powerful setting for this sweeping tale of a land where revenge is sacred and hatred noble. Coherence in the Qur'an - Mustansir Mir 2011

Contemporary Bioethics - Mohammed Ali Al-

Bar 2015-05-27

This book discusses the common principles of morality and ethics derived from divinely endowed intuitive reason through the creation of al-fitr' a (nature) and human intellect (al-'aql). Biomedical topics are presented and ethical issues related to topics such as genetic testing, assisted reproduction and organ transplantation are discussed. Whereas these natural sources are God's special gifts to human beings, God's revelation as given to the prophets is the supernatural source of divine guidance through which human communities have been guided at all times through history. The second part of the book concentrates on the objectives of Islamic religious practice - the maqa' sid - which include: Preservation of Faith, Preservation of Life, Preservation of Mind (intellect and reason), Preservation of Progeny (al-nasl) and Preservation of Property. Lastly, the third part of the book discusses selected topical issues, including abortion, assisted reproduction devices, genetics, organ transplantation, brain death and end-of-life aspects. For each topic, the current medical evidence is followed by a detailed discussion of the ethical issues involved.

Theocratic Secularism - Naser Ghobadzadeh 2022

"This book articulates a religious rationale for political secularism in the Iranian/shi'i context. The genealogy of Twelver shi'i political theology shows that the bitter experience and lack of success of the shi'ia in the field of governance in the early centuries of Islamic history led them to link the realisation of their ideal political system to transcendental factors. Belief in theocracy has always been the basis of shi'i political theology, but with the messianic conception of the 12th Imām in the fourth/tenth century, its realisation came to depend on the will and intervention of the divine. As a result, shi'i leaders, while awaiting the return of the 12th Imām, not only do not have the authority or responsibility to take over the institution of government, but have been forbidden from doing so. For more than 1300 years, the political thought and action of shi'i religious leaders was shaped by the political theology formulated in this book as Theocratic secularism. In opposition to orthodox shi'i theology, a new politico-religious discourse emerged at the initiative of Ayatollah Khomeini

in the last decades of the twentieth century, which in this book is referred to as governmental-shi'ism. In sharp contrast to shi'i orthodoxy, governmental-shi'ism considers the occupation of the government apparatus as the duty of shi'i religious leaders. In this book, it is argued that governmental-shi'ism was neither the product of a theological transformation of shi'i orthodoxy nor used as a blueprint to establish the Islamic Republic. Rather, the formation of the Islamic Republic and the clergy's rise to power led to the birth of governmental-shi'ism and bestowed importance on Khomeini's doctrine of wilāyat-i faqih"--

What the Qur'an Meant - Garry Wills 2018-12-04

America's leading religious scholar and public intellectual introduces lay readers to the Qur'an with a measured, powerful reading of the ancient text Garry Wills has spent a lifetime thinking and writing about Christianity. In *What the Qur'an Meant*, Wills invites readers to join him as he embarks on a timely and necessary reconsideration of the Qur'an, leading us through perplexing passages with insight and erudition. What does the Qur'an actually say about veiling women? Does it justify religious war? There was a time when ordinary Americans did not have to know much about Islam. That is no longer the case. We blundered into the longest war in our history without knowing basic facts about the Islamic civilization with which we were dealing. We are constantly fed false information about Islam—claims that it is essentially a religion of violence, that its sacred book is a handbook for terrorists. There is no way to assess these claims unless we have at least some knowledge of the Qur'an. In this book Wills, as a non-Muslim with an open mind, reads the Qur'an with sympathy but with rigor, trying to discover why other non-Muslims—such as Pope Francis—find it an inspiring book, worthy

to guide people down through the centuries. There are many traditions that add to and distort and blunt the actual words of the text. What Wills does resembles the work of art restorers who clean away accumulated layers of dust to find the original meaning. He compares the Qur'an with other sacred books, the Old Testament and the New Testament, to show many parallels between them. There are also parallel difficulties of interpretation, which call for patient exploration—and which offer some thrills of discovery. What the Qur'an Meant is the opening of a conversation on one of the world's most practiced religions.

Islamic Law and Ethics - David R. Vishanoff 2020-09-01

Does Islamic law define Islamic ethics? Or is the law a branch of a broader ethical system? Or is it but one of several independent moral discourses, Islamic and otherwise, competing for Muslims' allegiance? The essays in this book present a range of answers: some take fiqh as the defining framework for ethics, others insert the law into a broader ethical system, and others present it as just one among several parallel Islamic ethical discourses, or show how Islamic ethics might coexist with non-Muslim normative systems. Their answers have far reaching implications for epistemology, for the authority of jurists and lay Muslims, for the practical moral challenges of daily life, and for relationships with non-Muslims. The book presents Muslim ethicists with a strategic contemporary choice: should they pursue a single overarching methodology for judging all ethical questions, or should they relish the rhetorical and political competition of alternative but not necessarily incompatible moral discourses?

A Thematic Commentary on the Qur'an - Muḥammad Ghazali 2000

In a multi-faith world, Islam is widely regarded as dogmatic and exclusivist. Yet in the Qur'an we have a great and worthy example of how to live in diversity, of powerful scriptural tenets that lend themselves precisely to engagement with those of other faiths. As such Islam has much to add to the debate on Religious Pluralism. For Muslims the issue is a delicate one. Aside from being tolerant and respectful of other faiths, advocating freedom of faith, and peaceful coexistence for all humanity, Muslims have to intellectually engage on matters of religious truth whilst defending the validity of their own Islamic tenets. This study is focused on the Qur'anic text. It explores the Qur'anic conception of normative religious pluralism with a view to providing answers to questions such as

whether the Qur'an itself regards normative religious pluralism as a value system or simply a method through which the Qur'anic world view can be actualized. In doing so the author corrects some highly controversial misquoted, mistranslated, and/or quoted out of context verses of the Qur'an, including the so-called verse of the sword and the perception of not taking non-Muslims as friends. In reality, the Qur'an calls for freedom of faith and peaceful coexistence, but condemns oppression, religious persecution, and those who initiate hostilities. In this way it not only invokes human dignity, but restores it when it is violated.

The Economic System of Islam - Mirza Bashir-ud-Din Mahmud Ahmad 2013-06-01
The Economic System of Islam, is an English version of a lecture delivered in Urdu by Hazrat

Mirza Bashir-ud-Din Mahmud Ahmad, the Second Khalifah Head of the Ahmadiyya Muslim Community to a gathering of academia in Lahore, Pakistan, in 1945. The book presents a detailed account of the teachings of Islam regarding the system of economics. It demonstrates that economic system of Islam is placed within the broader teachings of Islam, with the objective of attaining the pleasure of Allah and everlasting bliss in the Hereafter. It provides for a healthy and progressive society in which the basic needs of all are met, and incentives for achieving excellence are provided, with due regard to justice and fair play. The lecture then makes a critical evaluation of the economic aspects of Communism. It provides ample evidence that Communism has failed in its pretensions of promoting justice and equality both within its own borders and in international affairs. It brings out serious objections against Communism from a religious point of view, and cites three prophecies about the decline of Communism.

Qur'an and Woman - Amina Wadud 1999-06-10
Fourteen centuries of Islamic thought have produced a legacy of interpretive readings of the Qu'ran written almost entirely by men. Now, with *Qur'an and Woman*, Amina Wadud provides a first interpretive reading by a woman, a reading which validates the female voice in the Qu'ran and brings it out of the shadows. Muslim progressives have long argued that it is not the religion but patriarchal interpretation and implementation of the Qu'ran that have kept women oppressed. For many, the way to reform is the reexamination and reinterpretation of religious texts. *Qur'an and Woman* contributes a gender inclusive reading to one of the most fundamental disciplines in Islamic thought, Qu'ranic exegesis. Wadud breaks down specific texts and key words which have been used to limit women's public and private role, even to justify violence toward Muslim women, revealing that their original meaning and context defy such interpretations. What her analysis clarifies is the lack of gender bias, precedence, or prejudice in the essential language of the Qu'ran. Despite much Qu'ranic evidence about the significance of women, gender reform in Muslim society has been stubbornly resisted. Wadud's reading of the Qu'ran confirms women's equality and constitutes legitimate grounds for contesting the unequal treatment that women have experienced historically and continue to experience legally in Muslim communities. The Qu'ran does not prescribe one timeless and unchanging social structure for men and women, Wadud argues lucidly, affirming that the Qu'ran holds greater possibilities for guiding human society to a more fulfilling and productive mutual collaboration between men and women than as yet attained by Muslims or non-Muslims.

Taxation in Islam - A. Ben Shemesh 1958

The Meaning of Surah Al-Araf (The Heights Border Between Hell & Paradise) From Noble Quran Bilingual Edition - Muhammad Vandestra 2019-01-09

Surah al-Araf (The Heights Border Between Hell & Paradise) is the seventh surah of the Qur'an, with 206 verses. It is a Meccan sura. Its final verse, verse 206, requires a sajdah, or prostration. Al-Araf is one of the most detailing Surah about the origins of creation and revealing prophecies about the judgment day, it starts by telling us how Satan made our ancestors Adam and Eve to leave heaven and all of the three came down to earth and from that point Satan became the number one enemy for humanity, and how he refused to obey God and asked him to keep him alive to show him the vulnerability of this new creature the Human being, the Surah then starts by telling us how Satan misled thousands of populations over time and gives us examples of some prophets who suffered in order to gain their lost companions to the right path, cited in this surah: Story of Nuh/Noah, which begins with the prophet warning his people and then the community rejecting the message and facing a punishment, the Grand Deluge. Story of Hud: Hud lived with his people Aad, Aad were not ignorant of the existence of Allah, nor did they refuse to worship Him. What they did refuse was to worship Allah alone. They worshipped other gods, also, including idols. This is one sin Allah does not forgive. The Prophet Hud said to his people: "He created you, He provides for you and He is the One Who will cause you to die. He gave you wonderful physiques and blessed you in many ways. So believe in Him and do not be blind to His favors, or the same fate that destroyed Noah's people will overtake you." It also reveals that prophecies about the coming of Prophet Muhammad SAW were present in the Jewish law and Gospel.7:157.
