**Top 25 Celtic Session Tunes for Ukulele** - M. Ryan Taylor 2016-03-04  
I began listening to Celtic music in the early 90's when a friend introduced me to Fiona Ritchie's NPR radio program, The Thistle and Shamrock. I'd already become aware of some session tunes through the pennywhistle primer my father had given me in the 80's (when he was still a well, active musician and would play duets with me at family Christmas parties), but I had never before heard recordings of the masters of the whistle, fiddle, harp and uilleann pipes. Needless to say, it was a revelation. Shortly thereafter it seemed like the entire world was listening to the lilting jigs and high-stepping dance tunes in the wake of 1995's Riverdance phenomenon. I loved most everything I heard in that period, from the very traditional, but incredibly virtuosic playing of The Chieftains to the dreamy Celtic-inspired pop of Enya, to the amazing blend of the two extremes by artists like Loreena McKennitt. Fast forward to 2010s . . . Ever since I started writing and arranging for the ukulele I've been planning this book; one that combines my love of traditional Celtic music with my love of the reentrant ukulele (gCEA), which sounds fantastic on solo dance tunes played in the campanella-style (where you try to avoid playing two consecutive notes on the same string to give the sonic illusion of playing on a harp). I'd like to acknowledge Alistair Wood for introducing me to this style of playing as well as three other inspiring arrangers of Celtic tunes for uke: Jonathan Lewis, Rob MacKillop and Wilfried Welti (though I've avoided their books while working on this title to avoid any unintentional borrowing). If you love this style, please check out their work as well! How were the 'Top 25' Celtic session tunes chosen out of the thousands of tunes and variations that are available? Quite simply, I went to the top two sites for traditional tunes and chose to arrange the 25 most bookmarked tunes. Hardly scientific, but a good measure of tune popularity nonetheless. I hope you enjoy the results! Slainte mhaith (good health)! M. Ryan Taylor  
CONTENTS: There are no page numbers in this book. The contents are

listed in alphabetical order, as follows. Although there are no 'easy' tunes in this volume, 10 of the 'easier' tunes are marked with an asterisk. Banish Misfortune Banshee\* Blarney Pilgrim\* Boys of Bluehill Butterfly Conaughtman's Rambles Cooley's Drowsy Maggie Gravel Walks\* Harvest Home\* Jimmy Ward's\* Kesh Kid on the Mountain King of the Fairies Liltng Banshee\* Maid Behind the Bar Mason's Apron Morrison's\* Mountain Road Musical Priest\* Out on the Ocean Rights of Man Silver Spear Tam Lin\* Wind that Shakes the Barley\* NOTES: \* All of the tunes (except 'King of the Fairies') are arranged in the campanella-style. There are some places, however, where a repetition of a note on separate strings was not practical. \* Slur marks have been used in the staff notation to indicate places you may wish to use a hammer-on, pull-off or slide. \* A number of the arrangements go up to the 14th fret. I realize not all players have more than 12 frets, but I think enough do to warrant the inclusion. If your ukulele does not go above the 12th fret, experiment with taking these sections or phrases down an octave. \* Although there are no 'easy' tunes in this volume, 10 of the 'easier' tunes are marked with an asterisk on the contents page."

*20 Spanish Baroque Pieces by Gaspar Sanz Arranged for Uke* - ROB MACKILLOP 2015-10-13

Gaspar Sanz (1640 -1710) is the most famous baroque-period guitarist. His works are tuneful and memorable, with fiery cross-rhythms and cascading scale passages. He published three books of guitar music. The baroque guitar could be viewed as a close relative of the ukulele. Indeed, the two instruments have much in common. The smaller four-course guitar actually had the same tuning as the ukulele, for example, although it was largely double-strung. Sanz enjoyed playing scales in the campanella style, with the notes of a scale set out on different strings, sonically overlapping slightly in the style of little bells. This is a

technique the ukulele excels at, and is used to good effect in these arrangements. Sanz' music for baroque guitar transfers exceptionally well to the uke, as these arrangements demonstrate. It is hoped that this repertoire will bring a refreshing addition to the repertoire of the ukulele, just as the little instrument can bring a freshness to these old but lively pieces.

There are studies in arpeggios, scales, modes, ii-V-I chord sequences, strumming, syncopation, campanella fingerings, improvisation, hammer-ons, and pull-offs. Some of the studies concentrate on the left hand, some on the right hand, some on both. Possibly the most comprehensive set of studies currently available for
