*The Magic of a Name: The
Rolls-Royce Story, Part 2* -
Peter Pugh 2015-04-02
The Magic of a Name tells the

story of the first 40 years of
Britain's most prestigious
manufacturer - Rolls-Royce.
Beginning with the historic
meeting in 1904 of Henry
Royce and the Honourable C.S.
Rolls, and the birth in 1906 of
the legendary Silver Ghost,
Peter Pugh tells a story of
genius, skill, hard work and
dedication which gave the
world cars and aero engines
unrivalled in their excellence.
In 1915, 100 years ago, the
pair produced their first aero
engine, the Eagle which along
with the Hawk, Falcon and
Condor proved themselves in
battle in the First World War.
In the Second the totemic
Merlin was installed in the
Spitfire and built in a race
against time in 1940 to help
win the Battle of Britain. With
unrivalled access to the
company's archives, Peter
Pugh's history is a unique
portrait of both an iconic name
and of British industry at its
best.

Queen of Speed - Nancy R. Wilson 2012

A first-ever biography of early twentieth century British speed demon Mary Petre Bruce, who careened through life full-tilt in determined pursuit of adventure and wealth. From a comfortable childhood in Victorian England to the finish line in the Monte Carlo Rally--from convent schools to a crash-landing beside the shark-infested waters of the Persian Gulf --- this twentieth-century queen of speed allowed nothing to stand in the way of realizing her dreams. She carried on a long love affair with a wealthy married man many years her senior. His financial support for Mary and their son assured a comfortable life for her, and allowed her to indulge her love of speed and auto racing. It was in the world of auto racing that she met her future

husband, the Honourable Victor Austin Bruce. A fearless and determined competitor, she set records and won prizes for speed and endurance in automobiles and speedboats; at least one of her records still stands. In 1930, with very little experience as a pilot, she bought a tiny biplane and hatched a plan to fly it around the world--alone. Within weeks she took off, and returned in triumph five months later. Her record-setting flight was the first solo circumnavigation by a woman. She never lost her hunger for speed and adventure. When she was 78, she test-drove a Ford race car at 110 mph. At the age of 81, she publicized the release of her autobiography by looping the loop in a small plane. Her racing days over at last, she finally ran out of her own personal fuel, adrenaline. She died in 1990, at the age of 94. Her autobiography was titled 'Nine Lives Plus'; she lived every one of them to the fullest.
