

E Marketing Judy Strauss Raymond Frost Gbv

Yeah, reviewing a ebook **E Marketing Judy Strauss Raymond Frost Gbv** could increase your near associates listings. This is just one of the solutions for you to be successful. As understood, exploit does not suggest that you have astounding points.

Comprehending as capably as harmony even more than extra will allow each success. next to, the message as competently as acuteness of this E Marketing Judy Strauss Raymond Frost Gbv can be taken as without difficulty as picked to act.

The Good Society - Alan Draper 2015-01-07

NOTE: You are purchasing a standalone product; MyPoliSciLab® does not come packaged with this content. If you would like to purchase both the physical text and MyPoliSciLab search for 0134113934 / 9780134113937 The Good Society: An Introduction to Comparative Politics plus MyPoliSciLab for Comparative Politics - Access Card Package, 3/e, which includes: 0133974855 / 9780133974850 The Good Society: An Introduction to Comparative Politics, 3/e 0134064054 / 9780134064055 MyPoliSciLab for Comparative Politics Access Card MyPoliSciLab should only be purchased when required by an instructor. For courses in Introduction to Comparative Politics Examine the Elements of a "Good Society" The Good Society: An Introduction to Comparative Politics takes a comprehensive look at the question: Why are some governments better than others? Exploring issues related to why certain political institutions provide a better quality of life for their citizens, readers can learn not only how different political systems work, but how they can work better. Redefining the common case-study and thematic approaches used in other courses on the subject, The Good Society approaches comparative politics in a relevant and meaningful way that helps readers understand the way different governments function. Also available with MyPoliSciLab MyPoliSciLab for Comparative Politics courses extends learning online, engaging students and improving results. Media resources with assignments bring concepts to life, and offer students opportunities to practice applying what they've learned. And the Writing Space helps educators develop and assess concept mastery and critical thinking through writing, quickly and easily. Please note: this version of MyPoliSciLab does not include an eText. The Good Society: An Introduction to Comparative Politics, Third Edition is also available via REVEL™, an immersive learning experience designed for the way today's students read, think, and learn.

Native Speaker - Chang-rae Lee 2013-05-07

Representing the letter "L" in a series of twenty-six collectible editions, this award-winning novel describes the isolation felt by industrial spy Henry Park, a first-generation Korean American, who doesn't feel thoroughly at home in either culture anymore.

ICRP Publication 75 - ICRP, 1997-12-01

ICRP Publication 75 reports comprehensively on the principles for the protection of workers from ionising radiation. It develops guidance on the implementation of the principles in the 1990 Recommendations of the ICRP (ICRP Publication 60), including the concepts of constraint and reference levels. The report discusses the management of occupational exposure in normal and emergency situations, in Industrial and medical contexts, and with respect to natural sources of radiation, including radon, at work. Health surveillance of workers and the management of overexposed individuals are considered. This report updates ICRP Publication 28 with respect to principles and procedures for handling emergency and accidental exposures of workers, and, by laying out the principles of monitoring for external radiation, completely replaces ICRP Publication 35. Monitoring for radionuclide contamination is also discussed. The report should also be of interest to a wide readership including all those responsible for occupational health, at operational and managerial levels, as well as regulatory bodies and professional organisations.

Training Counsellors - Sue Wheeler 1996

Shows how competence can be assessed in counsellor training, offering material for counselling trainers to promote good practice in the profession. The text forms a summary of available research on counsellor

competence and assessment, and gives examples o

The Convention on Cluster Munitions - Gro Nystuen 2010-10-21

This is a commentary on the legislation around the use of cluster munitions in warfare.--

S-Ar - 2021-07-13

Celebrating Mexican architecture studio S-AR's trailblazing designs Mexican architecture studio S-AR is celebrated for its experimental buildings in both private and public sectors. This book brings together key works created during the studio's first 15 years, with drawings, plans and photographs.

Student Power, Democracy and Revolution in the Sixties - Nick Licata 2021-08-25

This book uses humour and personal insight to weave tales, analysis, and history in this insider account of an enlightened populist student movement. The students involved took their citizenship seriously by asking the authorities who they were benefiting and who they were ignoring. They altered the prevailing culture by asking, "why not do something different"? Unlike other books on the Sixties, this book shows how predominantly working middle-class white students in a very conservative region initiated radical changes. They ushered in a new era of protecting women and minorities from discriminatory practices. This vivid account of bringing conservative students around to support social justice projects illustrates how step-by-step democratic change results in reshaping a nation's character. Across the globe, students are seeking change. In the US, over 80 percent believe they have the power to change the country, and 60 percent think they're part of that movement. This book's portrayal of such efforts in the Sixties will inspire and guide those students.

Marijuana Grower's Guide - Mel Frank 1996-01

Provides information on the history, botany, and cultivation of marijuana.

Companion to Feminist Studies - Nancy A. Naples 2020-11-24

A comprehensive overview of feminist scholarship edited by an internationally recognized and leading figure in the field *Companion to Feminist Studies* provides a broad overview of the rich history and the multitude of approaches, theories, concepts, and debates central to this dynamic interdisciplinary field. Comprehensive yet accessible, this edited volume offers expert insights from contributors of diverse academic, national, and activist backgrounds—discussing contemporary research and themes while offering international, postcolonial, and intersectional perspectives on social, political, cultural, and economic institutions, social media, social justice movements, everyday discourse, and more. Organized around three different dimensions of Feminist Studies, the *Companion* begins by exploring ten theoretical frameworks, including feminist epistemologies examining Marxist and Socialist Feminism, the activism of radical feminists, the contributions of Black feminist thought, and interrelated approaches to the fluidity of gender and sexuality. The second section focuses on methodologies and analytical frameworks developed by feminist scholars, including empiricists, economists, ethnographers, cultural analysts, and historiographers. The volume concludes with detailed discussion of the many ways in which pedagogy, political ecology, social justice, globalization, and other areas within Feminist Studies are shaped by feminism in practice. A major contribution to scholarship on both the theoretical foundations and contemporary debates in the field, this volume: Provides an international and interdisciplinary range of the essays of high relevance to scholars, students, and practitioners alike Examines various historical and modern approaches to the analysis of gender and sexual differences Addresses timely issues such as the difference between radical

and cultural feminism, the lack of women working as scientists in academia and other research positions, and how activism continues to reformulate feminist approaches Draws insight from the positionality of postcolonial, comparative and transnational feminists Explores how gender, class, and race intersect to shape women's e

Gynecologic Health Care: With an Introduction to Prenatal and Postpartum Care - Kerri Durnell Schuiling 2020-09-01

Gynecologic Health Care: With an Introduction to Prenatal and Postpartum Care continues to set the standard for evidence-based gynecologic health care and well-being in an extensively updated fourth edition. As in prior editions, the text presents gynecologic health care using a holistic and person-centered approach. Encompassing both health promotion and management of gynecologic conditions, it provides clinicians and students with a strong foundation in gynecologic care and the knowledge necessary to apply it in clinical practice. With an emphasis on the importance of respecting the normalcy of physiology, it is an essential reference for all midwives, nurse practitioners, physician assistants, and other clinicians who provide gynecologic health care.

Activist Faith - Carol Ann Drogus 2010-11-01

&"An extensive and powerful literature on religion, society, and politics in Latin America in recent years has begun with the assumption that most of the movements that surged in the struggle against military rule are dead, that most of the activists are scattered and burned out, and that the promise of civil society as a source of new values and a new kind of citizenship and political life was illusory. Many have assumed that the religiously inspired activism of that period left little lasting impact, but hardly anyone has actually looked at the activists themselves to see what remains, how they cope in a different, more open environment, and how they see and act on the present and future. Activist Faith addresses these issues with a wealth of empirical detail from two key cases and with a richly interdisciplinary argument that draws on theorizing about social movements. The authors strive to understand what sustains activism and movements in radically different circumstances from those in which they arose. Their analysis is enriched by systematic attention to the impact of gender and gender-related issues on activism and movements. In the process, they shed much needed light on the fate of the activists and social movements that rose to prominence throughout Latin America during the 1980s. This beautifully written book is a major achievement that gives us analytical tools for studying how movements and activists survive in the doldrums and when a cycle of protest peaks and societies move on.&"&—Daniel H. Levine, University of Michigan

The Vanishing Physician-Scientist? - Andrew I. Schafer 2011-06-15

Throughout history, physicians have played a vital role in medical discovery. These physician-scientists devote the majority of their professional effort to seeking new knowledge about health and disease through research and represent the entire continuum of biomedical investigation. They bring a unique perspective to their work and often base their scientific questions on the experience of caring for patients. Physician-scientists also effectively communicate between researchers in the "pure sciences" and practicing health care providers. Yet there has been growing concern in recent decades that, due to complex changes, physician-scientists are vanishing from the scene. In this book, leading physician-scientists and academic physicians examine the problem from a variety of perspectives: historical, demographic, scientific, cultural, sociological, and economic. They make valuable recommendations that—if heeded—should preserve and revitalize the community of physician-scientists as the profession continues to evolve and boundaries between doctors and researchers shift.

Anthropology of Policy - Cris Shore 2003-12-16

Arguing that policy has become an increasingly central concept and instrument in the organisation of contemporary societies and that it now impinges on all areas of life so that it is virtually impossible to ignore or escape its influence, this book argues that the study of policy leads straight into issues at the heart of anthropology.

Companion to Women's and Gender Studies - Nancy A. Naples 2020-03-26

A comprehensive overview of the interdisciplinary field of Women's and Gender Studies, featuring original contributions from leading experts from around the world The Companion to Women's and Gender Studies

is a comprehensive resource for students and scholars alike, exploring the central concepts, theories, themes, debates, and events in this dynamic field. Contributions from leading scholars and researchers cover a wide range of topics while providing diverse international, postcolonial, intersectional, and interdisciplinary insights. In-depth yet accessible chapters discuss the social construction and reproduction of gender and inequalities in various cultural, social-economic, and political contexts. Thematically-organized chapters explore the development of Women's and Gender Studies as an academic discipline, changes in the field, research directions, and significant scholarship in specific, interrelated disciplines such as science, health, psychology, and economics. Original essays offer fresh perspectives on the mechanisms by which gender intersects with other systems of power and privilege, the relation of androcentric approaches to science and gender bias in research, how feminist activists use media to challenge misrepresentations and inequalities, disparity between men and women in the labor market, how social movements continue to change Women's and Gender Studies, and more. Filling a significant gap in contemporary literature in the field, this volume: Features a broad interdisciplinary and international range of essays Engages with both individual and collective approaches to agency and resistance Addresses topics of intense current interest and debate such as transgender movements, gender-based violence, and gender discrimination policy Includes an overview of shifts in naming, theoretical approaches, and central topics in contemporary Women's and Gender Studies Companion to Women's and Gender Studies is an ideal text for instructors teaching courses in gender, sexuality, and feminist studies, or related disciplines such as psychology, history, education, political science, sociology, and cultural studies, as well as practitioners and policy makers working on issues related to gender and sexuality.

Organizational Telephone Directory - United States. Department of Health and Human Services 1999

Maya Lin - Maya Ying Lin 2006-01-01

One of the most celebrated artists working in the US, Maya Lin came to prominence in 1981 with her design for the Vietnam Veterans Memorial. The book traces her continued fascination with geologic phenomena and topography, integrating natural contours and materials into evocative landscape sculptures.

Discussing Women's Empowerment - Naila Kabeer 2001

The Siegel - Michael Mitnick 2018-06-18

Ethan Siegel is in love. Tonight he's going to ask Alice's parents for permission to marry her. There's just one hitch. Ethan and Alice broke up two years ago—and she's in a serious relationship with someone else. But Ethan is undaunted. An irresistible comedy about modern love and the need to go back in order to move forward.

Poke the Tiger - Jeffrey Michael Bays 2017-10-01

Suspense with a Camera brings the secrets of suspense out of the shadows. Written for screenwriters and directors by a leading expert on Hitchcock techniques, you'll have fresh insights on crafting suspense. These ideas have never been published before and share revelations that go far beyond the cliché knives, corpses, and blondes that many associate with Hitchcock. Suspense is such a basic part of storytelling it can even be used in romantic comedy!How did Hitchcock manipulate his audience into a state of frenzy? Hitchcock scholar Jeffrey Michael Bays has made this question his life's mission, and is here to share his top tips for escalating suspense and leaving your audience begging for more. Ideal for filmmakers of all kinds, these tips will enhance everyone's creative works -- shorts, web series, TV episodes, and features.

A History of Anthropology - Thomas Hylland Eriksen 2001-10-20

This is the first book to cover the entire history of social and cultural anthropology in a single volume. Beginning with a summary of the discipline in the nineteenth century, exploring major figures such as Morgan and Tylor, it goes on to provide a comprehensive overview of the discipline in the twentieth century. The bulk of the book is devoted to themes and controversies characteristic of post First World War anthropology, from structural functionalism via structuralism to hermeneutics, cultural ecology, discourse analysis and, most recently, globalization and postmodernism. The authors emphasise throughout the need to see changes in the discipline in a wider social, political and intellectual context. This is a timely, concise

history of a major discipline, in an engaging and thought-provoking narrative, that will appeal to students of anthropology worldwide.

Trump's Democrats - Stephanie Muravchik 2020-09-29

Why did hundreds of Democratic strongholds break for Donald Trump in 2016 and stay loyal to him in 2020? Looking for answers, Muravchik and Shields lived in three such “flipped” communities. There they discovered a political culture that was Trumpy long before the 45th president arrived on the national political scene. In these places, dominated by the white working-class, some of the most beloved and longest-serving Democratic leaders are themselves Trumpian—grandiose, combative, thin-skinned, and nepotistic. Indifferent to ideology, they promise to take care of “their people” by cutting deals—and corners if needed. Stressing loyalty, they often turn to family to fill critical political roles. Trump, resembling these old-style Democratic bosses, strikes a familiar and appealing figure in these communities. Although voters in “flipped” communities have often been portrayed as white supremacists, Muravchik and Shields find that their primary political allegiances are to place—not race. They will spend an extra dollar to patronize local businesses, and they think local jobs should go to their neighbors, not “foreigners” from neighboring counties—who are just as likely to be white and native-born. Unlike the Proud Boys, they take more pride in their local communities than in their skin color. Trump successfully courted these Democrats by promising to revitalize their struggling hometowns. Because these communities largely stuck with Trump in 2020, Biden won the presidency by just the thinnest of margins. Whether they will continue to support a Republican Party without Trump—or swing back to the Democrats—depends in part on which party can satisfy these locally grown political tastes and values. The party that does that will enjoy a stranglehold in national elections for years to come.

The Oil Conquest of the World - Frederick A. Talbot 2008-11-20

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

African Theatre - Martin Banham 2002

The contributions to this volume in the African Theatre series make clear that the role of women in the theatre across the continent has changed as control is mainly held by literate elites and women's traditional standing has been lost to men.

An Anthropology of Anthropology - Robert Borofsky 2019-03-21

The book uses anthropological methods and insights to study the practice of anthropology. It calls for a paradigm shift, away from the publication treadmill, toward a more profile-raising paradigm that focuses on addressing a broad array of social concerns in meaningful ways.

Love Online - Jean-Claude Kaufmann 2012-03-05

A study of the relationship between the internet and relationships that investigates whether we can ever really combine sex and feelings, instant gratification and enduring commitment, using the example of one-night stands arranged via online dating sites.

The Routledge Handbook of Anthropology and Reproduction - Sallie Han 2021-11-09

The Routledge Handbook of Anthropology and Reproduction is a comprehensive overview of the topics, approaches, and trajectories in the anthropological study of human reproduction. The book brings together work from across the discipline of anthropology, with contributions by established and emerging scholars in archaeological, biological, linguistic, and sociocultural anthropology. Across these areas of research, consideration is given to the contexts, conditions, and contingencies that mark and shape the experiences of reproduction as always gendered, classed, and racialized. Over 39 chapters, a diverse range of international scholars cover topics including: Reproductive governance, stratification, justice, and freedom. Fertility and infertility. Technologies and imaginations. Queering reproduction. Pregnancy, childbirth, and reproductive loss. Postpartum and infant care. Care, kinship, and alloparenting. This is a valuable reference for scholars and upper-level students in anthropology and related disciplines associated with reproduction, including sociology, gender studies, science and technology studies, human development and family studies, global health, public health, medicine, medical humanities, and midwifery and nursing.

Muslim Women Are Everything - Seema Yasmin 2020-06-09

Winner of the 2021 International Book Awards Winner of American Book Fest's 2020 Best Book Awards in Women's Issues A full-color illustrated collection of riveting, inspiring, and stereotype-shattering stories that reveal the beauty, diversity, and strength of Muslim women both past and present. Tired of seeing Muslim women portrayed as weak, sheltered, and limited, journalist Seema Yasmin reframes how the world sees them, to reveal everything they CAN do and the incredible, stereotype-shattering ways they are doing it. Featuring 40 full-color illustrations by illustrator Fahmida Azim throughout, *Muslim Women Are Everything* is a celebration of the ways in which past and present Muslim women from around the world are singing, dancing, reading, writing, laughing, experimenting, driving, and rocking their way into the history books. Forget subservient, oppressed damsels—say hello to women who are breaking down barriers using their art, their voices, and their activism, including: Tesnim Sayar from Denmark, a Muslim goth-punk who wears a red tartan mohawk on top of her hijab American superstar singer SZA Nura Afia, CoverGirl's first hijabi ambassador Ilhan Omar and Rashida Tlaib, America's first Muslim congresswomen Ilyana Insyirah, a hijab-wearing scuba-diving midwife from Australia Showcasing women who defy categorization, *Muslim Women Are Everything* proves that to be Muslim and a woman is to be many things: strong, vulnerable, trans, disabled, funny, entrepreneurial, burqa or bikini clad, and so much more.

Medicine Between Science and Religion - Vincanne Adams 2010-12-01

There is a growing interest in studies that document the relationship between science and medicine - as ideas, practices, technologies and outcomes - across cultural, national, geographic terrain. Tibetan medicine is not only known as a scholarly medical tradition among other Asian medical systems, with many centuries of technological, clinical, and pharmacological innovation; it also survives today as a complex medical resource across many Asian nations - from India and Bhutan to Mongolia, Tibet (TAR) and China, Buryatia - as well as in Western Europe and the Americas. The contributions to this volume explore, in equal measure, the impacts of western science and biomedicine on Tibetan grounds - i.e., among Tibetans across China, the Himalaya and exile communities as well as in relation to globalized Tibetan medicine - and the ways that local practices change how such “science” gets done, and how this continually hybridized medical knowledge is transmitted and put into practice. As such, this volume contributes to explorations into the bi-directional flows of medical knowledge and practice.

From Motherhood to Mothering - Andrea O'Reilly 2012-02-01

Explores how Rich's work has influenced feminist scholarship on motherhood.

Cold War Anthropology - David H. Price 2016-04-01

In *Cold War Anthropology*, David H. Price offers a provocative account of the profound influence that the American security state has had on the field of anthropology since the Second World War. Using a wealth of information unearthed in CIA, FBI, and military records, he maps out the intricate connections between academia and the intelligence community and the strategic use of anthropological research to further the goals of the American military complex. The rise of area studies programs, funded both openly and covertly by government agencies, encouraged anthropologists to produce work that had intellectual value within the field while also shaping global counterinsurgency and development programs that furthered America's Cold War objectives. Ultimately, the moral issues raised by these activities prompted the American Anthropological Association to establish its first ethics code. Price concludes by comparing Cold War-era anthropology to the anthropological expertise deployed by the military in the post-9/11 era.

Travellers, Gypsies, Roma - Jean Ryan Hakizimana 2009-10-02

This volume hopes to act as a catalyst for some new and exciting areas of enquiry in the more “liminal” interstices of Irish Studies, Traveller Studies, Romani Studies and Diaspora and Migration Studies. These disciplines are all relatively new areas of enquiry in modern Ireland, a country whose society has witnessed very rapid and wide-ranging cultural and demographic change within the short space of a decade. The issue of multiculturalism is not one which is particularly new to Irish society as a number of contributors to this volume point out. What is new however is an increased acknowledgement of diversity and multiculturalism in Ireland and Europe as a whole. Such an acknowledgement makes increased dialogue between “mainstream” society, older minorities such as the Irish Travellers and the many newer immigrant communities such as the Roma all the more necessary. For such constructive dialogue to take place it is vital that migratory peoples and their particular expressions of postcolonial identity be voiced and valued.

These identities are both complex and diverse and frequently straddle a number of countries and national identities. It is hoped that this volume will go some way towards the cultivation of such dialogue.

Women's Gynecologic Health - Kerri Durnell Schuiling 2016-07-29

Women's Gynecologic Health, Third Edition is a trusted, comprehensive, and evidence-based text that presents women's gynecologic health from a woman-centered and holistic viewpoint. Encompassing both health promotion and management of gynecologic conditions, it provides clinicians and students with a strong foundation in gynecologic care and the knowledge necessary to apply it in clinical practice. With an emphasis on the importance of respecting the normalcy of female physiology, it is an essential reference for all women's healthcare providers. The Third Edition includes four new chapters on prenatal and postpartum care, including anatomy and physiologic adaptations of normal pregnancy, diagnosis of pregnancy and overview of prenatal care, common complications of pregnancy, and postpartum care.

From Where We Stand - Cynthia Cockburn 2013-07-04

This original study examines women's activism against war in areas as far apart as Sierra Leone, India, Colombia and Palestine. It shows women on different sides of conflicts in the former Yugoslavia and Israel addressing racism and refusing enmity and describes international networks of women opposing US and Western European militarism and the so-called 'war on terror'. These movements, though diverse, are generating an antimilitarist feminism that challenges how war and militarism are understood, both in academic studies and the mainstream anti-war movement. Gender, particularly the form taken by masculinity in a violent sex/gender system, is inseparably linked to economic and ethno-national factors in the perpetuation of war.

Video Game Influences on Aggression, Cognition, and Attention - Christopher J. Ferguson 2018-08-21

This book addresses the ongoing scientific debates regarding video games and their effects on players. The book features opposing perspectives and offers point and counterpoint exchanges in which researchers on both sides of a specific topic make their best case for their findings and analysis. Chapters cover both positive and negative effects of video games on players' behavior and cognition, from contributing to violence and alienation to promoting therapeutic outcomes for types of cognitive dysfunction. The contrasting viewpoints model presents respectful scientific debate, encourages open dialogue, and allows readers to come to informed conclusions. Key questions addressed include: · Do violent video games promote violence? · Does video game addiction exist? · Should parents limit children's use of interactive media? · Do action video games promote visual attention? · Does sexist content in video games promote misogyny in real life? · Can video games slow the progress of dementia? · Are video games socially isolating? *Video Game Influences on Aggression, Cognition, and Attention* is a must-have resource for researchers, clinicians and professionals as well as graduate students in developmental psychology, social work, educational policy and politics, criminology/criminal justice, child and school psychology, sociology, media law, and other related disciplines.

Celebrating The Rag: Austin's Iconic Underground Newspaper - Alice Embree 2016

Celebrating The Rag tells the remarkable story of the legendary underground newspaper that sparked a political and cultural revolution and helped make Austin weird. The book features more than 100 articles from The Rag's 11-year history plus contemporary essays and eye-popping vintage art and photography. This collection captures the radical politics and subversive humor that marked the pages of this upstart newspaper between 1966 and 1977.

The 2012 Campaign and the Timeline of Presidential Elections - Robert S. Erikson 2014-02-26

Do voters cast ballots for the candidates whose positions best match their own? Or does the race for president come down to who runs the most effective campaign? In their book, *The Timeline of Presidential Elections*, published in 2012, Erikson and Wlezien documented how both factors come into play. Having amassed data from national polls covering presidential elections from 1952 to 2008, they could track how outcomes take shape over the course of an election year. But they wanted to know whether Barack Obama's

historic 2012 campaign would follow the same pattern. This e-book both presents the central arguments from *Timeline* and updates the statistical analysis to include data from 2012. The authors also use the 2012 presidential campaign as a test of the empirical patterns they found in the previous fifteen elections. They show that Obama's campaign conforms to their projections, and they confirm that it is through campaigns that voters are made aware of--or not made aware of--fundamental factors like candidates' policy positions that determine which ticket will get their votes. In other words, fundamentals matter, but only because of campaigns. The 2012 Campaign and the Timeline of Presidential Elections will be useful in courses on the election process.

Vasari's Words - Douglas Biow 2018-10-18

Explores through keywords how *Vasari's Lives* is designed to address a variety of compelling, culturally determined ideas.

Stairway to Paradise - Ari Katorza 2021-09-07

Stairway to Paradise reveals how American Jewish entrepreneurs, musicians, and performers influenced American popular music from the late nineteenth century till the mid-1960s. From blackface minstrelsy, ragtime, blues, jazz, and Broadway musicals, ending with folk and rock 'n' roll. The book follows the writers and artists' real and imaginative relationship with African-American culture's charisma. *Stairway to Paradise* discusses the artistic and occasionally ideological dialogue that these artists, writers, and entrepreneurs had with African-American artists and culture. Tracing Jewish immigration to the United States and the entry of Jews into the entertainment and cultural industry, the book allocates extensive space to the charged connection between music and politics as reflected in the Jewish-Black Alliance - both in the struggle for social justice and in the music field. It reveals Jewish success in the music industry and the unique and sometimes problematic relationships that characterized this process, as their dominance in this field became a source of blame for exploiting African-American artistic and human capital. Alongside this, the book shows how black-Jewish cooperation, and its fragile alliance, played a role in the hegemonic conflicts involving American culture during the 20th century. Unintentionally, it influenced the process of decline of the influence of the WASP elite during the 1960s. *Stairway to Paradise* fuses American history and musicology with cultural studies theories. This inter-disciplinary approach regarding race, class, and ethnicity offers an alternative view of more traditional notions regarding understanding American music's evolution.

Twelve Years a Slave - Solomon Northup 2021-01-01

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Plant Bioproducts - Guanqun Chen 2018-07-18

Among the major challenges facing society today, seeking renewable alternatives to petroleum-based fuels and manufactured goods is critically important to reducing society's dependency on petroleum and tackling environmental issues associated with petroleum use. In recent years there has been considerable research targeted toward the development of plant-derived bioproducts to replace petrochemical feedstocks for both fuel and manufacturing. Plants not only provide a large amount of renewable biomass, but their biochemical diversity also offers many chemical and molecular tools for the production of new products through biotechnology. *Plant Bioproducts* is an introduction to the production and application of plant bioproducts, including biofuels, bioplastics, and biochemicals for the manufacturing sector. Contributing authors examine various bioproducts with respect to their basic chemistry, relationship to current petrochemical-based products, and strategies for their production in plants. Chapters cover the integrated roles of agronomy, plant breeding, biotechnology, and biorefining in the context of bioproduct development. Environmental, economic, ethical, and social issues surrounding bioproducts, including the use of genetically modified crops, challenges to food security, and consumer acceptance, are also covered.
