Strategy in Airline Loyalty -
 Evert R. de Boer 2017-10-09
 This book offers the first
 comprehensive exploration of
 frequent flyer programs. By
 combining academic research
 with extensive insights and
 examples from the actual
 business world, it explores the
 key drivers and strategies of
 airline loyalty marketing today
 in an unprecedented manner.
 Strategy in Airline Loyalty also
 explores how the programs
 have evolved over time from
 marketing programs to

financial powerhouses, identifying both the catalysts for change, as well as the strategic options and underlying trade-offs available to airlines. Covering diverse angles ranging from behavioral economics, to accounting, and structural design, the book reviews every core aspect of frequent flyer programs and offers extensive frameworks and definitions. The book provides a useful and complete reference for researchers, and helps those interested in frequent flyer programs to develop a better understanding of their past, present and future.

Handbook of Research on Consumerism and Buying Behavior in Developing Nations

Gbadamosi, Ayantunji 2016-05-31 Having a grasp on what appeals to consumers and how consumers are making purchasing decisions is essential to the success of any organization that thrives by offering a product or service. Despite the importance of consumer knowledge and understanding, research-based insight into the buying patterns and consumption habits of individuals in emerging nations remains limited. The Handbook of Research on Consumerism and Buying Behavior in Developing Nations takes a

critical look at the often overlooked opportunities available for driving consumer demand and interest in developing countries. Emphasizing the power of the consumer market in emerging economies and their overall role in the global market system, this edited volume features research-based perspectives on consumer perception, behavior, and relationship management across industries. This timely publication is an essential resource for marketing professionals, consumer researchers, international business strategists, scholars, and graduate-level students.
