The Mayan Prophecies for 2012 - Gerald Benedict Author 2011-10-10

The Maya are an ancient civilization founded some 4,000 years ago. They were advanced in many ways, including their written languages, their art, their architecture and, of course, their mathematical and astrological systems. These achievements particularly with astrology and their infamous calendar, brought them many insights into the future for both themselves and for the world as a whole. We are now approaching the end of one of their most famous calendar cycles, that of the 5,000-year Fourth Age - the Maya foresaw this time as one of cataclysmic change, a change that many believe heralds the end of the world. However, in this captivating book Gerald Benedict looks in depth into twenty-one of the most famous and culturally relevant prophecies and offers fresh insight into them -and shows that rather than a global apocalypse, 2012 will herald a radical change to our way of life and a profound transformation of our consciousness. These ancient prophecies relate to fascinating topics such as the New Enlightenment, Galactic Synchronization, the Return of a Supreme Being and Changes to the Earth's Magnetic Field. Challenging us to make real changes to our lives now, they are a wake-up call to us all.

The Maya End Times - Patricia Mercier

Central South America and involves strange ceremonies at sacred pyramids, scaling an active volcano and chases with drug runners, Patricia Mercier attempts to discover whether 2012 will be the end of the world as know it or the dawning of a new golden age.

Feminine Mysteries in the Bible - Ruth Rusca 2008-09-17

An exploration of the repressed, esoteric feminine mysteries in the Bible through the lives of four women, all archetypes of the sacred prostitute • Shows how these four archetypal women represent the four stages of development of soul consciousness • Reveals how the fear of the power of the sacred prostitute led to a rejection of female sexuality and a destructive dualistic notion of men and women • Explains how the dogma of the Immaculate Conception represents the repression of the divine feminine in Christianity In *Feminine Mysteries in the Bible*, Ruth Rusca unveils sacred mysteries of the feminine and the alchemical relationship of the male and female forces at the heart of the Judeo-Christian tradition. Drawing on over 30 years of research, she explores four archetypal women in the Bible: Tamar, the sacred prostitute; Rahab, the meretrix; Ruth, who redeems the soul; and Bathsheba, the daughter of the Goddess. These women--sacred prostitutes one and all--represent the indestructible feminine life force, the wisdom of the Goddess, and the transformative power of the soul, and they symbolize the four stages of the development of soul consciousness. Mary,

mother of Jesus, is the quintessence of these four women, but Rusca shows that the dogma of the Immaculate Conception has repressed the significance of Mary and subverted the divine feminine in Christianity due to the church's fear of women and their life-giving energy. These women pass an imperishable feminine life force from generation to generation, and understanding their lives creates a path to overcoming the destructive tendencies of dualistic "male-female" thinking--a duality that profanes feminine sexuality and mysteries rather than revering and celebrating them.

Sojourns of the Soul - Dana Micucci 2012-12-19
Sojourns of the Soul differs from other inspirational travel books by providing a rare mix of in-depth wisdom and literary insights from the holistic view of one experienced female traveler. Dana Micucci gives a compelling account of her growing spiritual illumination through visits to some of the most sacred places on earth. Her lively, engaging narrative takes us to seven sites in all: the Australian outback, Angkor in Cambodia, the Valley of the Kings in Egypt, Lhasa in Tibet, Chichen Itza in the Yucatan; the Monastery of Christ in the Desert in New Mexico, and Machu Picchu in Peru. Micucci links each visit with the awakening of a particular chakra- the chakras being the seven energy centers of the body associated in Hinduism with progressive enlightenment. In the afterword, she reflects on how her experiences continue to shape her life after resuming her career as a journalist in New York City: she finds she is more tolerant, can engage in daily activities with more heart-centered awareness, and can sustain states of joy and gratitude for longer periods of time. The book will be a page turner for readers who yearn for long-delayed adventure, with the added benefit that it is not just a journey log but more of a seeker's manual; travel is simply the vehicle. Readers will find that they don't have to travel to far-flung places for the spiritual inspiration available in their everyday lives. As Micucci says, "Each day brings new remembrances of our divinity, of the Divine presence in all beings, and of our eternal connection to each other. I am so grateful to be here NOW . . . with you.

How to Practice Mayan Astrology - Bruce Scofield 2006-11-27

A contemporary and practical guide to Mayan astrological techniques • Discusses the logic and meaning of the 20 day-signs of the Mayan calendar • Explains the many cycles of Mayan astrology, such as the 9-day cycle of the Night Lords and the 13-day trecena • Contains extensive tables of Mayan astrological data, allowing readers to cast their own Mayan horoscopes How to Practice Mayan Astrology presents a contemporary guide to one of the most sophisticated astrological systems ever developed. Like other ancient peoples, the Maya looked to the cycles of the planets as markers of time and designators of order. The predictable cycles they observed became codified in the Mayan calendar and astrological system as a way of organizing the seeming chaos of human life. Mayan astrology is based on 20 named days that are cycled 13 times to create a 260-day calendar, the Tzolkin. The authors explain the symbolism, logic, and meaning of the 20 day-signs; how these signs reflect 260 possible personality types; and how they can be used for divination. They also explain the important role of the Four Directions and the planet Venus in one's personality matrix and life issues. Included are extensive, easy-to-use tables of Mayan astrological data, allowing readers to determine

their day-signs, to see how these signs are also influenced by the cycle of the Night Lords and the 13-day trecena, and to cast their own horoscopes.

2012 - Stephanie South 2009

Time and the Technosphere - José Argüelles
2002-08-03

A groundbreaking study that distinguishes the natural time of the cosmos from artificial mechanistic time. • Reveals September 11 as the signal of the end of artificial time according to the Law of Time. • Long awaited sequel to the author's bestselling book The Mayan Factor. • Explains the Great Calendar Change of 2004 and its enormous potential for the future of humanity. In Time and the Technosphere, José Argüelles presents a groundbreaking study that distinguishes the natural time of the cosmos from the artificial mechanistic time under which we currently live. Argüelles defines the actual nature of time as the frequency of synchronization. Applying this Law of Time to an understanding of the entire system of life on Earth, he shows that in order to not destroy Earth's ability to sustain life, we must change

our definition of time and adopt a natural harmonic calendar based on the 13-moon 28-day cycle. Until the creation of the Gregorian calendar and the 60-minute hour, most of humanity lived by the 28-day cycle of natural time. The adoption of artificial time has subjected us to a 12:60 time frequency that governs the entire global industrialized civilization--the technosphere. With the collapse of the Twin Towers on September 11, a fissure was created in this artificial technosphere, opening up the noosphere (Earth's mental envelope). Humanity has a golden opportunity to leave the strife of the past and enter a time of peace by adopting a harmonious natural calendar that will repair the damages caused by the irregular tempo of technospheric time. Our last best chance to adopt this natural time and step into the bright new future promised by the galactic shift of 2012 is the Great Calendar Change of 2004, a new discovery based on the author's mathematical research into the Mayan calendar first begun in his landmark work *The Mayan Factor*. In *Time and the Technosphere*, Argüelles reveals the clear distinction between third-dimensional astronomical time and the fourth-dimensional synchronic order of the Law of Time, which holds enormous potential for the future of humanity.

She is shocked upon arriving at Palenque to recognize that face as her husband's older brother, Kan Bahlam. They are immediately attracted, sharing deep interest in astronomy. [Bringers of the Dawn](#) - Barbara Marciniak
1992-12-01

Compiled from more than four hundred hours of channeling by Barbara Marciniak, *Bringers of the Dawn* imparts to us the wisdom of the Pleiadians, a group of enlightened beings who have come to Earth to help us discover how to reach a new stage of evolution. Master storytellers and humorists, they advise us to become media free, to work in teams, and to eliminate the words "should" and "try" from our vocabularies. We learn how to go beyond fear, how the original human was a magnificent being with twelve strands of DNA and twelve chakra centers, and who our "gods" are. Startling, intense, intelligent, and controversial, these teachings offer essential reading for anyone questioning their existence on this planet and the direction of our collective conscious--and unconscious. By remembering that we are Family of Light, that we share an ancient ancestry with the universe around us, we become "bringers of the dawn," consciously creating a new reality, a new Earth.

The Way of Tarot - Alejandro Jodorowsky
2009-11-17

Filmmaker Alejandro Jodorowsky's insights into the Tarot as a spiritual path • Works with the original Marseille Tarot to reveal the roots of Western wisdom • Provides the key to the symbolic language of the Tarot's "nomadic

cathedral" • Transforms a simple divination tool into a vehicle for self-realization and healing

Alejandro Jodorowsky's profound study of the Tarot, which began in the early 1950s, reveals it to be far more than a simple divination device. The Tarot is first and foremost a powerful instrument of self-knowledge and a representation of the structure of the soul. The Way of Tarot shows that the entire deck is structured like a temple, or a mandala, which is both an image of the world and a representation of the divine. The authors use the sacred art of the original Marseille Tarot--created during a time of religious tolerance in the 11th century--to reconnect with the roots of the Tarot's Western esoteric wisdom. They explain that the Tarot is a "nomadic cathedral" whose parts--the 78 cards or "arcana"--should always be viewed with an awareness of the whole structure. This understanding is essential to fully grasp the Tarot's hermetic symbolism. The authors explore the secret associations behind the hierarchy of the cards and the correspondences between the suits and energies within human beings. Each description of the Major Arcana includes key word summaries, symbolic meanings, traditional interpretations, and a section where the card speaks for itself. Jodorowsky and Costa then take the art of reading the Tarot to a depth never before possible. Using their work with Tarology, a new psychological approach that uses the symbolism and optical language of the Tarot to create a mirror image of the personality, they offer a powerful tool for self-realization, creativity, and healing.

The Maya Book of Life - Michael Owen
2011-03

THE MAYA BOOK OF LIFE: UNDERSTANDING THE XULTUN TAROT is the companion book to the Xultun Tarot Classic Edition. It explores the archetypes and alchemy of the major arcana of the Xultun Tarot through indigenous teachings and the analytical psychology of C G Jung and casts new light on the meaning of 2012. The Xultun Tarot was created by Peter Balin in 1976 based on images from Maya history and culture. Taken from a single painting, it is the only tarot deck where the major arcana form a complete picture. This picture is a symbolic image of the alchemical marriage of spirit and matter and a map of what Jung called the individuation

process. Only 500 copies of the original Xultun Tarot were ever printed. Now Kahurangi Press (xultun.com) has recreated this classic, long out-of-print deck true to its original large size and vibrant colours together with a book that explains the profound symbolism of the cards. Michael Owen is a clinical psychologist in private practice and author of Jung and the Native American Moon Cycles. He lives in New Zealand.

The Origin of Consciousness in the Breakdown of the Bicameral Mind - Julian Jaynes 2000-08-15
National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—*American Journal of Psychiatry*

Songlines of the Soul - Veronica Goodchild
2012-10-01

The title for this book comes from the ancient Aboriginal concept of “song lines” —pathways to another world reached through dreamtime and visionary insight, and encounters with the unknown realm of experience. Veronica Goodchild addresses how dreams, synchronicities, UFO/ET encounters, Crop Circle mysteries, and NDEs all point to the new unfolding vision of reality. She draws on ancient mystery traditions to explore how this metamorphosis is already reflected cross-culturally in Hopi, Aztec, Mayan, Hindu, Tibetan, Maori, Zulu, Dogon, and Egyptian cultures. *Songlines of the Soul* proposes a new paradigm of reality, a new worldview. The signatures of this new reality are arising both in our own experiences and all around us if only we can stretch wide our stubbornly held perceptions of what is “reality.” As we stand at a crucial turning point in our human history, this book offers hope, a call to awaken and expand our perceptions of the fundamental principles that orchestrate reality. In an age when the answers offered by governments and traditional religion are no longer sufficient, the quest for meaning must—as it always has in the past—arise first through visions, dreams, and journeys to other dimensions of consciousness.

Mask of the Sun: The Science, History and Forgotten Lore of Eclipses - John Dvorak
2017-03-07

They have been thought of as harbingers of evil as well as a sign of the divine. Eclipses—one of the rarest and most stunning celestial events we can witness here on Earth—have shaped the course of human history and thought since humans first turned their eyes to the sky. What do Virginia Woolf, the rotation of hurricanes, Babylonian kings and Einstein’s General Theory of Relativity all have in common? Eclipses. Always spectacular and, today, precisely predictable, eclipses have allowed us to know when the first Olympic games were played and, long before the first space probe, that the Moon was covered by dust. Eclipses have stunned, frightened, emboldened and mesmerized people for thousands of years. They were recorded on ancient turtle shells discovered in the Wastes of Yin in China, on clay tablets from Mesopotamia and on the Mayan “Dresden Codex.” They are mentioned in Homer’s *Iliad* and *Odyssey* and at

least eight times in the Bible. Columbus used them to trick people, while Renaissance painter Taddeo Gaddi was blinded by one. Sorcery was banished within the Catholic Church after astrologers used an eclipse to predict a pope's death. In *Mask of the Sun*, acclaimed writer John Dvorak the importance of the number 177 and why the ancient Romans thought it was bad to have sexual intercourse during an eclipse (whereas other cultures thought it would be good luck). Even today, pregnant women in Mexico wear safety pins on their underwear during an eclipse. Eclipses are an amazing phenomena—unique to Earth—that have provided the key to much of what we now know and understand about the sun, our moon, gravity, and the workings of the universe. Both entertaining and authoritative, *Mask of the Sun* reveals the humanism behind the science of both lunar and solar eclipses. With insightful detail and vividly accessible prose, Dvorak provides explanations as to how and why eclipses occur—as well as insight into the forthcoming eclipse of 2017 that will be visible across North America.

The Mayan Code - Barbara Hand Clow
2007-03-29

Bestselling author Barbara Hand Clow shows

how the Mayan Calendar is a bridge to galactic wisdom that fosters personal growth and human evolution • Unearths the meaning behind the calendar, its message for modern civilization, and what will happen when the calendar ends • Reveals how time acceleration is a manifestation of the acceleration of consciousness • By the author of *The Pleiadian Agenda* *The Mayan Code* is a deep exploration of how, as we approach the end of the Mayan Calendar, time and consciousness are accelerating, giving us a new understanding of the universe. Using Carl Johan Calleman's research, as well as the ideas of other Mayan Calendar scholars, Barbara Hand Clow examines 16.4 billion years of evolution to decode the creative patterns of Earth--the World Mind. These great patterns culminate in 2011, and then during 2012 major astrological influences will inspire us to attain oneness and enlightenment. *The Mayan Code* shows how the time cycles of the Calendar match important periods in the evolutionary data banks of Earth and the Milky Way Galaxy. These stages of evolution are converging during the final stage of the Calendar, the period between 1999 and 2011. War and territoriality, resource management and separation from nature, are all part of daily events we must process during these few short years: evidence of the tightening spiral of time that we experience as time speeding up. Barbara Hand Clow counsels that our own personal healing is the most important factor as we prepare to make this critical leap in human evolution--now referred to as the awakening of the World Mind.

Pyramid of Fire: The Lost Aztec Codex - John Major Jenkins 2004-11-03

The first translation of a previously unknown Aztec codex and its initiatory teachings for 2012

- Discloses the potential for great spiritual awakening offered at the end of the Aztec calendar cycle
- Presents the only existing English-language transcription of the Aztec codex, with line-by-line commentary
- Contains the epic poetry and metaphysical insights of Beat poet Marty Matz (1934-2001)

In 1961 an unknown Aztec codex was revealed to Beat poet and explorer Marty Matz by a Mazatec shaman in the mountains of Oaxaca, Mexico. Originally intended for dramatic performance, this codex presents a profound metaphysical teaching describing how the end of time will bring about a visionary ascent. At the behest of his Mazatec teacher, Matz transcribed this pictorial codex into a literary form that would preserve its initiatory teachings and reveal its secret meanings to a wider audience. *Pyramid of Fire* is an epic poem that provides a vehicle to transport the initiate into the higher realms of consciousness. It represents a barely surviving thread of teachings that have been passed down in secret since the time of the Spanish Conquest. Revealed are the techniques by which man is transported to the stellar realm after death via the solar energy within what the ancients called the "serpent of consciousness." Line-by-line commentary by Matz and John Major Jenkins provides insights into the perennial philosophy contained in the codex and its relevance to our times.

Genocide of the Mind - MariJo Moore 2009-07-21

After five centuries of Eurocentrism, many people have little idea that Native American tribes still exist, or which traditions belong to what tribes. traditional Native values within the context of an ever-changing modern society. In *Genocide of the Mind*, the experience and determination of these people is recorded in a revealing and compelling collection of essays that brings the Native American experience into the twenty-first century. Contributors include: Paula Gunn Allen, Simon Ortiz, Sherman Alexie, Leslie Marmon Silko, and Maurice Kenny, as well as emerging writers from different Indian nations.
