**Odes** - Sharon Olds 2016-09-08

'Interspersed with acts of breathtaking linguistic daring.' Charlotte Mendelson, Observer Book of the Year Opening with a powerful and tender 'Ode to the Hymen', Sharon Olds uses this age-old poetic form to address many aspects of herself, in a collection that is centred around the female body and female pleasures, and touches along the way on parts of her own story which will be familiar from earlier works, each episode and memory now burnished by the wisdom and grace of looking back. In such poems as 'Ode to My Sister', 'Ode of Broken Loyalty', 'Ode to My Whiteness', 'Blow Job Ode', 'Ode to the Last 38 Trees in New York City Visible from This Window', Olds treats us to an intimate self-examination that, like all her work, is universal and by turns searing and charming in its honesty. From the early bodily joys and sorrows of her girlhood to the recent deaths of those dearest to her - the 'Sheffield Mountain Ode' for Galway Kinnell is one of the most stunning pieces here - Olds shapes her world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

**Ottolenghi Test Kitchen: Shelf Love** - Yotam Ottolenghi 2021-09-30

Relaxed, flexible home cooking from Yotam Ottolenghi and his superteam. Whether they're conjuring up new recipes or cooking for themselves at home, the Ottolenghi Test Kitchen team do what we all do: they raid their kitchens. But then, they turn whatever they find into approachable creations with an 'Ottolenghi' twist. This instinct is in perfect sync with recent times, when we've all been standing in front of our kitchen shelves, our cupboards and our fridges, wondering what to cook with what we've got; how to put a can of chickpeas or a bag of frozen peas to good use, instead of taking an extra trip to the shops. For the first time, the team welcome us into their creative space. These dishes pack all the punch and edge we expect from Ottolenghi, but offer more flexibility to make them our own, using what we've got to hand. There's the ultimate guide to creamy dreamy hummus, a one-pan route to confit tandoori chickpeas and a tomato salad that rules them all. This book is all about feeding ourselves and our families with less stress and less fuss, but with all the 'wow' of an Ottolenghi meal. It's a notebook to scribble on and add to, to take its ethos and absolutely make it your own. This is how to cook, the OTK way.

**Art Worlds, 25th Anniversary Edition** - Howard S. Becker 2008-04-08

This classic sociological examination of art as collective action explores the cooperative network of suppliers, performers, dealers, critics, and consumers who—along with the artist—"produce" a work of art. Howard S. Becker looks at the conventions essential to this operation and, prospectively, at the extent to which art is shaped by this collective

activity. The book is thoroughly illustrated and updated with a new dialogue between Becker and eminent French sociologist Alain Pessin about the extended social system in which art is created, and with a new preface in which the author talks about his own process in creating this influential work.

Absorption and Theatricality - Michael Fried 1988-09-15

With this widely acclaimed work, Michael Fried revised the way in which eighteenth-century French painting and criticism are viewed and understood. Analyzing paintings produced between 1753 and 1781 and the comments of a number of critics who wrote about them, especially Dennis Diderot, Fried discovers a new emphasis in the art of the time, based not on subject matter or style but on values and effects.

Clear and Simple as the Truth - Francis-Noël Thomas 2017-03-14

Everyone talks about style, but no one explains it. The authors of this book do; and in doing so, they provoke the reader to consider style, not as an elegant accessory of effective prose, but as its very heart. At a time when writing skills have virtually disappeared, what can be done? If only people learned the principles of verbal correctness, the essential rules, wouldn't good prose simply fall into place? Thomas and Turner say no. Attending to rules of grammar, sense, and sentence structure will no more lead to effective prose than knowing the mechanics of a golf swing will lead to a hole-in-one. Furthermore, ten-step programs to better writing exacerbate the problem by failing to recognize, as Thomas and Turner point out, that there are many styles with different standards. In the first half of Clear and Simple, the authors introduce a range of styles--reflexive, practical, plain, contemplative, romantic, prophetic, and others--contrasting them to classic style. Its principles are simple: The writer adopts the pose that the motive is truth, the purpose is presentation, the reader is an intellectual equal, and the occasion is informal. Classic style is at home in everything from business memos to personal letters, from magazine articles to university writing. The second half of the book is a tour of examples--the exquisite and the execrable--showing what has worked and what hasn't. Classic prose is found everywhere: from Thomas Jefferson to Junichirō Tanizaki, from Mark Twain to the observations of an undergraduate. Here are many fine

performances in classic style, each clear and simple as the truth. Originally published in 1994. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. Colouring Textiles - A. Nieto-Galan 2013-04-17

Colouring Textiles is an attempt to provide a new cross-cultural comparative approach to the art of dyeing and printing with natural dyestuffs in the eighteenth and nineteenth centuries. Divided into thematic chapters, it uncovers new data from the vast historical heritage of natural dyestuffs from a range of European cities, to present new historiographic insights for the understanding of this technology.

Through a sort of anatomic dissection, the book explores the study and cultivation of dye-plants in botanical gardens and plantations, and the tacit values hidden in dyeing workshops, factories, laboratories, or national and international exhibitions. It metaphorically submits the natural dyestuffs of the eighteenth and nineteenth centuries to a series of systematic historical tests, and traces back the circulation of those sources of colours through colonial spaces, dye works, cross-cultural networks, schools of artistic design, and science-based industries for the making of synthetic colorants. Colouring Textiles contributes to a better understanding of the role of natural dyestuffs in the processes of industrialization in Western Europe. Audience: Historians of science and technology, historians of chemistry, philosophers, economic historians, professional chemists, arts and crafts historians, and cultural anthropologists.

The French Art of War - Alexis Jenni 2017-04-27

It was the beginning of the Gulf War. I watched it on TV and did little else. I was doing badly, you see. Everything was going wrong. I just awaited the end. But then I met Victorien Salagnon, a veteran of the great colonial wars of Indochina, Vietnam and Algeria, a commander who had led his soldiers across the globe, a man with the blood of others up to his elbows. He said he would teach me to paint; he must have been the only painter in the French Forces, but out there no one cares about such things. I cared, though. In return, he wanted me to write his life story. And so he talked, and I wrote, and through him I witnessed the rivers of

blood that cut channels through France, I saw the deaths that were as numberless as they were senseless and I began finally to understand the French art of war.
