Intelligent Betting - Kenny Turnbull 2016-01-12

Would you like to improve your betting? When it comes to betting on horse racing, most people don't approach it with any kind of structure or realistic plan - and therefore, the results they achieve from their betting are less than desirable. Intelligent Betting: A Fundamental Guide To Betting On Horse Racing, aims to fix that by quickly getting you up to speed with all the fundamentals required in order to enjoy long term success from your betting. Profitable betting can be broken down into 3 key principles. 1. Taking Value 2. Bankroll Management 3. Betting Mindset Intelligent Betting takes an in depth look at each of these principles, and will show you exactly how you can apply these principles to your own betting. Here are just some of the things you will find inside Intelligent Betting: \* A simple 3 step process to analysing races. \* The time saving technique used by successful bettors to gain a definite edge over the bookmakers \* How to create your own profitable horse racing system - And the one important thing you shouldn't do when creating a horse racing system \* A look into 2 profitable horse racing systems - Revealing the details of what makes each system successful \* How to know if you are "taking value" when betting each way \* Where exactly you should place your bets in order to maximize your betting winnings \* Why you should never bet without a bankroll - And the technique used by professional bettors, blackjack card counting teams, and investors such as Warren Buffet, to determine what size of bankroll is right for your betting \* What key figures you should be recording that could reveal huge mistakes you are making with your betting \* The easy to follow staking plan you can use to maximize your betting profits - And what commonly used staking plans you should avoid like the plague \* How to develop the right mindset in order to make clear headed and rational betting decisions \* The exact steps you can take to prevent the bookmakers from restricting your account \* The secret the bookies don't want you to know - How to continue betting, even when your bookmaker accounts have been restricted or shut down for being too profitable And much more... Let's make one thing clear. Intelligent Betting is not going to turn you into one of the worlds greatest bettors. Any book or course that guarantee's it can is lying. But what this book will do, is give anyone who is serious about improving their betting the necessary knowledge and tools to do so. Effectively short-cutting a good chunk of the very steep learning curve to becoming a profitable bettor.

*Cutting The Wire* - David G. Schwartz 2005-08-19

The story of the Wire Act and how Robert Kennedy's crusade against the Mob is creating a new generation of Internet gaming outlaws. Gambling has been part of American life since long before the existence of the nation, but Americans have always been ambivalent about it. What David Schwartz calls the "pell-mell history of legal gaming in the United States" is a testament to our paradoxical desire both to gamble and to control gambling. It is in this context that Schwartz examines the history of the Wire Act, passed in 1961 as part of Attorney General Robert F. Kennedy's crusade against organized crime and given new life in recent efforts to control Internet gambling. Cutting the Wire presents the story of how this law first developed, how it helped fight a war against organized crime, and how it is being used today. The Wire Act achieved new significance with the development of the Internet in the early 1990s and the growing popularity of online wagering through offshore facilities. The United States government has invoked the Wire Act in a vain effort to control gambling within its borders, at a time when online sports betting is soaring in popularity. By placing the Wire Act into the larger context of Americans' continuing ambivalence about gambling, Schwartz has produced a provocative analysis of a national habit and the vexing predicaments that derive from it. In America today, 48 of 50 states currently permit some kind of legal gambling.

Schwartz's historical unraveling of the Wire Act exposes the illogic of an outdated law intended to stifle organized crime being used to set national policy on Internet gaming. Cutting the Wire carefully dissects two centuries of American attempts to balance public interest with the technology of gambling. Available in hardcover and paperback.

*Most Profitable Horse Racing System* - M C Horrocks

This UK and Irish Handicap horse racing betting system contains 4 simple steps to identify potential winning horses in a horse race. I wrote this system so that busy punters using the excellemt racing post on the internet for free can find profitable horses quickly in handicap horse races. I like this book because I have added some optional extra filters to the horse racing system to improve the quality of selections and to achieve a better strike rate. I have written numerous books on horse racing but this is my favourite and most profitable UK and Irish horse racing system.

**Horse Racing** - Michael J. Haskett 2013-06

Horse Racing: Gamble & Win is based on the author's 25-plus years in gambling and betting on thoroughbred horse races. He has bet on horses in the: U.S Canada Mexico England Germany The Middle and Far East He has bet at tracks and race books, and has been computer betting for the last dozen years.

He has bet and won on fast surfaces, on turf, and on wet or even muddy tracks. If you want to bet to win, follow the system that has worked for over 25 years and you can bet like a pro too. It is easy to understand and easy to follow. Betting on the horses becomes clear and easy when you follow the system. It will not automatically show a profit on any one specific day. It may even show red figures for a few days. But over a minimum of say 35-40 races it will be in the black profit column. And you will be able to gamble and win at horse racing regularly. The author's records show a consistent long term Return on Investment (ROI) of about 1.24. That means that every dollar bet, or gambled, has returned a profit of 24%. Immediately. In cash. Watching and wagering on beautiful thoroughbred horses is one of the world's most popular sporting activities. By using this Special Report, readers will be able to gamble and win. Chapters include information on: Betting on the horses Gambling, winning, and following the system How to pick races to bet What odds you need to make a (good) bet How to bet to win, place, or exotic Computer betting How much to bet: Using the effective Kelly Criterion formula The types of races (maiden, claimer, handicap, etc.) Importance of jockeys, trainers, weights, equipment changes Forms to use for your horse racing notes Horse Racing: Gamble & Win is a proven and profitable system for betting on the horses.

**UK Horse Racing Dutching Black Book** - M C Horrocks 2022-10-09

THAT'S BANKED £36000 IN THE LAST 12 MONTHS TO GET THE UK HORSE RACING DUTCHING BLACK BOOK READ ON... TIMES ARE TOUGH... As you all know we are going through a painful cost of living crisis and things are going to get worse, a great deal worse trust me on this. The cost of fuel, food and other essentials are at record highs with wages not increasing - it's that simple. Most people will moan, some people will get extra jobs even three jobs, it's understandable... but the best you can do is make as much extra cash as possible. This recession will last for years, costs will not come down anytime soon and the housing bubble will continue to spiral out of control with mortgage costs increasing monthly and interests rates increasing at a rapid rate. Yet, there is some light at the end of the tunnel. THERE ARE PEOPLE OUT THERE MAKING SOME EXTRA MONEY... A tax-free, supplemental income which takes up very little time each day, and requires NO previous experience. They're doing it from one of the easiest, most straight-forward ways to earn extra money... UK HORSE RACING DUTCHING. Yes I know, you've heard it all before, only the bookies get rich from the races, while the average punter loses everything. I get it. That's generally true, if you plan on placing bets based on a hunch, some newspaper tipster or a system you once read online, then forget about it. Keep your hard-earned money in your pocket. However, if you want to succeed in this game, you need to follow someone who's been walking the walk for 20 years. FOR A FEW LUCKY PUNTERS THIS IS ABOUT TO BECOME REALITY... Allow me to introduce myself, my name is Mark Horrocks and for the past 20 years of my life I've been dedicated to UK horse racing. I have written many books on horse race betting and make a living from betting. I spend 12 hours per day studying the UK horse racing markets for profitable dutching opportunities. I am very passionate about dutching horses as this has proved to be the most profitable for me over the years. Over the years I've developed a system which selects the best horses and UK races to dutch and make a profit on a daily basis. This approach allows me to earn a healthy full time living solely from dutching UK horse races. I HAVEN'T WORKED A FULL TIME JOB SINCE 2015, AND I NEVER WILL AGAIN. THE UK HORSE RACING DUTCHING BLACK BOOK HAS ARRIVED... This is a game changer forget the dutching videos out there showing great profits. You will not see this dutching system anywhere else. The system has a 80% strike rate and will make you profits on a daily basis. No more 33/1 shots winning and causing your dutching bet to fail we have all been there! THERE IS A CATCH..... THE BOOK IS EXPENSIVE AS IT SHOULD BE.

UK Horse Racing Betting Systems - Mark Horrocks 2020-02-07

I graduated from University with a computer science degree many years ago when a degree meant something! I was always interested in horse racing and was fascinated in solving the UK horse racing form puzzle. I started my own computer business in my early 20's where I made good money and travelled across Europe. It was at this point in my life I decided to start a horse tipping business where I had weekly full page colour adverts in the Racing Post at £2K per advert and offices. I left the running of this horse tipping business to staff who were responsible for all parts of the business while I concentrated on my computer business. In my late 30's around 1990 I decided to use my computer skills to computerise and model UK horse racing form using a database built with 10 years of detailed horse racing form. It was over a period of

2 years that I concentrated my efforts on UK handicap races in conjunction with the betting exchange Betfair. This is where I believed maximum profit could be gained. The computer model allowed me to process 100's of handicap races per day and then formulate my system tweaking a horse's weight and BHB or OR ( Official Rating ). I must confess this was a difficult puzzle to crack even with a computer program that I wrote to crunch the data. I eventually found the correct weight and BHB rating for a horse based on it's last performances in handicap races. This eBook outlines this system and can be manually applied easily using the Racing Post on the internet. Punter's can be fickle people which 95% of them have no understanding of horse form and probability. If you can back horses at higher prices then you will make money! I regularly back horses that have a starting price of 2/1 and get 10/1! Most punters want winners everyday regardless of the price and the horse's real chance of winning that race, this is where the bookmakers clean up. Please take your time and practise these systems and more importantly understand in-play betting odds on Betfair exchanges. You do not need to use betting exchange you can back using normal bookmakers. Please enjoy!

**Computer-Based Horse Race Handicapping and Wagering Systems** - Bill Benter 2020-02-14

The Gambler Who Cracked the Horse-Racing Code Bill Benter did the impossible: He wrote an algorithm that couldn't lose at the track. Close to a billion dollars later, he tells his system. This book examines the elements necessary for a practical and successful computerized horse race handicapping and wagering system. Data requirements, handicapping model development, wagering strategy, and feasibility are addressed. A logit-based technique and a corresponding heuristic measure of improvement are described for combining a fundamental handicapping model with the public's implied probability estimates. The author reports significant positive results in five years of actual implementation of such a system. This result can be interpreted as evidence of inefficiency in pari-mutuel racetrack wagering. This paper aims to emphasize those aspects of computer handicapping which the author has found most important in practical application of such a system. Also included the Bill Benter "What Are My Odds?" Presentation at ICCM in 2004.

**Handbook of Sports and Lottery Markets** - Donald B. Hausch 2011-08-11

Its basic empirical research and investigation of pure theories of investment in the sports and lottery markets make this volume a winner. These markets are simpler to study than traditional financial markets, and their expected values and outcomes are uncomplicated. By means of new overviews of scholarship on the industry side of racetrack and other betting markets to betting exchanges and market efficiencies, contributors consider a variety of sports in countries around the world. The result is not only superior information about market forecasting, but macro- and micro-analyses that are relevant to other markets. \* Easily studied sports markets reveal features relevant for more complex traditional financial markets \* Significant coverage of sports from racing to jai alai \* New studies of betting exchanges and Internet wagering markets

Top Jockey - Anthony Gibson 2020-03-22

TERRIFIC PROFITS TO MADE TO DATE HIGH STRIKE RATE OVER 100% RETURN ON INVESTMENT With so many horse racing fixtures now run on a day to day basis and more and more bookmakers competing for our business by offering us better odds and deals you would think us punters would be having a field day especially since the advent of computerised ratings form and data freely available to us plus the aid of so many so called expert pundits and profitable tipping services who make outstanding profits there to help us punters beat the bookies. Surely us punters cannot lose and have an unassailable advantage when it comes to making money from this game? the reality of course is the total opposite with bookmakers reporting greater profits than ever and the percentage of losing punters remaining the same, how can this be? The truth is there is simply too much low grade racing taking place on a daily basis drawing punters in. The

type of racing that bookmakers love to promote as it throws up regular shock results therefore keeping their turnover and profits high. To art of becoming a successful bettor is being selective and to try to overlook a lot of this low grade racing and simply put your faith and money on the best most professional people in the game, who the professionals themselves trust to get the job done, a lesson learnt after unsuccessful betting coup highlighted this very fact and having our fingers burnt betting in a low grade handicap race when our horse was ridden by an apprentice jockey myself and fellow betting syndicate partners decided to devise a strategy to beat the bookies and now only follow the true professionals in this sport. We haven't looked back since, all of the information required to follow our strategy is explained in layman terms in this book and as a punter could be the best investment you will ever make

**Betting for a Living** - Nick Mordin 2002-09

*Bet to Win at the One Half Mile Harness Race Tracks* - Joseph Edward Brierly 2016-10-23

The author Dr. Joseph E. Brierly earned a Ph.D. in mathematics from the Wayne State University in 1975. As part of his graduate level mathematics program he took many advanced courses in the theory of probability and statistics. Later on in his professional career as a mathematician working for the US Army he mastered computer systems design. Interest in applying mathematics to games of chance followed naturally from his mathematics and computer skills. He spent his hobby time pursuing finding ways to optimize bets at harness race tracks and optimizing chances for winning a lottery. This book offers harness race fans an extensive statistical analysis of outcomes of harness races. Most everything impacting the outcome of a harness race is found some where in this book. Every important factor is statistically analyzed. For example, questions like what are the best and worst post-positions? What affect does ability of harness race drivers have? Many situations were investigated statistically to identify profitable bets. Three well-known 1/2 mile tracks were sampled for a complete season in order to compile a database of outcomes tied to their payoffs. In two previous books the author did a similar analysis of both 5/8th and one mile tracks. These books are still available and should complement this book dedicated to statistically analyzing 1/2 mile harness race tracks. At the heart of winning at the harness race track is having understanding that other bettors do not have. Any strategy could be profitable provided it is based on knowing and using statistically profitable betting situations not generally known by the other bettors. Horse race gamblers should keep in mind that every dollar bet at any racetrack automatically loses 20 to 35 percent before the race begins from house take and state tax. This makes it difficult to break even much less make a profit. Yet, the author found ways to make profit on his betting every year for well over 20 years. This could not have happened without using both quantitative and qualitative analysis based on an intricately designed simulation and expert system battery of programs. The book divulges many of the secrets employed by the author to make yearly profits betting at the harness races. The basic system designed by Dr. J. Brierly relies on simulating a race using accurate handicaps for major factors, such as, post position, driver skill, trainer skill, horse speed, past performance outcomes, class factors, historical data for each horse in the race, weather and climate conditions and to a degree what is called trip handicapping. Basically, the author simulates each race using handicaps for all of the factors impacting the outcome. The best entries are next subjected to qualitative analysis of statistics for non-quantifiable factors like recent scratches, breaks, type of driver, long layoffs, and much more. Many simulated picks are ruled out based on statistics for qualitative factors. Bets are made only on situations that show an overall statistical profit over a large sample. This book uses a method known as 'fuzzy sampling' not employed in the first two books. Fuzzy sampling allows one to do statistics on look-a-like samples. To illustrate suppose an entry picked to win by simulation has 10 identified qualitative traits. Ordinarily finding a sample with that many traits would result in a very small sample. Using fuzzy sampling one could look at all outcomes that have 9 of 10 of the traits, 8 of 10 of the traits, ...etc.. Surprisingly it is found that many look-alike samples enlarge the sample size dramatically and offer statistically valid profit-making situations. This innovation cannot be found any where in books on harness racing but here. This is truly the best book ever written on harness race betting. The other two previous books are of the same caliber but do not have fuzzy sampling.

**Top Mark Horse Racing System: Written by Professional Gambler Anthony Gibson** - Anthony Gibson 2019-03-20

This book describes clearly and precisely how top Horse racing Professional Gambler and Tipster Anthony Gibson processes some very basic information on a Daily basis to arrive at some solid betting propositions. Backing all of the selections this system has thrown up to date in a 14 month period you would have made over 400 points level stakes profit, if you want to take a more selective approach there is another method highlighted in the book that cuts selections down by over 60% yet only around 50% of the profit. But combining the two method has made over 620 points to date. The author also mentions another method highlighting what he calls his banker bets. If you have never placed a bet on horse racing this does not matter as no form study whatsoever is required. The system only works on UK racing and is a fascinating insight into how a professionals brain works. Banking and staking are also covered in this book alongside the backers mindset required to succeed in this field

*Horse Racing Betting Secret System* - M C Horrocks

Introduction I must thank you for buying my book and appreciate any comments on the system. I have inserted my email address at the end of the book. Plus feel free to email me if you have any questions or need any help. This horse racing system took me approximately 12 months to computer model and test primarily around UK handicap horse races. This would have not been possible without my 10 years database of horse form and my I.T. computer skills. Handicap horse racing fascinates me I find it a great puzzle to solve and love form variables like weight, official rating and many more. This horse racing system has four simple steps that find winners daily and I have outlined tips to get more profit. I like using this system for betting singles and doubles which are lethal and produce massive profits! In the book I have covered a horse race in extensive detail so that you understand the system and how to apply the horse racing system to each race quickly and thus finding winners easily.

#### **Horse Racing Betting Dutching System** - M C Horrocks

Introduction I have written many books around UK horse racing systems and this one I really enjoyed due to the simplicity of this horse racing dutching system and how easy it is to apply. The system uses the excellent free racing post website where you can obtain all the form data you need to use this system. Plus you do not have to be a form expert to understand it. You should aim at using Betfair to place your dutch bets due to the better prices and the ability to get even better prices pre-off the race. Understand the system before placing your horse dutching bets, I hope you enjoy it!

#### **Information Efficiency in Financial and Betting Markets** - Leighton Vaughan Williams 2005-09-29

The degree to which markets incorporate information is one of the most important questions facing economists today. This book provides a fascinating study of the existence and extent of information efficiency in financial markets, with a special focus on betting markets. Betting markets are selected for study because they incorporate features highly appropriate to a study of information efficiency, in particular the fact that each bet has a well-defined end point at which its value becomes certain. Using international examples, this book reviews and analyses the issue of information efficiency in both financial and betting markets. Part I is an extensive survey of the existing literature, while Part II presents a range of readings by leading academics. Insights gained from the book will interest students of financial economics, financial market analysts, mathematicians and statisticians, and all those with a special interest in finance or gambling.

#### Exotic Betting At The Racetrack - William T Ziemba 2018-12-21

Exotic Betting at the Racetrack is unique as it covers the efficient-inefficient strategy to price and find profitable racetrack bets, along with handicapping that provides actual bets made by the author on essentially all of the major wagers offered at US racetracks. The book starts with efficiency, accuracy of the win odds, arbitrage, and optimal betting strategies. Examples and actual bets are shown for various wagers including win, place and show, exacta, quinella, double, trifecta, superfecta, Pick 3, 4 and 6 and rainbow pick 5 and 6. There are discussions of major races including the Breeders' Cup, Pegasus, Dubai World Cup and the US Triple Crown from 2012-2018. Dosage analysis is also described and used. An additional feature concerns great horses such as the great mares Rachel Alexandra, Zenyatta, Goldikova, Treve, Beholder and Song Bird. There is a discussion of horse ownership and a tour through arguably the world's top trainer Frederico Tesio and his stables and horses in Italy. Related Link(s)

#### Efficiency of Racetrack Betting Markets - Donald B. Hausch 2008

A reprint of one of the classic volumes on racetrack efficiency, this book is the only one in its field that deals with the racetrack betting market in-depth, containing all the important historical papers on racetrack efficiency. As evidenced by the collection of articles, the understanding of racetrack betting is clearly drawn from, and has correspondingly returned something to, all the fields of psychology, economics, finance, statistics, mathematics and management science.

#### **More Sports and Horse Racing Betting Systems That Work!** - Ken Osterman 2018-03-07

This is a sequel to Ken Osterman's Sports and Horse Racing Betting Systems That Work!. As with Ken's first book, there are methods for handicapping both horse races and sports. In this book, he has an angle for handicapping each of the popular breeds of horse racing: thoroughbred, quarter horse and harness. With sports betting, he provides a profitable method for NHL hockey that focuses on road teams who are the underdogs, going off in the middle odds range. His other method involves a fascinating angle on college basketball. In fact, this method does not involve handicapping teams at all. You are handicapping the betting public, so you don't need to be an expert to use this system. There are plenty of examples that allow you to follow this method in step-by-step fashion. Here is the list of systems included in this book. Horse racing The Quarter Horse Speed Index Method The B6 Sprint System for Thoroughbreds The Quick Rating Method for Harness Racing Betting Favorites Using the Modified d'Alembert Betting Method Sports Betting The NHL Road Dog Method College Basketball The Betting Odds Analysis Method *The Most Powerful System Ever Devised for Thoroughbred Race Betting Plus 18 Spot Play Angles* - Ken Osterman 2021-09-06

In this book by sports and horse racing handicapper Ken Osterman, he focuses exclusively on thoroughbred handicapping, and has put down in writing the one system he uses at race books throughout Las Vegas, Nevada. He has given this method the audacious title of, "The Most Powerful System Ever Devised for Thoroughbred Race Betting." In many ways it is the most powerful method because it is based upon solid mathematics and statistics. It can also be applied at any track, at any distance, for winning horses, three year old and upward, carded at any track in the United States or Canada. This method can be used as a handicapping system all by itself, but what makes it even more attractive as a handicapping method is that it fits with other methods. You can use this method first, and then apply your favorite handicapping approach to the remainder of the field. Alternatively, you can do the opposite, and start with your handicapping approach. After finding what you believe to be the winner of the race, you can then apply this method to your choice. This will give your selection greater validity and strength, or it may give you a reality check by pointing out the weakness of your choice. Along with the title method, there are a wide range of spot plays (angles) in this book, covering claiming races, sprints, speed, turf, maiden races, two year old races, long shot methods, beaten favorites, and other categories. The following are the titles for each spot play in the book. The New Low Claiming Price Angle The B6 Sprint System for Thoroughbreds Bet the Fastest Horse The Route Speed Method Class on the Turf Three Strikes and You're Out - A Maiden Claiming Route Angle First Time Maiden Claiming The Speed and Earnings Method Best Jockey Two Race Declines A Beaten Favorite System Twice Beaten Favorites The Previous Odds Angle The Sleeper Horse The 4 1/2 Furlong Race System Tote Board Magic Tote Board Magic II Betting Favorites Using the Modified d'Alembert Betting Method

#### **UK Longshot Horse Racing System** - M C Horrocks 2021-05-06

I will make this bold statement straight away, "This book finds big priced winners in UK handicap horse races" easily and consistently! I need to make a very important statement here backing double figure priced horses can return some huge profits but you must remember they all do not win, more will lose races which is to be expected. There is a reason why the horse is such a big price it is mainly due to the fact the horse has not won for a long time. Another reason is that a horse could be out of its depth in other words running in a higher class of race. Most punters want winners every day at any odds this makes them feel good. They think they are making a profit, how wrong they are and the bookmakers take their money every day with a smile on their faces. Another mistake the average punter makes is that they will take current SP starting price of a horse and not look for a larger price. So say a horse is 2/1 that's decimal odds 3.0 on the Betfair betting exchange. They will readily take these odds. A more profitable approach is to take higher odds like decimal odds 3.5. Ok you might think there is not much difference between decimal odds 3.0 and 3.5 but it adds up over a year and that is where your profit is. The only way to profit in horse racing is to back horses at larger odds than what is being offered. The betting exchanges show the true odds of a horse just before the race starts. As these odds are derived from many punters and bookmakers who are using the betting exchanges then the price of the horse before the race starts is its true odds. This price is a consolidated view and it is normally correct and near the mark. This system also finds large priced horses that are placed 1st 2nd 3rd or 4th regularly in a horse race and these can be exploited in the Betfair place market at some

juicy odds. I have taken decimal odds of 7.0 on four places in a horse race and mopped up.

[Profitable Betting Systems for Horseracing](#) - Ricky Taylor 2008-12-01

Can you beat the bookies with a system? Ricky Taylor thinks you can and puts science and maths to work and comes up with some often startlingly profitable methods. His systems are not complex and he keeps things simple and bases his methods around fundamental form factors that most professional punters would agree are the key to picking winners. Profitable Betting Systems for Horseracing contains many novel and intriguing systems for both flat and jump racing, including those based around a horse's recent form and class. You will also discover why it pays to follow certain trainers in particular types of race, and why big profits can be earned by studying a horse's pedigree. Studying the betting market can be a profitable source of systems, and the book also details a number of methods that exploit weaknesses in other punter's reasoning - must reading for those who like to back and lay horses on the exchanges. And for those of you that like to bet horses at fancy prices, there are examples of the circumstances to look for when you can win big by betting long-shots. Profitable Betting Systems for Horseracing doesn't just spell out winning methods; it also explains how you can develop your own successful systems. So if you want to start betting profitably on systems then read this book first.

**Betting on Horse Racing For Dummies** - Richard Eng 2010-03-11

How to enjoy a day at the races-and bet to win! The last two years have seen a record number of Americans tune in for climatic Triple Crown races featuring Smarty Jones and Funny Cide; in 2004, television viewership jumped a whopping 61 percent over the record set in 2003, and the Belmont Stakes race itself drew a record crowd of more than 120,000! This easy-to-understand guide shows first-time visitors to the track how to enjoy the sport of horse racing-and make smart bets. It explains what goes on at the track, what to look for in horses and jockeys, how to read a racing form and do simple handicapping, and how to manage betting funds and make wagers that stand a good chance of paying off. Complete with coverage of off-track and online betting, it's just what anyone needs to play the ponies-and win! Richard Eng (Las Vegas, NV) is a racing writer and handicapper for the Las Vegas Review-Journal, a columnist for the Daily Racing Form, and the host of a horseracing radio program in Las Vegas. He was formerly a part of the ABC Sports team that covered the Triple Crown.

[Innovative Horse Race Handicapping](#) - Paul Lambrakis 2021-04-12

Former Santa Anita handicapper and author, Paul Lambrakis, offers up a fresh new approach to horse race analysis. Paul tells readers that in order to handicap more effectively and get better prices, they must eliminate the speed figures from their handicapping. According to Paul, who has been handicapping for over thirty-five years, the speed figures have never delivered on what they set out to do years ago. What they deliver is disappointment and short prices. Paul's method of horse race analysis is practical and straightforward. He tells you what areas of the past performances to focus on and what to look for. Paul will also reveal to you the one area of the PP's that most handicappers overlook. It is here where you will find

valuable clues to help you spot those higher-paying horses. Innovative Horse Race Handicapping is tailor-made for handicapping all the major US racetracks!

**Horse Racing Betting Secret System** - M. C. Horrocks 2020-12-13

IntroductionI must thank you for buying my book and appreciate any comments on the system. I have inserted my email address at the end of the book. Plus feel free to email me if you have any questions or need any help.This horse racing system took me approximately 12 months to computer model and test primarily around UK handicap horse races. This would have not been possible without my 10 years database of horse form and my I.T. computer skills.UK Handicap horse racing fascinates me I find it a great puzzle to solve and love form variables like weight, official rating and many more. This UK horse racing system has four simple steps that find winners daily and I have outlined tips to get more profit.I like using this system for betting singles and doubles which are lethal and produce massive profits!In the book I have covered a horse race in extensive detail so that you understand the system and how to apply the horse racing system to each race quickly and thus finding winners easily.I suggest that you make yourself familiar with each step of the system before you start placing bets. I have included 100's of horse racing result examples that the system produced for the flat and jumps season 2019/2020 so you can back check these results to ensure you understand it. In other words you can apply the system on these past results I have outlined using the racing post on the internet and my system. With this suggested approach you will become more confident when placing bets or trades on your selections.Note: Try to keep away from stupid Lucky15 bets and large ACCAs etc! These are silly bets for recreational punters who bet with bookmakers at cramped odds.I wrote this book to help fellow punters and traders to get an edge I hope you enjoy this one.

"I found the chapter on "How to bet them" to be great. It clearly showed me how I should be betting, and why buying tickets on favorites was a losing game." "And I can state unequivocally that his information does work, because I have used it now for several months, and made a profit using his 3 Angles." "Makes me money. I just use the 3 Angles the book shows. Not complicated at all, really." "Oh boy! A book on race betting that really works. I've got about a hundred books on that subject. This one, the "Vegas Pro's Best Racing Angles," beats them all. Good solid, useable information." "All the material in that book was written by someone who knows what he was talking about, and for me that makes "Vegas Pro's Best Racing Angles" a real winner." "When I went to the track before, or even online, I would bet every race. I thought, if you don't have a bet down you can't win. Great theory, but it just costed me a lot of green. So now I just follow the rules laid out in "Vegas Pro's Best Racing Angles" and not try to reinvent the wheel. It works. I'm definitely ahead since I have done that. "Vegas Pro's Best Racing Angles" is a good book which delivers what it says." Are you betting every race? Trying to grind out a living? That is way too much work and way too hard on the pocket book, not to mention the nerves. Follow these angles and consistently win. Focus on winning bets with good odds.
