Four interlocking narratives unfurl in four American cities, creating a richly comic feast about love, academia, an elusive Tibetan novelist who might be a plagiarist, and SOFA, a protest group so mysterious its very initials are open to interpretation. Bad Teeth follows a cast of young literary men and women in four very American cities—Brooklyn, Bloomington, Berkeley, and Bakersfield. It's four (or more) books in one, a Pynchonesque treat: a bohemian satire, a campus comedy, a stoner's reverie, and a quadruple love story. Its wonderfully evoked storylines of young writers—each in a period of formation—collect around the search for one mysterious author—"the Tibetan David Foster Wallace," who might in fact be a plagiarist. This delightful and complex literary novel is a comic gem.

The Semantic Web - Yong-jiang Yu 2009-12-15

The Annual Asian Semantic Web Conference is one of the largest regional events in Asia with focused topics related to the Semantic Web. With the decade-round endeavor of Semantic Web believers, researchers and practitioners, the Semantic Web has made remarkable progress recently. It has raised significant attention from US and UK governments, as well as the European Commission who are willing to deploy Semantic Web technologies to enhance the transparency of eGovernment. The Linked Open Data initiative is on its way to convert the current document Web into a data Web and to further enabling various data and service mashups. The fast adoption of Semantic Web technologies in medical and life sciences has created impressive showcases to the world. All these efforts are a crucial step toward enabling the take-off and the success of the Semantic Web. The First Asian Semantic Web Conference was successfully held in China in 2006. With the following editions in Korea in 2007 and Thailand in 2008, it fostered a regional forum for connecting researchers and triggering innovations. This year, the 4th Asian Semantic Web Conference was held in Shanghai, China. We received 63 submissions from Asia, Europe, and North America, and 25 papers were accepted (the acceptance rate is around 40%). Each submission was reviewed by at least three members of the Program Committee. The Chairs moderated the discussion of conflict reviews or invited external reviewers to reach the final decisions.
