Creatures of Politics -

Michael Lempert 2012-09-12

This analysis of campaign messaging and image-making is "a fascinating read and an illuminating look into the complex realm of political rhetoric" (Publishers Weekly). It's a common complaint that a presidential candidate's style matters more than substance and that the issues have been eclipsed by mass-media-fueled obsession with a candidate's every slip, gaffe, and peccadillo. This book explores political communication in American presidential politics, focusing on what insiders call "message." Message, Michael Lempert and Michael Silverstein argue, is not simply an individual's positions on the issues but the craft used to fashion the creature the public sees as the candidate. Lempert and Silverstein examine some

of the revelatory moments in debates, political ads, interviews, speeches, and talk shows to explain how these political creations come to have a life of their own. From the pandering “Flip-Flopper” to the self-reliant “Maverick,” the authors demonstrate how these figures are fashioned out of the verbal, gestural, sartorial, behavioral—as well as linguistic—matter that comprises political communication. “This book captures better than any other the way ‘messaging’ works . . . their lively account of the culture of presidential communication remains sensitive to both the comedy and the seriousness of its subject.” —Michael Warner, Yale University

Tasteful Color Combinations

- Naomi Kuno 2005

This book focuses on the relationship between 'feeling' and colour combination by introducing the diverse ways colour combinations are affected by the five senses. Consisting of 14 chapters of 'feeling', the text contains over 46 detailed 'emotions' with 455 tasteful colour combinations to match. A further 1,833 differing design tones also provide a better appreciation of the emotions, delicacy and harmony of colour combination. A colour in the memory or in the imaginative world becomes a clue to creativity'. An 'experiment' as such becomes a useful resource for everyday fashion or interior colour co-ordination. Co-ordinating the world recognized 20,000 colours chart with 1,160 imaginative words of emotions, all are data, based into SUTRA (FORMS INC. Planning and Development) as is shown Diagram A, for example, the

wide selection of tasteful colours which become available. Each tome in the colouring sample is carefully chosen to match the 'theme' of the colour, 'taste words', are also labelled according to theme. One characteristic feature of this new approach is the use of the dynamic sphere colour charts in conjunction with square patterns, which go to create the wider range of gradation and harmony in both colour and brightness. INTERNATIONAL

BESTSELLER* If you could go back, who would you want to meet? In a small back alley of Tokyo, there is a café that has been serving carefully brewed coffee for more than one hundred years. Local legend says that this shop offers something else besides coffee—the chance to travel back in time. Over the course of one summer, four customers visit the café in the hopes of making that journey. But time travel isn't so simple, and there are rules that must be followed. Tourism, Creativity and

Development - Greg Richards

2007-11-07

Destinations across the world are beginning to replace or supplement culture-led development strategies with creative development. This book critically analyzes the impact and effectiveness of creative strategies in tourism development and charts the emergence of 'creative tourism'. Why has 'creativity' become such an important aspect of development strategies and of tourism development in particular? Why is this happening now, apparently simultaneously, in so many destinations across the globe? What is the difference between cultural

tourism and creative tourism? These are among the important questions this book answers. It critically examines the developing relationship between tourism and creativity, the articulation of the 'creative turn' in tourism, and the impact this has on theoretical perspectives and practical approaches to tourism development. A wide range of examples from Europe, North America, Asia, Australia and Africa explore the interface between tourism and creativity including: creative spaces and places such as cultural and creative clusters and ethnic precincts; the role of the creative industries and entrepreneurs in the creation of experiences; creativity and rural areas; the 'creative class' and tourism; lifestyle, creativity and tourism and marketing creative tourism destinations. The relationship between individual and collective forms of creativity and the widely differing forms of modern tourism are also discussed. In the concluding section of the book the

contribution of creativity to tourism and to development strategies in general is assessed, and areas for future research are outlined. The diverse multidisciplinary contributions link theory and practice, and demonstrate the strengths and weaknesses of creativity as a tourism development strategy and marketing tool. It is the first exploration of the relationship between tourism and creativity and its consequences for tourism development in different parts of the world.

Pemanfaatan Limbah Kayu dalam Industri Kreatif Patung Kuda di Yogyakarta -
Devy Ika Nurjanah
Atmosfer seni dan budaya yang telah mengakar di masyarakat Yogyakarta secara tidak langsung mendorong pertumbuhan berbagai industri kerajinan. Tanpa disadari pelaku ekonomi kreatif menggunakan konsep eco design yang sebenarnya tujuan utamanya adalah mengurangi

biaya produksi, dengan menggunakan bahan limbah dan bahan alami agar lebih menguntungkan. Selain itu, produk yang mereka hasilkan bisa menjadi ciri khas daerah, sehingga sulit ditiru dan bisa bersaing di pasar luar negeri. Ecodesign adalah pendekatan desain produk dengan pertimbangan khusus mengenai pengaruh lingkungan selama keseluruhan proses siklus hidup. Ada tiga prinsip Ecodesign ini yaitu: reduce, reuse, recycle. Produk ramah lingkungan harus benar-benar ramah lingkungan dalam tiga fase kehidupan, yaitu: pertama fase lahir, ketika di produksi tidak meninggalkan limbah berbahaya untuk lingkungan. Kedua fase kehidupan, saat ia hidup tidak membahayakan lingkungan sekitar termasuk penggunaannya. Tahap ketiga saat mati, saat barang rusak/tidak bisa digunakan lagi, barang harus terurai atau tidak mencemari lingkungan sekitar. Kita juga harus mempertimbangkan siklus hidup produk agar tahan lama dan tidak mudah rusak,

sehingga bisa dikategorikan sebagai produk ramah lingkungan. Seperti pada patung limbah kayu ini, karena kayu yang digunakan sebagian besar merupakan limbah dari akar kayu jati, maka tingkat keawetannya tinggi. Semakin lama kayu jati bersifat semakin kuat.

The Creative Economy - John Howkins 2002-06-27

Britain makes more money from music than from its car industry. In the United States the core copyright industries achieved foreign sales and exports of \$60.18 billion - a figure which surpasses, for the first time, every other export sector, including automobiles, agriculture and aircraft. Howkins sets out to explore how we can harness creativity and the industry it sustains to our common interests. This book is not about information and the information society. It is about more basic matters, what we humans want and what we are good at.
