In *Proactive and Applied Resilience*, author Dr. Glenn E. Richardson helps you access that energy, vitality, and wisdom that guide you to thrive through adversity and maximize your potential, a process called resiliency. Using his firsthand experiences with resiliency as a starting point, Richardson provides valuable information about identifying personal sources of strength and flexibility for those seeking to access their own ability to thrive throughout challenges in life. *Proactive and Applied Resilience* will help you take control of your life story and all the short stories that happen every day.

Confessing History - John Fea 2010-11-15

At the end of his landmark 1994 book, *The Soul of the American University*, historian George Marsden asserted that religious faith does indeed have a place in today's academia. Marsden's contention sparked a heated debate on the role of religious faith and intellectual scholarship in academic journals and in the mainstream media. The contributors to *Confessing History: Explorations in Christian Faith and the Historian's Vocation* expand the discussion about religion's role in education and culture and examine what the relationship between faith and learning means for the academy today. The contributors to *Confessing History* ask how the vocation of historian affects those who are also followers of Christ. What implications do Christian faith and practice have for living out one's calling as an historian? And to what extent does one's calling as a Christian disciple speak to the nature, quality, or goals of one's work as scholar, teacher, adviser, writer, community member, or social commentator? Written from several different theological and professional points of view, the essays collected in this volume explore the vocation of the historian and its place in both the personal and professional lives of Christian disciples.

A More Beautiful Question - Warren Berger 2014-03-04

To get the best answer-in business, in life-you have to ask the best possible question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy-and then abandon as we grow older. Critical to learning, innovation, success, even to happiness-yet often discouraged in our schools and workplaces-it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question-and to do so deeply, imaginatively, and "beautifully." In this fascinating exploration of the surprising power of questioning, innovation expert

Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbnb, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems-from "How can I adapt my career in a time of constant change?" to "How can I step back from the daily rush and figure out what really makes me happy?" By showing how to approach questioning with an open, curious mind and a willingness to work through a series of "Why," "What if," and "How" queries, Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life.

Labor's Millennium - Brett H. Smith 2010-01-01

Historians have traditionally interpreted the American land-grant higher-education movement as the result of political and economic forces. Little attention has been given, however, to any explicit or implicit theological motivations for the movement. This book tells the story of how the Christian belief of many founders of the University of Illinois motivated their educational theory and practice. Constructing a social gospel of labor's millennium (their shorthand for God's kingdom being enhanced through agricultural and mechanical education), they initially proposed that the university would impart a millenarian blessing for the larger society by providing abundant food, economic prosperity, vocational dignity, and a charitable spirit of sacred unity and public service. Rich in primary-source research, Smith's account builds a compelling case for at least one such institution's adaptation of an inherited evangelical educational tradition, transitioning into a new era of higher learning that has left its mark on university life today.

Strong and Free - Lyndsay Doyle 2020-11-02

Adolescent girls are dropping out of sports at an alarming rate, despite having more opportunities than ever before. More than that, mainstream media coverage of women's sports has declined over the last twenty years, and currently accounts for less than 5 percent of the total. Is it possible that there's a connection between these dispiriting statistics? Is it possible that young girls would have a better chance of staying in sports if they could actually see the older equivalent of themselves more often? With *Strong and Free*, Lyndsay Doyle believes we have the power to change their lifestyle trajectories through photographs.

Here is inspiration for Canadian female athletes, coaches, and officials in one collection, assembled in the hopes of expanding media coverage of female sports and encouraging young girls to enroll and stay involved. These photographs capture sporting women in all walks of life—all ages, all body types, from beginners to Olympians. These women share common traits that often transcend sports: determination, perseverance, dedication, patience, and responsibility for showing young girls how sport can benefit them. Strong and Free gives these incredible role models for young girls a powerful voice. Our girls are watching us. Our nieces, cousins, sisters, neighbours, daughters. If we don't show them what they're capable of, who will?

God Dreams - Will Mancini 2016

Do you really know your vision? Most churches have a mission or vision statement, but are stuck in a trap of generic communication. Just like a visionary restaurant needs a more specific focus than "serving food," a visionary church needs something more than biblical generalizations like "loving God, loving people" or

“making disciples and serving the world.” When a pastor doesn't move beyond this broad sense of where the church is going, momentum is hard to achieve and sustain. The vision statement lacks meaning and people don't feel empowered to support it. Planning becomes fruitless and the church continues with an “all things to all people” approach. In this groundbreaking work, based on 15 years and over 10,000 hours of church team facilitation, Will Mancini reveals the 12 basic templates for any church vision. By exploring these 12 kinds with biblical backgrounds and real-time church illustrations, your team will experience break-through clarity that makes focus more achievable. Progress doesn't have to be difficult. This increased clarity will significantly advance a church leader's inner confidence and outer credibility. It can pull your team together and bring unprecedented enthusiasm to your people. You are more of a visionary than you realize. Isn't it time to really articulate your vision?

[Dream Bigger Live Better](#) - Donna Palm 2013-12

Don't waste time living a mundane and unfulfilled life; watching life go by without taking the initiative to fulfill your dreams and not believing in your own potential. Life is short, we have to cram everything in before we leave to go on to the next world. Throughout my life, one question has repeatedly been asked of me no matter where I was or what I was doing. People have asked me over and over again, "How in the world do you do it?" "How do you as a single mom run a business, take care of a house, haul the kids to baseball and soccer, etc.?" "How do you pick up everything you own, move to a place where you know absolutely no one and start a brand new life?" "How do you find the confidence to redesign your life and follow your dreams?" "How in the world do you do it?" Well, to all of you who have asked me these questions over the years, here it is. I have finally written the instruction manual. This book includes several popular and well-known insights to life. Many of you will probably recognize them. However, what this book also includes are many things you have not heard before - things that I have developed over years of life experience. I only wish I had this book to follow when I started on this journey. Luckily, it is never too late. It is my desire to inspire all of you to follow your life's dreams by following the Blueprint I have laid out for you in this book. Following the Blueprint, you should be able to accomplish anything your heart desires. It is important to take the time to do the exercises so you can completely enjoy the fulfillment of your potential. As you read further into the book you will understand why. We will discuss successes and failures and what to do when we have fallen into a "hole." Life is not perfect and neither are we. However, by following the Blueprint and reading and implementing the teachings and concepts in this book, you will have the confidence and ability to turn things around and take a "Do-Over" at will. Everything you need is here; the rest is up to you. There are no coincidences in life. You are where you are, facing what you're facing, and doing what you're doing because life is preparing you for future greatness. Don't deny yourself - or the world - the opportunity to be everything you were created to be. No one can be 100 percent all of the time. Keep this book and your notes as a handy reference. Use it as an instruction manual for your life. If you are not at the top of your game or you feel like you are falling into "the hole" refer back to whatever information in this book that may inspire you. Study your Blueprint. Go back to your Accomplishments list so you can see written proof of what you have achieved so far. On days when you feel stupid for making the same mistakes again, go back to your Self Improvement list to prove to yourself that you have learned from

the past; sometimes it just takes more than one time around. The intention of this book is not just to read it once but to be able to go back and use the information as often as possible. Life is complicated and most things you cannot learn the first time around. Sometimes you have to repeat the class, or in this case, just repeat the book or the part of the book that will you will find helpful. This book is a combination of innovative new concepts along with tried-and-true messages and beliefs that have been used for years. It is the best of both worlds. In combination with each other, the intent of this book is to inspire you to get moving and fulfill your dreams. Share it with others so they can fulfill their dreams too. We were created to fulfill great plans, and dream big dreams. Most importantly, we have the ability to bring our dreams and visions to life and to inspire and encourage others to do the same. Each of us is limited only by the belief we have in ourselves. Open your mind then go forth and dare to dream, and dare to do.
